The Board of Education and Residents
Des Moines Independent Community School District

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) for the Des Moines Independent Community School District (the District) for fiscal year ending June 30, 2019.

The District operates in compliance with Generally Accepted Accounting Principles (GAAP) and prepares its financial statements in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34. This report has been prepared to conform to guidelines recommended by the Association of School Business Officials International (ASBO) and the Government Finance Officers Association (GFOA) of the United States and Canada.

RSM US LLP, Certified Public Accountants, has issued an unmodified ("clean") opinion on the District's financial statements for the year ended June 30, 2019. The independent auditor's report is located at the front of the financial section of this report.

The responsibility for the accuracy and completeness of the presentation, including all disclosures, rests with management of the District. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that has been established for this purpose. The District believes that the data presented herein is accurate in all material respects, the data is presented fairly to set forth the financial position and results of operations of the District as measured by the financial activity of the various funds, and all necessary disclosures have been included, enabling the reader to gain the maximum understanding of the District's financial affairs.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the District's basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

As is the case every year, the District was required to undergo a single audit in conformity with the provisions of the Single Audit Act and Subpart F of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Information related to this Single Audit, including a schedule of expenditures of federal awards, summary schedule of prior audit findings, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements applicable to each major program and internal control over compliance, a schedule of findings and questioned costs, and corrective action plans (if any) are included in the single audit compliance section of this report.

Profile of the Government

In May 2017, the Iowa Legislature created limited home rule for Iowa school districts. The change provides more flexibility to school districts in their exercise of powers where the law or administrative rule does not already prescribe or prohibit the action. All Iowa school districts remain under the control of a local board of directors and have fiscal independence from other governmental entities. The District is a political subdivision of the State of Iowa, and, as such, operates public schools and supporting programs for children in preschool through grade twelve.

The District is governed by a seven-member Board of Education; members serve overlapping four-year terms and are elected on a non-partisan basis. The Board of Education operates under the policy governance model and, thus, is a policymaking and planning body whose decisions are carried out by the Superintendent.

The District serves more than 200,000 people who live in Polk and Warren Counties. Covering nearly 86 square miles, the District has developed in the heart of the Des Moines city center, east into Pleasant Hill, west into Windsor Heights, and south into Warren County. The District benefits from having strong and diverse neighborhoods and a citizenry deeply involved in its public education.

Here's what others have to say about Des Moines being a great place to live and work:

- 2019 – #5 Best Place to Live in the U.S. – U.S. News & World Report
- 2019 – #3 Best Affordable Place to Live in the U.S. – U.S. News & World Report

- 2014 – Des Moines is the #1 City with an Up and Coming Downtown – Forbes
- 2014 – Des Moines is the #6 City for raising a family – Forbes

The District provides a full range of programs and services including instructional, preschool, student services, school building administration, maintenance of sites and facilities, transportation, food service, custodial, extra co-curricular and athletic activities, and childcare. The District provides a comprehensive educational program appropriate to students in preschool through grade twelve. These services include regular and enriched academic education; special education; vocational education; and numerous individualized programs such as instruction for at-risk students, gifted and talented students, and students in the English Language Learner (ELL) program.

The District's enrollment for school year 2018-19 was 32,795, making it by far the largest public school district in Iowa. Students are served in 39 elementary schools, 10 middle schools, one standalone ninth grade academy, five comprehensive high schools, one alternative high school, a secondary career and technical institute, an advanced learning central academy, a virtual school, and other specialty schools and programs. The District also operates preschool programs for more than 2,000 children in four District preschool centers, a half-dozen elementary schools throughout Des Moines, as well as more than a dozen community partners. The District also maintains a maintenance/warehouse facility, a print shop, and athletic complexes. The average age of the District's buildings is 66 years. However, using Statewide Penny revenues, the District has ensured these buildings are well maintained for many additional years of future use. The District prefers to renovate and maintain current structures, as opposed to building new ones to replace them, whenever possible.

Des Moines Public Schools may be the biggest provider of public education in Iowa, but the District takes anything but a one-size-fits-all approach to educating students. In fact, families in Des Moines can find more educational options than anyplace in the state, including:

- *Advanced Placement.* Central Academy, attended by students from 10 central Iowa school districts, is one of Iowa's top AP programs, dedicated to providing a challenging curriculum. Central Academy provides additional services for students in comprehensive schools by offering the Gifted Core Pathway and unique AP and World Language courses. The Gifted Core Pathway fosters academic excellence through the challenge of compacted curricula by offering acceleration and enrichment for students who demonstrate early readiness for advanced work. Students, especially those under-represented in gifted programs, develop competence, connection, and confidence as they embrace challenging coursework. The Belin-Blank Center for Gifted Education and Talent Development placed Central Academy "in a class by itself" as a college preparatory school. In addition, DMPS has completed a significant expansion of AP course offerings throughout all five comprehensive high schools, providing thousands of student's access to rigorous and advanced courses.
- *International Baccalaureate.* Home to the first IB program in Iowa, DMPS offers this world-class educational opportunity at five elementary schools (Hubbell, Park Avenue, Stowe, Moore, and Walnut Street) and four middle schools (Brody, Goodrell, Meredith, and Merrill), and at Hoover High School.
- *Career & Technical Institute.* Located at Central Campus, CTI presents students with learning opportunities in several high-skill areas, including graphic design, broadcasting & film, culinary arts, fashion, skilled trades, and automotive technology. In addition, DMPS offers one of only three high school aviation programs certified by the FAA and has the largest marine biology program of any non-coastal high school. Central Campus is the first Iowa school named by the Department of Labor (DOL) as a "high-quality pre-apprenticeship" program.
- *Higher Education Partnerships.* Des Moines Public Schools' proximity to Drake University, Iowa State University, Des Moines University, Grandview University, Des Moines Area Community College, and other institutions of higher education have created numerous partnerships and collaborative efforts that support students, teachers, and administrators. This includes the District's Master's Degree Program available exclusively through Drake University offered to teachers who are part of the Blue Teaching Contract at little or no cost.
- *Downtown School.* The Downtown School, located in Central Campus, is a national model where students learn in multiage classes. The school has been nationally recognized for its innovative programming, including an extended calendar, and is a great option for parents who work in the heart of the city.
- *Montessori.* Cowles Montessori School is the only public Montessori program in Iowa, serving students in grades K-8. Students learn in multiage classrooms and children's natural curiosities are exploited to the fullest as they advance at their own pace.

- *Alternative Programs.* Scavo Alternative High School, Future Pathways, Orchard Place, Des Moines Alternative, and Middle School Alternative offer programming for students who may be struggling with attendance requirements at a comprehensive school or have other personal issues and need alternative programming.
- *Virtual School.* Virtual Campus is an online high school– designed and taught by DMPS educators – to provide greater equity of access and opportunity for success to all students. The District continues to expand course offerings each semester to fully maximize the virtual opportunities for students.

Des Moines educators and staff are recognized as being among the very best in their fields. These are just some of the awards and honors they have earned in recent years:

- 2019, 2018, 2017, 2016, 2015 – Meritorious Budget Award from the Association of School Business Officials
- 2019 Teacher of the Year – Des Moines chapter of the Izaak Walton League
- 2018, 2017, 2016, 2015, 2014, 2013, 2012, 2011, 2010, 2009, 2008, and 2007 Certificate of Excellence in Financial Reporting from the Association of School Business Officials for the District's comprehensive annual financial report
- 2018, 2017, 2016, 2015, 2014, 2013, 2012, 2011, 2010, 2009, 2008, and 2007 Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for the District's comprehensive annual financial report
- 2017, 2016, 2015, 2014, 2013 – Distinguished Budget Presentation Award from the Government Finance Officers Association
- 2018 Teacher of Promise – Iowa World Language Association
- 2018 Agriculture Leader of the Year – Iowa Department of Agriculture and Land Management
- 2018 Iowa School Social Worker of the Year – Midwest School Social Work Council
- 2018 Presidential Award for Excellence in Mathematics and Science Teaching – National Science Foundation, on behalf of the White House Office of Science and Technology Policy
- 2018 Iowa Middle School Physical Education Teacher of the Year - Iowa Association for Health, Physical Education, Recreation and Dance
- 2018 Des Moines Police Department Officer of the Year – Des Moines Rotary Club
- Ten awards in NSPRA's 2018 Publications and Electronic Media Awards competition, including six entries earning an Award of Excellence, the highest honor in each category
- 2018 Ally of the Year – Capital City Pride
- 2018 Iowa's Educator of the Year - National Speech & Debate Association
- 2018 Friend of Children Award - Iowa School Social Workers Association
- 2017 Stephen Tsai Award for Excellence in Autism Education - Autism Society of Iowa
- 2017 Iowa High School Press Association's Administrator of the Year - Iowa High School Press Association
- 2017 PBS Digital Innovator
- 2017 Six-time Energy Star Partner of the Year
- 2016 AP Teacher of the Year
- 2016 ISPRA Communicator of the Year
- 2016 Five-time Energy Star Partner of the Year
- 2016 Des Moines Register Coach of the year
- 2015 Magna Award – National School Board Association
- 2015 Iowa Teacher of the Year
- 2015 Ten National Award Winners
- 2015 "Why Des Moines Can be a Model for Urban Education" – National Journal
- 2015 District of Distinction – District Administration Magazine
- 2014 Iowa Elementary School Counselor of the Year
- 2014 Presidential Award for Excellence in Mathematics and Science Teaching finalists
- 2014 Prostart Educator of Excellence Award
- 2014 Iowa School Social Worker of the Year by the Iowa School Social Workers Association
- 2014 Four Rotary Educators of the Year

- 2014 Rising Star by the Journalism Education Association
- 2014 Two Finalists for Iowa Teacher of the Year
- 2013 Finalist for Iowa Teacher of the Year
- 2013 recipient of a Sunny Award for having one of the most transparent government websites in the nation

Economic Condition and Outlook

Local Economy - The Des Moines Independent Community School District is in the center of Iowa, primarily in the city of Des Moines (the City). The City is the industrial, technology, commercial, financial, trade, transportation, and governmental center of Iowa. The City's insurance industry is the third largest in the world, after London and Hartford, with more than 200 insurance offices/headquarters located in Des Moines. Insurance activities are part of a strong local economy that is also based in agriculture, manufacturing, technology, education, health care, and other services. Principal Financial Group, Inc. and UnityPoint Health Systems are the major private employers within the District. Des Moines, the city proper, is comprised of 80.87 square miles of land with a population of 217,000, approximately 25 percent of which is younger than 18. The median household income (2017) in Des Moines was $49,9998, and approximately 18.1 percent of persons live below the poverty line.

Today, Iowa's economy stands on firm ground and currently has one of the lowest unemployment rates in the United States. A steady employment outlook resulted in Iowa's unemployment rate remaining steady at 2.6 percent in June 2019 and in June 2018. According to a report issued by the Iowa Legislative Services Agency (LSA) for FY 2020, the REC estimates growth from fiscal year 2019 to fiscal year 2020 will be positive 1.9 percent. In dollar terms, net revenue is projected to increase $144.8 million for FY 2020. (LSA Fiscal Update, March 15, 2019).

The District has experienced slow but steady increases in its tax base, averaging approximately one percent per year. At the same time, enrollment taken on October 1, 2018, which affects fiscal year 2020 state aid, decreased by 0.8 percent, as compared to the October 1, 2017 count. The amount of state supplemental aid for fiscal year 2019 is 2.06 percent. Enrollment is projected to remain decrease slightly in future years.

Long-Term Financial Planning and Relevant Financial Policies - The District's solvency ratio is a measure of the District's fund equity position and is defined as the unassigned fund balance (commonly referred to as the cash reserves) divided by the District's total General Fund revenues, less AEA flow-through. Board guidelines state that the solvency ratio should not go below three percent, without prior knowledge of the Board. The Iowa Association of School Boards (IASB) considers a solvency ratio of zero to five percent to be adequate for short-term credit purposes, while a ratio of five to 10 percent is within "Target" or "Good" and therefore "can handle the unexpected." In addition, during the 2012-13 school year, the District's School Board approved a 15.0 percent target for the District's solvency ratio. The solvency ratio for the District increased to 15.1 percent as of June 30, 2019, compared to 12.7 percent in the prior year.

In addition, the Board monitors the District's unspent spending ratio. This ratio is a measure of the District's unbudgeted authorized spending capacity (not cash reserves) and is defined as the District's unspent spending authority divided by the District's maximum budget authority. It should be noted that reaching the maximum budget authority level would require the board to authorize and levy additional property taxes. The IASB recommends this ratio be in the target range of 10 - 20 percent. The projected unspent spending authority balance ratio is 1.9 percent, down from 3.0 percent for the prior year.

Major Initiatives: The District has completed the fifth phase of bonding ahead on the Statewide Penny. The District sold Revenue Bonds in FY 2018 to minimize future inflationary increases by condensing repair and renovation costs from a 10-year plan into a five-year plan. The bonds will be paid back using Statewide Penny revenue.

The District continues to treat energy savings/consumption as a priority. Currently 100 percent of classrooms are air conditioned. This is a 35 percent increase since 2008. Forty-one (41) of our schools utilize the earth's natural temperatures to heat and cool our buildings. Fifty (50) schools are ENERGY STAR qualified which means they operate in the upper 25 percent of like buildings nationally. Recognition of our sustainability is that the District was recognized with these major awards:

- 2018, 2017, 2016, 2015, 2014 ENERGY STAR Partner of the Year – Environmental Protection Agency, Department of Energy
- 2017 Facilities Maintenance Decisions Achievement Award (FMDAA)
- 2016 Governor's Iowa Environmental Excellence Award in Energy Efficiency/Renewable Energy
- 2016, 2015, 2014 ENERGY STAR Partner of the Year: Climate Communications – Environmental Protection Agency, Department of Energy
- 2015 Environmental Protection Agency's ENERGY STAR National Building Competition: Operations Center and Greenwood Elementary School top finishers in the category of water-use reduction for individual buildings. DMPS High Schools team finished #5 for water-use reduction out of all teams entered.
- 2014 Environmental Protection Agency's ENERGY STAR National Building Competition: Findley Elementary School ranked #1 in education category for the most energy-consumption reduction among all entered K-12 facilities. Pleasant Hill a top finisher in the category of water-use reduction with five additional facilities posting more than 20-percent reductions in water use.
- 2014 Building Operations Managements FMXcellence Recognition

The District is in the process of continuing to invest heavily in technology in the classroom. This is slated to be accomplished through the District's IT Blueprint. The District has installed state-of-the-art interactive projectors in every classroom and has rolled out students' devices in every building. The District is also incorporating a blended learning approach in the classroom as well as a virtual school. This is an ongoing initiative to ensure each student is taught in a 21st century learning environment.

Voters approved the continuation of the District Property, Plant, And Equipment Levy (PPEL) on September 14, 2010 for another 10 years. With this vote, the District will continue to receive PPEL funds through fiscal year 2021. The District began planning outreach to ask the community to vote on November 5, 2019 to extend and expand the PPEL levy as a dedicated source of funding for technology.

Other Financial Information

Internal Control. District management is responsible for establishing and maintaining an internal control system designed to ensure that its assets are protected from loss, theft, or misuse and that adequate accounting data are compiled to allow for the preparation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America. Internal control is designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal, state, and county financial assistance, the District also is responsible for ensuring that an adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control is subject to periodic evaluation by management and external auditors.

As a part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control over financial reporting and its compliance with applicable laws and regulations, including those related to major federal awards programs. The results of the District's single audit for the fiscal year ending June 30, 2019 provided no instances of material weaknesses in the internal control or violations of applicable laws.

Budgetary Controls. In addition, the District maintains strong budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of the General Fund, Special Revenue funds, Debt Service Fund, Enterprise funds, Capital Projects Fund, and Private Purpose Trust Funds are included in the annual appropriated budget by program. Project length financial plans are adopted for Capital Projects funds and budgeted accordingly on an annual basis. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the function level for all combined funds, rather than at the individual fund level.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound fiscal management.

Basis of Presentation. The charts and accounts used by the District have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Governmental Units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records materially conform to the Uniform Accounting System for Iowa Schools, Chapter 11 of the Code of Iowa and Area Educational Agencies issued by the Iowa Department of Education. The chart of accounts manual is updated annually, and the District is materially in compliance with these requirements.

Independent Audit. The accounting firm RSM US LLP was selected to perform the annual audit in accordance with Chapter 11 of the Code of Iowa. In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the federal Single Audit Act and Subpart F of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The auditor's report on the basic financial statements, combining and individual fund statements and other schedules, is included in the financial section of this report. The Comprehensive Annual Financial Report also includes a statistical section which is unaudited.

Awards and Acknowledgments

The District is pleased to say that GFOA awarded a *Certificate of Achievement for Excellence in Financial Reporting* to the District for its CAFR for fiscal year ended June 30, 2018. The District has received this recognition from GFOA since 2007. To be awarded a *Certificate of Achievement*, a district must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

In addition, ASBO International awarded a *Certificate of Excellence in Financial Reporting* to the District for fiscal year ended June 30, 2018. The District has received this recognition from ASBO since 2007. This award represents the highest recognition for school district operations offered by ASBO International.

Each Certificate is valid for a period of one year only, and the certificates for fiscal year 2018 are included in this report. The District believes that the current CAFR continues to meet the requirements for the GFOA and ASBO International Certificate programs and will be submitting it to GFOA and ASBO International to determine eligibility for another certificate.

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated efforts of the District's accounting and payroll staff and the auditors from RSM US LLP. The District would like to express its appreciation to all staff members who assisted and contributed to this report as well as members of city and county governments. Also, appreciation is expressed for the interest and support of the Board of Education in conducting the financial operations of the District in a most responsible and progressive manner.

Respectfully submitted,

Dr. Thomas M. Ahart, Superintendent	Nicholas Lenhardt, Controller

Independent Auditor's Report

To the Board of Education
Des Moines Independent Community School District

Report on the Financial Statements
We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Des Moines Independent Community School District (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions
In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information
Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 15, the schedule of changes in the District's total OPEB liability and related ratios on page 64, the Iowa Public Employees' Retirement System pension plan schedules on pages 65 through 68, the Des Moines Teachers' Retirement System pension plan schedules on pages 69 through 75 and the budgetary comparison schedule on pages 76 through 78 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information
Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining nonmajor fund financial statements and individual fund statements, listed in the table of contents as supplementary information, and the accompanying schedule of expenditures of federal awards, as required by the Single Audit Act and Subpart F of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

This supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying introductory and statistical sections, as listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Management's Discussion and Analysis
Year Ended June 30, 2019

This Management's Discussion and Analysis is provided by the management of the Des Moines Independent Community School District (the District) to offer readers an overview and analysis of the financial activities of the District for the fiscal year that ended June 30, 2019. We encourage readers to consider the Discussion and Analysis presented here in conjunction with the financial statements, which follow.

Financial Highlights

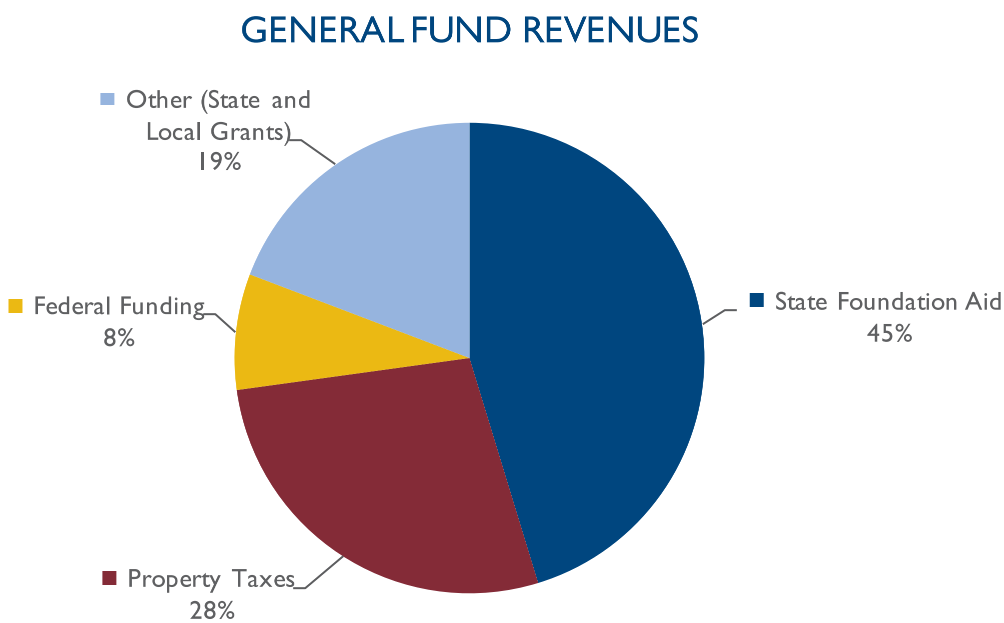
- **Budget**: The state of Iowa legislatively approved a state supplemental aid factor of 1.00% for fiscal year 2019. For fiscal year 2020, the state supplemental aid rate is 2.06%.

  In April 2018, the Board approved an expenditure budget for fiscal year 2019 for all funds of $558.2 million (without transfers) or $581.0 million (including transfers). In May 2019, the Board approved a budget amendment to increase expenditures by $14.9 million.

  This year, actual expenditures for all funds by major function were less than anticipated, $17.0 million less than budgeted.

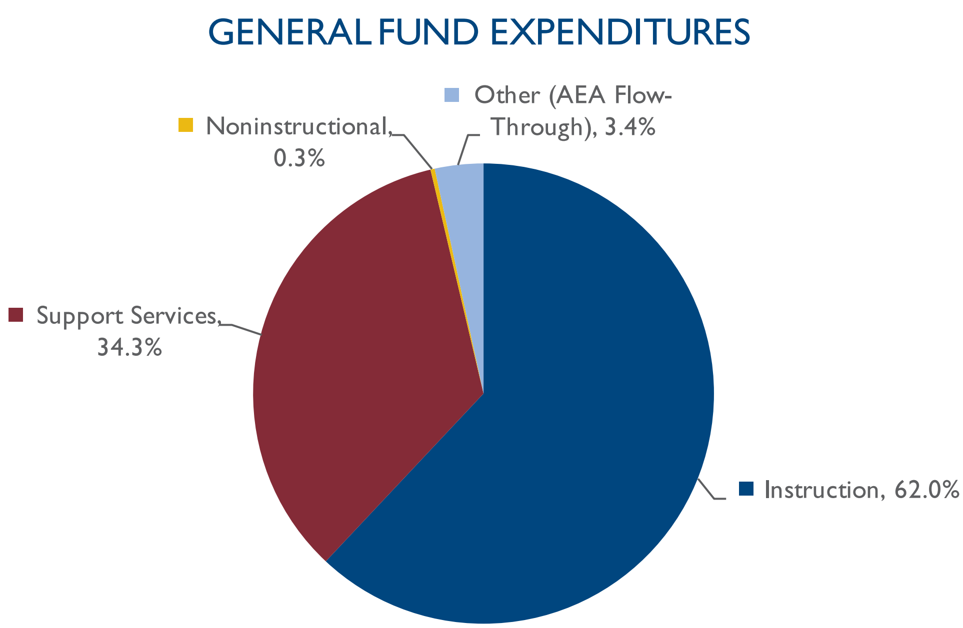
- **Revenue**: Government-wide revenues were $538.1 million, which primarily consisted of state aid, property taxes, federal grants, and local option sales taxes. General Fund revenues accounted for 83.7% of the Government-wide revenue. Program specific revenues in the form of charges for services and grants and contributions accounted for 27.6% of total fiscal year 2019 revenues.

  The General Fund had $450.5 million in revenues for fiscal year 2019, which primarily consisted of state aid and property taxes. General Fund revenues increased 1.7% in fiscal year 2019, primarily due to an increase in the supplemental state aid and property tax valuation increases.



Expenses: Government-wide expenses, including business-type activities, were $519.3 million, of which $148.3 million of these expenses were offset by program specific charges for services or grants and contributions. General revenues of $389.9 million provided for the remaining costs of these programs.

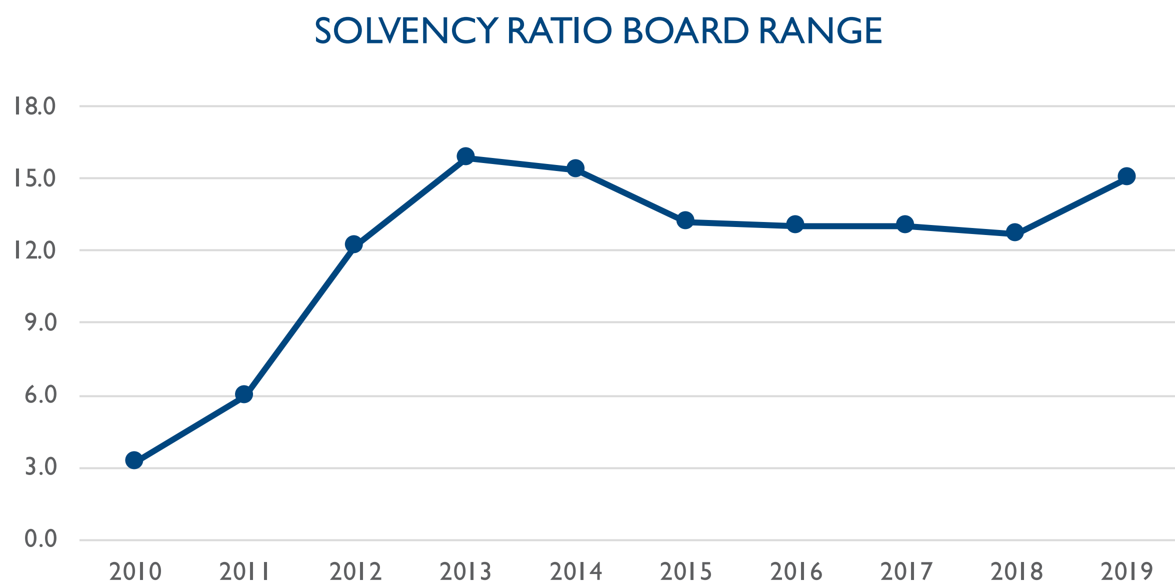
The General Fund had $440.1 million in fiscal year 2019 expenditures, which primarily consisted of instructional expenditures. General Fund expenditures decreased 0.5%, due to a reduction of personnel and overall expenditures to ensure we maintained compliance with the District's spending authority requirements. The reductions primarily came in the form of utilization of other funding sources for ongoing expenditures.



- **General Fund Balance and Solvency Ratio:** The District's overall General Fund balance increased from $84.1 million as of June 30, 2018 to $96.8 million as of June 30, 2019, an increase of $12.7 million. The District, like all school districts in the state, is required to maintain a balanced budget. In an effort to balance the District budget, one of many strategies the District employed was to ensure revenue and expenditures remained balanced.

  The General Fund unassigned portion of fund balance increased from $50.4 million as of June 30, 2018 to $62.6 million as of June 30, 2019, an increase of $12.2 million.

The District's solvency ratio increased from 12.7% as of June 30, 2018 to 15.1% as of June 30, 2019.



The Board established a solvency ratio minimum of 15% during fiscal year 2013. The Iowa Association of School Boards (IASB) considers a solvency ratio of 0%-5% to be adequate for short-term credit purposes, while a ratio of 5%-10% is within "target" or "good" and, therefore, "can handle the unexpected." The GFOA recommends at least two months of expenditures of cash on hand, which equates to approximately a 17% solvency ratio for the District. The District will continue to focus efforts on maintaining the solvency ratio to meet the 15% objective.

- **Debt:** The District's total long-term debt decreased by a net of $15.4 million during the current fiscal year due to continued principal payments on existing bonds. The total outstanding bond debt at the end of the fiscal year is approximately $190.7 million, consisting of revenue bonds.

Overview of the Financial Statements
This Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements. This report also contains required supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements: The Government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements provide both short-term and long-term information about the District's overall financial status. That is, all of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when the cash is received or paid.

Over time, increases or decreases in the District's net position are an indicator of whether the financial position is improving or deteriorating, respectively. However, to assess the District's overall financial health, nonfinancial factors should also be considered, such as changes in the District's property tax base and the condition of District school buildings.

In the Government-wide financial statements, the District's activities are divided into two categories:

- ***Governmental activities*****:** These are activities primarily supported by property taxes and intergovernmental revenues such as state aid or federal funding, and expenditures are classified by function such as instruction, support services, operation and maintenance of plant, student transportation, operation of noninstructional services, and capital construction.

- ***Business-type activities:*** These are supported by fees charged by the District to help cover the costs of services such as food services, childcare services, home remodeling, and automotive services.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. These statements focus on individual parts (funds) of the District, reporting the District's operations in more detail than the Government-wide statements. Some funds are required by state law or bond covenants and some are established to control and manage money for particular purposes.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- ***Governmental funds:*** Governmental funds are used to account for essentially the same functions reported as governmental activities in the Government-wide financial statements. These statements explain how basic services, such as regular program and special education, were financed in the short-term as well as what remains for future spending.

  Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

  Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund and the Capital Projects Funds, which are considered major funds. Data from the other governmental funds are combined into a single, aggregated presentation. This aggregated information includes the Special Revenue Funds of Student Activity, Management, and DMPS expendable trust funds; Capital Projects Funds of Physical Plant and Equipment Levy (PPEL) and Public Education and Recreation Levy (PERL); Permanent Funds; and the Debt Service Fund.

  Proprietary funds: Proprietary funds offer short-term and long-term financial information about the activities the District operates like businesses, i.e., fees are charged to cover the cost of services rendered.

  These funds include activities defined as enterprise funds and internal service funds. The District's enterprise funds are all considered nonmajor and include School Nutrition, Child Care, Home Construction, and Automotive.

The District has three internal service funds: Self-Insurance, Risk Management, and Print Shop. Because all of these services predominately benefit the District's governmental activities, rather than the business-type activities, they have been included in the governmental activities in the Government-wide financial statements. The District did have a fourth internal service fund, Collage, but consolidated those operations with the Print Shop in fiscal year 2017.

- ***Fiduciary funds:*** Fiduciary funds provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others. Fiduciary funds are not reflected in the Government-wide financial statements, because the resources of those funds are not available to support the District's own programs. These funds include Pension Trust, Private Purpose Trust, and Agency Funds.

Notes to basic financial statements: The financial statements also include notes that provide additional information that is essential to a full understanding of the data provided in the Government-wide and fund financial statements.

Major features of the Government-wide and fund financial statements:

	Government-Wide Statements	**Fund Financial Statements**		
		Governmental Funds	**Proprietary Funds**	**Fiduciary Funds**
Scope	Entire District (except fiduciary funds)	Activities that are not proprietary or fiduciary, such as instruction, administration, and building maintenance	Activities the District operates similar to private businesses such as school nutrition	Activities the District administers resources on behalf of someone else, such as scholarships
Required financial statements	Statement of Net Position Statement of Activities	Balance Sheet Statement of Revenues, Expenditures and Changes in Fund Balances	Statement of Net Position Statement of Revenues, Expenses and Changes in Net Position Statement of Cash Flows	Statement of Fiduciary Net Position Statement of Changes in Fiduciary Net Position
Accounting basis	Accrual accounting	Modified accrual accounting	Accrual accounting	Accrual accounting
Measurement focus	Economic resources focus	Current financial focus	Economic resources focus	Economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital and short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or within specified periods after year-end of the year; expenditures when goods or services are received and liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and other postemployment benefit information. The District adopts an annual budget for all budgeted governmental funds, enterprise, and trust funds in total. A budgetary comparison schedule has been provided.

Government-Wide Financial Analysis

Net position: The following table presents a summary of the District's net position for the year ended June 30, 2019 with comparison totals as of June 30, 2018.

	Governmental Activities 2019	Governmental Activities 2018	**Business-Type Activities 2019**	Business-Type Activities 2018	**Total 2019**	Total 2018
Current assets and other assets	**$ 442,272,461**	$ 448,818,394	**$ 4,226,589**	$ 4,691,144	**$ 446,499,050**	$ 453,509,538
Capital assets, net	**549,607,061**	541,262,231	**2,445,207**	2,370,341	**552,052,268**	543,632,572
Total assets	**991,879,522**	990,080,625	**6,671,796**	7,061,485	**998,551,318**	997,142,110
Deferred outflows of resources	**81,502,392**	78,919,129	**2,466,960**	2,774,796	**83,969,352**	81,693,925
Current liabilities	**97,209,405**	96,568,487	**716,736**	871,317	**97,926,141**	97,439,804
Long-term liabilities	**431,971,223**	484,643,835	**8,152,172**	8,351,913	**440,123,395**	492,995,748
Total liabilities	**529,180,628**	581,212,322	**8,868,908**	9,223,230	**538,049,536**	590,435,552
Deferred inflows of resources	**191,792,813**	154,907,635	**629,379**	362,519	**192,422,192**	155,270,154
Net position:						
Net investment in capital assets	**459,486,214**	441,037,719	**2,445,207**	2,370,341	**461,931,421**	443,408,060
Restricted	**28,677,324**	34,985,107	**-**	-	**28,677,324**	34,985,107
Unrestricted	**(135,755,065)**	(143,143,029)	**(2,804,738)**	(2,119,809)	**(138,559,803)**	(145,262,838)
Total net position	**$ 352,408,473**	$ 332,879,797	**$ (359,531)**	$ 250,532	**$ 352,048,942**	$ 333,130,329

The District's combined net position as of June 30, 2019 was more than the combined net position as of June 30, 2018. The increase pertaining to net investment in capital assets was the result of the capitalization of school renovation, major repair projects that were completed as part of the District's Schools First and Students First Renovation Plans. It should be noted that the District uses these capital assets to provide educational services; consequently, these assets are not available for future spending. The primary reason for the overall increase in the total net position was the continued impact of GASB Statement No. 75 (Other Post Employment Benefits – OPEB) and the District's pension plans in accordance with GASB Statement No. 68. Statement No. 75 requires the District to report a liability for the OPEB they provide. Statement No. 68 requires the District to report their proportionate share of the Iowa Public Employees Retirement System (IPERS) as well as the Des Moines Teachers Retirement System (DMTRS). Please refer to Note 9 and Note 10 for further details.

At the end of the current fiscal year, the District is able to report a positive balance in total net position. The same held true for the prior year.

Changes in net position: The following schedule shows the changes in net position for the year ended June 30, 2019 with comparison totals for the year ended June 30, 2018. The difference between revenues and expenditures represents the change in net position.

	Governmental Activities 2019	Governmental Activities 2018	**Business-Type Activities 2019**	Business-Type Activities 2018	**Total 2019**	Total 2018
Revenues:						
Program revenues:						
Charges for services	**$ 35,903,091**	$ 26,312,044	**$ 6,939,984**	$ 7,547,428	**$ 42,843,075**	$ 33,859,472
Operating grants and contributions	**86,167,139**	95,083,902	**19,297,198**	19,333,214	**105,464,337**	114,417,116

Transfers	**1,112,380**	1,142,874	**(1,112,380)**	(1,142,874)	**-**	-
Change in net position	**19,528,676**	(7,753,876)	**(610,063)**	(739,149)	**18,918,613**	(8,493,025)
Net position, beginning	**332,879,797**	340,633,673	**250,532**	989,681	**333,130,329**	341,623,354
Net position, (deficit) ending	**$ 352,408,473**	$ 332,879,797	**$ (359,531)**	$ 250,532	**$ 352,048,942**	$ 333,130,329

- The main revenue sources were state aid and other state sources, property taxes, and sales taxes, which account for 70.9% of total revenue.

- The District's expenses primarily relate to instruction and support services which account for 90.8% of the total expenses.

- Overall, the District had an increase in net position of $18.9 million in 2019. The change in net position was a decrease of $8.5 million in 2018.

- Governmental activities increased the net position by $19.5 million, which is 103.0% of the total increase in net position. The change was primarily the result of reductions of personnel and overall expenditures to ensure we maintained compliance with the District's spending authority requirements. The reductions primarily came in the form of utilization of other funding sources for ongoing expenditures.

Governmental Activities

- State foundation aid and other state sources, property taxes, and sales taxes are the primary sources of revenue for the District, 39.8%, 28.5% and 6.2%, respectively, of total governmental activities revenues for fiscal year 2018 compared to 41.3%, 27.3% and 6.2%, respectively, for fiscal year 2019. Overall, revenue increased 3.1% primarily due to an increase in state supplemental aid revenue and property tax revenue. Instruction constitutes the largest portion of expenditures at $305.2 million, representing 61.8% of governmental activities expenses. The District offers a wide array of programs including general and special education, vocational, and college preparatory classes.

- The noninstructional and other expenses of the District accounted for 4.5% of total costs.

Net Cost: The following table presents the total and net cost of the District's major governmental activities including instruction, other support services, noninstructional programs, and other expenses for fiscal year 2019, with comparative totals for fiscal year 2018:

	2019		2018	
	Total Expenses	**Net (Expense) Revenue**	Total Expenses	Net (Expense) Revenue
Instruction	**$ 305,170,678**	**$ (208,914,904)**	$ 314,831,138	$ (219,255,661)
Other support services	**166,145,869**	**(155,366,467)**	164,388,581	(153,459,680)
Noninstructional programs	**936,462**	**(816,406)**	4,982,212	(4,842,547)
Other expenses	**21,265,433**	**(6,350,435)**	20,428,299	(5,676,396)
Total expenses	**$ 493,518,442**	**$ (371,448,212)**	$ 504,630,230	$ (383,234,284)

Net cost of governmental activities was financed by general revenues, which are made up of primarily property taxes and state aid. Federal and state governments and charges for services subsidized certain programs with federal funds, grants and contributions, and other local revenues of $122.1 million, representing 24.7% of total governmental activities expenses.

Business-Type Activities – Change in Net Position:

- The School Nutrition and Child Care programs constitute the majority of the business-type activities.
- The School Nutrition's primary sources of revenue are federal revenue and student fees and the primary expenses are staff and commodities. The District's free and reduced participation increased as did the District's involvement with the federal Community Eligibility Program (CEP). These two items increased the amount of federal revenue, while the amount of student fees decreased. The School Nutrition Fund had a decrease in net position of $0.5 million for fiscal year 2019.
- The primary source of revenue for the Child Care program is childcare fees and the primary expense is staff. The Child Care Fund had a decrease in net position of $0.1 million for fiscal year 2019.

Financial Analysis of the District's Funds

Governmental Funds Highlights

General Fund:

- The General Fund is the principal operating fund of the District. The increase in fund balance in the General Fund for the fiscal year was $12.7 million. The District's solvency ratio increased to 15.1% primarily due to reductions of personnel and overall expenditures to ensure we maintained compliance with the District's spending authority requirements. The reductions primarily came in the form of utilization of other funding sources for ongoing expenditures.
- The increase in General Fund revenues (7.5%) in fiscal year 2019 compared to fiscal year 2018 was primarily due to an increase in investment earnings of 97.5% and increase in federal sources of 5.9%.
- The decrease in General Fund expenditures (2.2%) in fiscal year 2019 compared to fiscal year 2018 was primarily due to reductions of personnel and overall expenditures to ensure we maintained compliance with the District's spending authority requirements. The reductions primarily came in the form of utilization of other funding sources for ongoing expenditures.

Capital Projects Fund:

- The Capital Projects Fund has a total fund balance of $105.3 million for 2019 and $112.5 million for 2018. The net decrease in the Capital Projects fund for the fiscal year was due to the District did not issue any additional revenue bonds in the current year. Additionally the District continued to expend more expenditures than current year revenue to complete the current 5 year plan.

Business-Type Activities – Proprietary Fund Highlights

There are no major enterprise funds. The School Nutrition Fund represents 78.3% of the expenses of total enterprise funds. The District's percent of students eligible for free and reduced meals increased from fiscal year 2018 (74%) to 2019 (76%). The number of schools served through the CEP program increased again this year. The CEP program enables the District to serve meals at no cost to the students for the entire attendance area (school). As such there was a decrease in operating revenues from meal charges to students as more schools shifted to the CEP.

Budgetary Highlights

In accordance with state law, the Board annually adopts a budget following the public notice and hearing requirements. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared in accordance with accounting principles generally accepted in the United States of America. As is the District's practice, the District modified its adopted budget once during fiscal year 2019.

- This year, expenditures (including transfers) for all funds by major function were less than anticipated, at $17.0 million less than the final budget.

- The District's General Fund, its principal operating fund, continues to remain financially solvent.

- The District received 101.1% of budgeted General Fund revenues, property taxes collected were slightly above budget, federal revenues were 91.3% of budget; other revenues were 102.2% of budget. Overall General Fund revenue increased 7.5% over the prior year primarily due to increases in property tax revenue and federal sources.

- The District spent 99.6% of budgeted General Fund expenditures based on the final budget. General Fund expenditures decreased from the prior year primarily due to the expenditure reductions coupled with an overall staffing shortage. The District had several positions that were not filled throughout the year due to the low unemployment rate in the Des Moines Metro area.

- At the end of fiscal year 2019, the projected unspent authorized budget (spending authority) ratio for the General Fund is projected to be 1.9%, a decrease when compared to 3.0% at the end of fiscal year 2018. After making significant expenditure reductions in fiscal year 2019 and for fiscal year 2020, the unspent spending authority ratio is projected to increase in fiscal year 2020.

Capital Assets and Debt Administration

Capital Assets: As of June 30, 2019, the District had invested $552.1 million in capital assets, including school buildings and major repairs, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase of $8.4 million from last year, primarily due to the accelerated spending on the Schools First and Students First school renovation plan as a result of the receipt of the proceeds of $70 million in revenue bonds during fiscal year 2010, again in 2012 ($71.9 million), as well as additional bonding in 2013 ($8.78 million) and in 2014 ($61.9 million). Refunding bonds were issued in fiscal year 2017 to refund the 2010 bonds. The District issued another round of bonds in fiscal year 2018 in the amount of $56.2 million.

The following schedule presents capital asset balances, net of accumulated depreciation, for the fiscal year ended June 30, 2019, compared with balances as of June 30, 2018:

	Governmental Activities 2019	Governmental Activities 2018	**Business-Type Activities 2019**	Business-Type Activities 2018	**Total 2019**	Total 2018
Land	**$ 4,963,615**	$ 4,748,051	**$ -**	$ -	**$ 4,963,615**	$ 4,748,051
Construction-in-progress	**36,015,506**	19,343,037	**192,862**	177,974	**36,208,368**	19,521,011
Land improvements	**1,579,244**	1,789,759	**-**	-	**1,579,244**	1,789,759
Buildings and improvements	**496,455,880**	504,269,704	**-**	-	**496,455,880**	504,269,704
Vehicles, furniture and equipment	**10,592,816**	11,111,680	**2,252,345**	2,192,367	**12,845,161**	13,304,047
Total	**$ 549,607,061**	$ 541,262,231	**$ 2,445,207**	$ 2,370,341	**$ 552,052,268**	$ 543,632,572

Additional information on the District's capital assets can be found in Note 5 to the Basic Financial Statements.

Debt Administration: As of June 30, 2019, the District had $190.7 million in bonds outstanding, of which $16.0 million is due within one year. The following table presents a summary of the District's outstanding long-term debt for the year ended June 30, 20119, with comparative information as of June 30, 2018:

	2019	2018
Sales tax revenue bonds	**$ 190,685,000**	$ 206,090,000

State statutes currently limit the amount of debt a district may issue to 5% of its total assessed valuation. The District's debt limitation for fiscal year 2020 is $567.3 million, which is substantially more than the District's outstanding debt.

Additional information about the District's debt can be found in Note 6 to the basic financial statements.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could affect its financial health in the future:

- District enrollment decreased slightly from October 2017 to October 2018 by approximately 0.8%, thus remaining stable overall. The enrollment in October 2018 multiplied by the district cost per student determines the amount of state foundation aid the District will receive for fiscal year 2020 from a combination of state aid and property taxes. The cost per student from year to year increases by a factor known as state supplemental aid. Normally, state supplemental aid is set by the legislature two years prior to the year it will affect the cost per student. The state supplemental aid rate for fiscal year 2019 was 1.00%, state supplemental aid rate for fiscal year 2020 is 2.06%.

- Enrollment per modeling done by the Iowa Department of Education is projected to remain stable or increase slightly in future years. However, this District is projecting stable or slight decreased in future years using alternative modeling techniques.

- The statewide penny sales (SWP) tax was implemented in the District on July 1, 2010. The District's SWP tax revenue for each fiscal year is calculated by multiplying the certified enrollment by the statewide average tax revenue per student. The statewide average is calculated by dividing the total statewide penny sales tax revenue by the statewide enrollment. For fiscal year 2019, total statewide penny sales tax revenue was projected to be $494,111,442 while statewide enrollment increased to 486,264, producing a statewide average tax revenue per student of $1,016 for fiscal year 2019. The Iowa Department of Management anticipates the statewide average will increase approximately 4% for fiscal year 2020.

- Spending Authority implications - The state controls the maximum amount each district can spend each year through the spending authority function. Under the spending authority control, it is illegal for a school district to exceed its maximum authorized budget. (To reach the maximum budget authority level, the Board would have to authorize and levy additional property taxes.) It is important to understand that the limit on spending is the amount of <u>spending authority</u> a district has, not the amount of cash or fund balance a district has. The District's total spending authority includes the current-year authorized budget *plus* the unspent authorized budget from the prior year (e.g., the amount of money that a district was authorized to spend in a fiscal year but did not, similar to "savings").

  Spending authority is directly tied to student enrollment, and there are only three general means by which the District's spending authority can increase: (1) increased State Supplemental Aid (i.e., Allowable Growth), (2) increased enrollment, or (3) increased miscellaneous income. The District does not anticipate significant growth in any of those three areas. (Note: for budget planning purposes, the District views consistent enrollment increases of less than 1% as insignificant.)

The unspent spending authority ratio is a measure of the District's unbudgeted authorized spending capacity (not cash reserves) and is defined as a district's unspent spending authority divided by the district's maximum budget authority. The Iowa Association of School Boards (IASB) recommends this ratio be in the target range of 10%-20%. The Board adopted guidelines in fiscal year 2012 setting the target for the District's unspent spending authority ratio at 10%; in 2015 the Board raised this target to 15%. The unspent spending authority ratio for fiscal year 2018 was 3.0% and 1.9% for fiscal year 2019. It is projected the unspent spending authority for fiscal year 2020 will continue to increase.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, please contact:

Des Moines Independent Community School District

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities
June 30, 2019

Total governmental fund balances		$	214,075,941
Amount reported for governmental activities in the statement of net position are different because:			
Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported in the funds:			
Land	$ 4,963,615		
Construction-in-progress	36,015,506		
Land improvements	9,868,310		
Buildings and improvements	673,678,235		
Vehicles, furniture and equipment	29,589,892		
Accumulated depreciation	(204,526,749)		549,588,809
Other long-term assets are not available to pay for current-period expenditures and, therefore, reported as deferred inflows of resources—unavailable revenue, in the governmental funds.			1,190,300
Internal service funds are used by management to charge the costs of certain activities, such as self-insurance benefits for employees and print shop services to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.			9,175,181
Pension and OPEB related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds, as follows:			
Deferred outflows of resources—IPERS	58,319,713		
Deferred outflows of resources—DMTRS	21,967,260		
Deferred inflows of resources—IPERS	(10,036,508)		
Deferred inflows of resources—DMTRS	(6,422,323)		
Deferred inflows of resources—OPEB	(29,502,210)		34,325,932
Certain assets and liabilities, including bonds and notes payable, are not due and payable in the current period and, therefore, are not reported as assets or liabilities in the funds. These assets and liabilities at year-end consist of:			
Net pension liability—DMTRS	(3,535,607)		
Net pension liability— IPERS	(198,598,526)		
Compensated absences	(3,632,828)		
Sales tax revenue bonds	(190,685,000)		
Bond premiums	(7,797,290)		
Accrued interest payable	(546,324)		
Deferred charge on refunding	1,215,419		
Claims payable for workers' compensation	(4,809,500)		
Retrospective insurance rating plan	(827,768)		
Other postemployment benefits	(45,343,071)		
Pollution remediation liability	(91,205)		
Termination benefits	(1,295,990)		(455,947,690)
Net position of governmental activities		$	352,408,473

See notes to basic financial statements.

Des Moines Independent Community School District

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended June 30, 2019

Net change in fund balances—total governmental funds			$	(1,232,701)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period and other transactions involving capital assets:				
Capital outlay	$	23,495,644		
Depreciation expense		(14,628,696)		
Proceeds from sale of capital assets		(1,245,595)		
Gain on sale of capital assets		717,474		8,338,827
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, which represents the change in deferred inflows of resources—unavailable revenue.				(1,098,129)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of bond premiums, whereas this amount is reported as a liability and amortized in the statement of activities:				
Repayment of bond principal		15,405,000		
Amortization of bond premiums		1,516,393		
Deferred amount on refunding amortization		(260,477)		16,660,916
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:				
Decrease in compensated absences		14,264		
Increase in retrospective insurance rating plan		(266,143)		
Decrease in accrued interest expense		103,749		
Increase in claims payable for workers' compensation		(882,710)		
Increase in pollution remediation liability		(12,003)		
Pension expense		(12,771,628)		
OPEB expense		(348,485)		
Decrease in termination benefits		10,636,079		(3,526,877)
Internal service funds are used by management to charge the costs of certain activities, such as self insurance benefits for employees and print shop services, to individual funds. The change in net position in the internal service funds is reported with governmental activities in the statement of activities.				386,640
Change in net position of governmental activities			$	19,528,676

See notes to basic financial statements.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies

The financial statements of the Des Moines Independent Community School District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Nature of operations: The Board of Education (the Board) is organized under the Iowa Code. Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures.

The membership of the Board consists of seven members elected by the public. Under existing statutes, the Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls. The District's major operations include education, pupil transportation, construction and maintenance of District facilities and food service.

Reporting entity: The District is a primary government that has a separately elected governing body, is legally separate and is fiscally independent of other state or local governments. The financial statements of the District include all District operations required to be included in accordance with GASB pronouncements concerning the reporting entity. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. These criteria are: a) appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District; and b) fiscal dependency. In addition, GASB Standards, set forth additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. These criteria include 1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units, or its constituents, 2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the District and 3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. The District evaluated certain alumni foundations, booster clubs and parent-teacher organizations and determined that each of those entities are not significant to the District as a whole. Therefore, the District has no component units which meet the GASB criteria that should be included in these basic financial statements.

Significant accounting policies:

Government-wide financial statements: The statement of net position and the statement of activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services.

The statement of net position presents the District's nonfiduciary assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not required to be included among program revenues are reported instead as general revenues.

Fund financial statements: Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the Government-wide financial statements. Major individual funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

Fund accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, deferred inflows/outflows, fund balance/net position, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental fund types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance. The following is the District’s major governmental funds:

General Fund: The General Fund is used to account for and report all financial resources not accounted for and reported in another fund.

Capital Projects Fund: The Capital Projects Fund accounts for all revenues and expenditures generated through the collection of local option sales tax and expenditures attributable to the Schools First Renovation Program.

The other governmental funds of the District are considered nonmajor and are as follows:

Special revenue funds: Account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extracurricular or cocurricular activities.

Management Fund: This fund is authorized by Iowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

DMPS (Expendable Trust) Fund: This fund accounts for transactions that are received in trust in which both the principal and interest earned can be used to support the District.

Debt Service Fund: Accounts for and reports financial resources that are restricted, committed or assigned to expenditure for principal and interest.

Capital projects funds: Accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Physical Plant and Equipment (PPEL) Levy Fund: This capital projects fund is authorized by Iowa Code Section 298.2 and accounts for transactions related to the improvement of facilities and grounds, construction of schoolhouses, certain equipment expenditures and other expenditures authorized in Iowa Code Section 298.3.

Public Education and Recreation Levy (PERL) Fund: This fund is authorized by Iowa Code Section 300.2 and accounts for transactions related to schoolhouse playgrounds and recreational activities within the District. This fund also accounts for community education activity.

Permanent Trust Fund: The Permanent Trust Fund accounts for transactions that are received in trust in which only the interest earned, and not the principal itself, can be used to support the District. This fund was closed during fiscal year 2019.

Proprietary fund types: Proprietary fund types are used to account for the District's ongoing activities which are operated similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows.

Enterprise funds: Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The following enterprise funds of the District are considered nonmajor:

School Nutrition Fund: This fund accounts for transactions related to the school lunch, breakfast and summer food programs authorized by Iowa Code Section 283A.

Child Care Fund: This fund accounts for transactions for before and after school child care and summer child care programs authorized by Iowa Code Sections 298A.12 and 279.49.

Home Construction Fund: This fund accounts for transactions for the home building activity performed by students as part of their instructional or extracurricular program. This fund also accounts for the sale of those homes.

Automotive Fund: This fund accounts for transactions for the service and repair of automobiles performed by students as part of their instructional or extracurricular program.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Internal Service Funds: The internal service funds are used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District has the following internal service funds:

Self-Insurance Fund: This fund accounts for transactions for self-insured health insurances including medical, dental, prescription and vision received by District employees in which the District is responsible for paying all claims and administrative costs attributable to the insurances listed above.

Risk Management Fund: This fund accounts for transactions for certain health insurances including life and disability received by District employees in which the District is responsible for paying all premiums as specified attributable to the insurances listed above.

Print Shop Fund: This fund accounts for transactions for print shop and copying services. It also accounts for transactions for materials for arts and crafts and services such as laminating and other related activities.

Fiduciary funds: Fiduciary funds account for assets held by the District in a trustee or agency capacity for the benefit of others and cannot be used to support District activities.

The District has the following fiduciary fund types:

Pension Trust Fund: The Pension Trust Fund (DMTRS) accounts for the District's retirement plan for teachers. The fund provides pension benefits to eligible District teachers and administrators.

Private Purpose Trust Funds: These funds account for transactions that are received in trust in which both the principal and interest earned can be used to support the individuals or other organizations. The District's Private Purpose Trust Funds are primarily comprised of scholarship funds to benefit students.

Agency Fund: This fund accounts for assets held in a custodial capacity by the District for individuals, private organizations or other governments. PTAs and PTOs are generally accounted for in these funds. The District only reports assets and liabilities for this fund.

The Government-wide financial statements and the proprietary, pension trust and private purpose trust financial statements are reported using the "economic resources measurement focus" and are reported using the accrual basis of accounting. The agency funds do not have a measurement focus but are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after year-end.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Property tax when levied, intergovernmental revenues when eligibility requirements have been met (shared revenues, grants, and reimbursements from other governments), and interest associated with the current fiscal period are all considered to be measurable and are recorded as revenue, if available. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, early retirement payments, other postemployment benefits, pension related amounts and compensated absences are recognized as expenditures only when the liability has matured and payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital financing and capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general resources. Thus, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general resources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's proprietary funds are charges for services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and claims, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Property tax receivable: Property tax receivable is recognized on the levy or lien date, which is the date the tax asking is certified by the Board of Education.

Current year property tax receivable represents unpaid taxes related to the April 2018 levy certification. Property taxes become due and collectible in September and March of the following fiscal year with a 1½% per month penalty for delinquent payments. This tax levy is based on January 1, 2017 assessed property valuations and is revenue for fiscal year ended June 30, 2019.

The succeeding year property tax receivable represents taxes certified by the Board of Education in April 2019. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. The tax asking represents a lien which is effective on the first day of that calendar year. Although the succeeding year property tax receivable has been recorded, the related revenue is a deferred inflow of resources in both the government-wide and fund financial statements and will not be recognized as revenue until the year ended June 30, 2019, the year for which it is levied.

Due from other governments and other receivables: Due from other governments and other receivables represents amounts due from the state of Iowa, other school districts, and other various grants, reimbursements and shared revenues. All receivables are shown net of an allowance for uncollectibles, if applicable. The District's nonmajor enterprise funds and business-type activities have reported an allowance of $363,814 as of June 30, 2019 related to other receivables.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Inventories: Inventories are valued at the moving average cost for purchased items and contributed value (acquisition value at the date received) for government commodities and other donated items. Inventories are recorded as expenses when consumed in the Government-wide financial statements and proprietary funds' financial statements. In the governmental fund financial statements, inventories are accounted for using the consumption method whereby inventory acquisitions are recorded in inventory accounts when purchased and are charged to operations when consumed or sold. The fund balance in the governmental funds relating to inventories is reported as nonspendable.

Prepaid items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the Government-wide and fund financial statements on the consumption method. The fund balance in the governmental funds relating to prepaid items is reported as nonspendable.

Investment earnings: Investment earnings are composed of interest, dividends and net changes in the fair value of applicable investments.

***Investments*:** Most of the District's investment are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available; for others, it might not be available. However, the objective of a fair value measurement in both cases is the same—that is, to determine the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions. Fair value is an exit price at the measurement date from the perspective of a market participant that controls the asset or is obligated for the liability. See Note 3 for additional information regarding fair value measures. Investments in nonnegotiable certificates of deposit and money market funds are reported at cost.

Capital assets: Capital assets which include land; land improvements; buildings and improvements; vehicles, furniture and equipment; and construction-in-progress are reported in the Government-wide financial statements and the proprietary funds' financial statements.

Capital assets are defined by the District as assets with an initial, individual cost of $5,000 or more ($1,000 or more for the School Nutrition Fund) and an estimated useful life of more than one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at the acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	20 years
Buildings and improvements	20 - 50 years
Vehicles, furniture and equipment	5 - 15 years

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The District's collection of library books and other similar assets are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Deferred outflows of resources: Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of items not yet charged to pension expense and contributions from the District after the measurement date but before the end of the District's reporting period, and a deferred charge on refunding that will be recognized in interest expense over the shorter of the maturity of the related refunded or refunding bond issuance.

Deferred inflows of resources: Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected in the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. The governmental funds report unavailable revenues from sales tax and intergovernmental revenue. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the District's government-wide statements and governmental fund statements, succeeding year property tax revenues are reported as a deferred inflow of resources and will become an inflow in the year for which they are levied.

The District's government-wide statement of net position also includes pension related amounts and other postemployment benefit (OPEB) related amounts as a deferred inflow of resources. The pension related amounts consist of the unamortized portion of the net difference between projected and actual earnings on pension plan investments, the unamortized portion of the net difference between expected and actual plan experience and changes in proportion. The OPEB related amounts consist of the impact of changes in assumptions and other inputs.

Cash flows: For purpose of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Salaries and benefits payable: Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities in the fund and government-wide financial statements.

Unearned revenue: Unearned revenue in the statement of net position and in the governmental fund financial statements consists primarily of unearned grant proceeds and unearned student nutrition revenue.

Compensated absences: The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. Accrued sick leave is earned by all full-time employees at a rate determined by either the Iowa Code or their Comprehensive Agreements. Sick leave balances are not paid upon termination of employment. Full-time employees earn vacation in accordance with their employment agreement. The current and long-term liabilities for accumulated vacation are accrued when incurred in the Government-wide and proprietary funds' financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Long-term obligations: In the Government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities on the statement of net position. Bond premiums are reported as a liability and amortized over the life of the bonds using the effective interest method. Bond issuance costs are reported as an outflow in the year in which the expenses were incurred.

In the fund financial statements, governmental fund types recognize bond premiums through current year operations. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Principal payments and bond issuance costs are reported as debt service expenditures.

Pensions: For purposes of measuring the net pension asset (liability), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and Des Moines Teachers' Retirement System (DMTRS) and additions to/deductions from these fiduciary net positions has been determined on the same basis as they are reported by IPERS and DMTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund balance: In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable: Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the Board through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same action it employed to commit those amounts.

Assigned: Amounts constrained by the District's intent to use them for a specific purpose. It is the District's policy that the authority to assign fund balance has been delegated by the District's Board of Education to the Chief Financial Officer and Controller, through the adoption of the budget.

Unassigned: All amounts not included in other spendable classifications. The General Fund is the only fund that would report a positive amount in unassigned fund balance. Residual deficit amounts of the other governmental funds would also be reported as unassigned.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's procedure is to pay the expenditure from restricted fund balance and then from less-restrictive classifications—committed, assigned and then unassigned fund balances.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Net position: Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources in the Government-wide financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net investment in capital assets excludes unspent debt proceeds. Unspent debt proceeds (which includes proceeds reserved for debt retirement) for the Capital Projects Fund was $107,126,349. Net position is reported as restricted in the Government-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Net position restricted through enabling legislation as of June 30, 2019 consists $8,054,480 for physical plant and equipment levy, and $809,932 for public education and recreation levy.

Donor restricted net position include $2,470,869 for net position in the DMPS (Expendable Trust) Fund which is to be used mainly for the Smouse School.

Net position restricted for other purposes consists of $18,503,150 restricted for categorical funding, various grants and sponsored programs and student activity balances.

The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Interfund activity: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as “due to/from other funds” or “advances to/from other funds” in the fund financial statements. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Estimates: The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2. Legal Compliance

The District operates within the budget requirements for school districts as specified by state law and as prescribed by the Iowa Department of Management.

The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the functional area for budgeted governmental, enterprise and private purpose trust funds in total, rather than by individual fund type. Formal and legal budgetary control is based on four major classes of expenditures known as functional areas. These four functional areas are instruction, support services, noninstructional programs and other expenditures. The District adopts its annual program budget on a U.S. GAAP basis of accounting.

Note 2. Legal Compliance (Continued)

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules—Perspective Differences*, the District presents budgetary comparison as required supplementary information based on the program structure as required by state statute for its legally adopted budget.

The Child Care Fund and Management Fund have deficit balances as of June 30, 2019, of $1,223,252 and $931,303, respectively. The District will analyze the fund's activity and take the necessary steps to reduce the negative fund balance. The primary cause of the deficit balance is due to accounting for the Child Care Fund's share of the District's proportionate share of deferred outflows of resources, deferred inflows of resources, and net pension liability related to IPERS. The primary cause of the deficit balance in the Management Fund is due to the accrual of special termination benefits.

Note 3. Deposits and Investments

As of June 30, 2019, the District's cash, cash equivalents and investments (including fiduciary fund assets) were as follows:

Cash and other deposits	$ 186,918,292
Investments, primarily pension trust	287,177,163
	$ 474,095,455

In addition, the District has cash held with agent of $21,290,965, which will be used for future debt service payments.

Investments:

Authorized investments: The District is authorized by statute to invest public funds not currently needed for operating expenses in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured Iowa depository institutions approved by the Board; prime eligible bankers' acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; and certain joint investment trusts. However, the District's investment policy additionally limits investments in commercial paper to obligations at the time of purchase rated within the two highest ratings issued by nationally recognized statistical rating organizations with a maturity less than 270 days, with no more than 5% at the time of purchase placed in the second highest classification. The District's investment policy additionally limits investments in prime bankers' acceptances that mature within 270 days and that are eligible for purchase by a federal reserve bank. Investment income interest is spent according to the fund parameters as outlined by the District.

The above description of authorized investments does not apply to the Des Moines Teachers' Retirement System (DMTRS) Pension Trust Fund, whose investments are governed by the underlying Plan document, or investments donated to the District. The Plan's investment policy authorizes investment in cash, fixed income securities rated AAA to BBB, investment grade preferred stock, large-, mid-, and small-cap domestic equity securities, international stocks, and domestic real estate. The investment policy also establishes allocation and exposure limitations for each class of investments authorized.

Note 3. Deposits and Investments (Continued)

Interest rate risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy requires operating funds to be invested in investments that mature within 397 days or less. When investing other than operating funds, the investments must mature according to the needs of the funds. Operating funds of the District are funds which are reasonably expected to be used during a current budget year or within 15 months of receipt.

Deposits: The District's deposits consist of balances held with financial institutions, including nonnegotiable certificates of deposit and money market funds.

Custodial credit risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

It is the District's policy to require that time deposits in excess of FDIC insurable limits be secured by collateral or private insurance to protect public deposits in a single financial institution if it were to default. Chapter 12c of the Code of Iowa requires all District funds be deposited into an approved depository and be either insured or collateralized. As of June 30, 2019, the District's deposits with financial institutions were entirely covered by federal depository insurance or insured by the state through pooled collateral, state sinking funds and by the state's ability to assess for lost funds.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

Des Moines Independent Community School District (without DMTRS)

		Investment Maturities (in Years)			
	Fair Value	Less than 1	1 - 5	6 - 10	More than 10
Corporate equities—donated	$ 1,615,623	N/A	N/A	N/A	N/A
U.S. Government securities	41,443,150	$ 41,443,150	$ -	$ -	$ -
U.S. Government agency securities	8,670,260	-	8,670,260	-	-
	$ 51,729,033	$ 41,443,150	$ 8,670,260	$ -	$ -

Des Moines Teachers' Retirement System (DMTRS)

		Investment Maturities (in Years)			
	Fair Value	Less than 1	1 - 5	6 - 10	More than 10
Money market mutual funds	$ 10,978,359	N/A	N/A	N/A	N/A
Certificates of deposit	730,541	$ -	$ 730,541	$ -	$ -
U.S. Government and agency securities	7,749,475	995,350	-	1,155,580	5,598,545
Corporate equities	43,205,823	N/A	N/A	N/A	N/A
Mortgage-backed securities	14,160,503	236	295,630	3,691,570	10,173,067

Preferred stock	1,024,000	N/A	N/A	N/A	N/A
Municipal bonds	56,845,704	-	4,990,978	21,404,307	30,450,419
Other fixed income	7,622,443	15,747	-	5,787,085	1,819,611
	$ 235,448,130	$ 3,337,740	$ 17,084,656	$ 70,591,813	$ 89,225,739

Note 3. Deposits and Investments (Continued)

Credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment policy does not formally address credit risk. The credit ratings for the District's investments are included in the table below. Investments issued or explicitly guaranteed by the U.S. government are not subject to credit risk in accordance with GASB Statement No. 40.

Fair value measurements: The District uses the fair value hierarchy established by generally accepted accounting principles based on the valuation inputs used to measure the fair value of the asset. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels. Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date. Level 2 inputs are inputs—other than quoted prices included within Level 1—that are observable for an asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for an asset or liability. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

Des Moines Independent Community School District (without DMTRS)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Imputs (Level 2)	Significant Unobservable Imputs (Level 3)	Total Fair Value	S&P Rating
Corporate equities—donated	$ 1,615,623	$ -	$ -	$ 1,615,623	Not Rated
U.S. Government securities	-	41,443,150	-	41,443,150	AA+
U.S. Government agency securities	-	8,670,260	-	8,670,260	AA+
	$ 1,615,623	$ 50,113,410	$ -	$ 51,729,033	

Des Moines Teachers' Retirement System (DMTRS)

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Imputs (Level 2)	Significant Unobservable Imputs (Level 3)	Total Fair Value	S&P Rating
Money market mutual fund	$ -	$ 10,978,359	$ -	$ 10,978,359	Not Rated
Certificates of deposit	-	730,541	-	730,541	Not Rated
U.S. Government and agency securities	-	7,749,475	-	7,749,475	AA+

Other fixed income	-	7,622,443	-	7,622,443	A+
	$ 43,205,823	$ 192,242,307	$ -	$ 235,448,130	

Note 3. Deposits and Investments (Continued)

Corporate equities and mutual funds: Corporate equities and mutual funds are reported at fair value based on quoted market prices obtained from exchanges.

Corporate obligations, U.S. government agency securities and other fixed income: These investments are reported at fair value based on evaluation using market sources and integrating relative credit information, observed market movements, and sector news into the evaluated pricing applications and models.

U.S. Government securities: U.S. Government securities are reported at fair value based on a bullet (non-call) spread scale for each issuer for maturities going out to forty years. These spreads represent credit risk and are obtained from the new issue market, secondary trading, and dealer quotes. An Option Adjusted Spread (OAS) model is incorporated to adjust spreads of issues that have early redemption features. Final spreads are added to a U.S. Treasury curve. A special cash discounting yield/price routine calculates prices from final yields to accommodate odd coupon payment dates typical of medium-term notes.

Certificates of deposit: Certificates of deposit are reported at fair value based on a multi-dimensional relational model and/or Option Adjusted Spread (OAS).

Mortgage-backed securities: Mortgage-backed securities are reported at fair value via model using various inputs such as but not limited to daily cash flow, snapshots of the TBA market and the US Treasury market, floating rate Indices such as LIBOR, CMT, and Prime as a benchmark yield, spread over index, periodic and life caps, next coupon adjustment date, and convertibility of the bond.

Municipal bonds: Municipal bonds are reported at fair value based on trades, bid price or spread, two-sided markets, quotes, benchmark curves including but not limited to treasury benchmarks and LIBOR and swap curves, market data feeds such as MSRB, financial statements, discount rate, capital rates, and trustee reports.

Preferred stock: Preferred stock is reported at fair value by calculating the appropriate spread over a comparable U.S. Treasury security for each issue. These spreads represent the amount of additional yield required to account for the risks inherent with preferred stocks, including credit, refunding and liquidity. Evaluators obtain benchmark quotes on liquid issues, follow both the listed and new issue market, and focus on changing market conditions.

The District has no assets reported at fair value on a nonrecurring basis and no other investments meeting the fair value disclosure requirements of Governmental Accounting Standards Board (GASB) Statement No. 72.

Concentration of credit risk: The District's investment policy seeks diversification to reduce overall portfolio risk while attaining market rates of return to enable the District to meet all anticipated cash requirements. The District's policy further restricts investments in prime bankers' acceptances and commercial paper to no more than 10% of the investment portfolio for each type of investment, excluding DMTRS investments and no more than 5% of the investment portfolio can be invested in the securities of a single issuer.

More than 5% of the District's investments are with Federal Farm Credit Bank, Federal Home Loan Bank, and China Cons Bank Corp. These investments are approximately 15%, 71% and 14%, respectively, of the District's total investments. The investments in U.S. Government Securities, Corporate Equities and Corporate obligations, are not subject to concentration of credit risk due to either being guaranteed by the U.S. government, considered a pooled investment, or none of the securities underlying the total investment type is more than 5% in any one issuer.

Note 3. Deposits and Investments (Continued)

Custodial credit risk: The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

As of June 30, 2019, none of the District's investments were insured, but they were all registered in the District's name and held by the counterparty or the counterparty's trust department.

Note 4. Interfund Receivables/Payables and Transfers

Due to and from other funds as of June 30, 2019 are as follows:

	Due To Other Funds	Due From Other Funds
General fund	$ -	$ 8,546,809
Internal service fund, self insurance	8,546,809	-
	$ 8,546,809	$ 8,546,809

Interfund balances result from the time lag between the dates that 1) interfund goods or services are provided or reimbursable expenditures occur, 2) transactions are recorded and 3) payments between funds are made.

The $8,546,809 due to other funds in the internal service funds is attributable to a return of premium. Through analysis performed internally and externally, the Self Insurance Fund net position was deemed high compared to the forecast for future claims. As a result, the portion of premium charged through the general fund has been reduced to yield a fund balance more in line with the District's actual experiences and forecasted claims. Over the course of time, these items will level-set and return to normalized premium levels between the general fund and self-insurance fund.

The balances are expected to be collected in the subsequent year.

Advances to and from other funds as of June 30, 2019 are as follows:

	Advances To Other Funds	Advances From Other Funds
Nonmajor enterprise funds	$ 675,025	$ 675,025

Interfund balances result from the time lag between the dates that 1) interfund goods or services are provided or reimbursable expenditures occur, 2) transactions are recorded and 3) payments between funds are made.

The $675,026 of advances from other funds in the nonmajor enterprise funds is attributable $595,402 to the Child Care fund and $79,623 to the Home Construction fund. These advances will be repaid when the funds are solvent, but they are not expected to be paid in the subsequent year.

Note 4. Interfund Receivables/Payables and Transfers (Continued)

The following is a schedule of transfers as included in the basic financial statements of the District:

	Transfers In	Transfers Out
Major funds:		
General fund	$ 1,121,913	$ -
Capital projects fund	-	23,095,026
Nonmajor governmental funds	23,095,026	9,533
Nonmajor enterprise fund, school nutrition	-	1,112,380
	$ 24,216,939	$ 24,216,939

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them or (2) use unrestricted revenues collected in a certain fund to finance various programs accounted for in other funds in accordance with budgetary authorization or Board approval.

Note 5. Capital Assets

A summary of capital asset activity for the year ended June 30, 2019 is as follows:

Governmental Activities	Beginning Balance	Additions and Transfers In	Deletions and Transfers Out	Ending Balance
Capital assets, not being depreciated:				
Land	$ 4,748,051	$ 215,564	$ -	$ 4,963,615
Construction-in-progress	19,343,037	21,685,483	5,013,014	36,015,506
Total capital assets, not being depreciated	24,091,088	21,901,047	5,013,014	40,979,121
Capital assets, being depreciated:				
Land improvements	9,868,310	-	-	9,868,310
Buildings and improvements	669,304,327	5,103,699	729,791	673,678,235
Vehicles, furniture and equipment	28,396,441	1,496,736	283,589	29,609,588
Total capital assets, being depreciated	707,569,078	6,600,435	1,013,380	713,156,133
Less accumulated depreciation for:				
Land improvements	(8,078,551)	(210,515)	-	(8,289,066)
Buildings and improvements	(165,034,623)	(12,433,428)	(245,696)	(177,222,355)
Vehicles, furniture and equipment	(17,284,761)	(1,985,946)	(253,935)	(19,016,772)
Total accumulated depreciation	(190,397,935)	(14,629,889)	(499,631)	(204,528,193)
Total capital assets, being depreciated, net	517,171,143	(8,029,454)	513,749	508,627,940
Governmental activities capital assets, net	$ 541,262,231	$ 13,871,593	$ 5,526,763	$ 549,607,061

Business-Type Activities	Beginning Balance	Additions and Transfers In	Deletions and Transfers Out	Ending Balance
Capital assets, not being depreciated, construction-in-progress	$ 177,974	$ 14,888	$ -	$ 192,862
Capital assets, being depreciated:				
Vehicles, furniture and equipment	6,295,663	435,424	54,593	6,676,494
Less accumulated depreciation	(4,103,296)	(355,967)	(35,114)	(4,424,149)
Total capital assets, being depreciated, net	2,192,367	79,457	19,479	2,252,345
Business-type activities capital assets, net	$ 2,370,341	$ 94,345	$ 19,479	$ 2,445,207

Note 5. Capital Assets (Continued)

Depreciation expense was charged to the District's functions as follows:

Governmental activities:	
Instruction	$ 12,700,048
Noninstructional	283,751
Business and central administration	736,383
Plant operation and maintenance	232,530
Student transportation	675,984
Capital assets held by the District's internal service funds and charged to the various functions based on their usage of the assets	1,193
Total	$ 14,629,889
Business-type activities:	
School nutrition	$ 354,859
Automotive	1,108
	$ 355,967

Note 6. Long-Term Liabilities and Bonds Payable

The following is a summary of changes in bonds payable and other long-term liabilities for the year ended June 30, 2019:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Sales tax revenue bonds	$ 206,090,000	$ -	$ 15,405,000	$ 190,685,000	$ 16,015,000
Bond premiums	9,313,683	-	1,516,393	7,797,290	-
Retrospective insurance rating plan	561,625	344,321	78,178	827,768	-
Termination benefits	13,861,675	-	11,348,338	2,513,337	1,599,138
Compensated absences	4,087,265	3,655,355	3,761,474	3,981,146	3,787,589
Other postemployment benefits	69,452,570	-	24,109,499	45,343,071	-
Net pension liability	202,935,996	-	801,863	202,134,133	-
Pollution remediation	79,202	12,003	-	91,205	-
Long-term liabilities	$ 506,382,016	$ 4,011,679	$ 57,020,745	$ 453,372,950	$ 21,401,727
Business-type activities:					
Compensated absences	$ 304,461	$ 297,284	$ 285,887	$ 315,858	$ 287,696
Net pension liability	8,318,427	-	194,417	8,124,010	-
Long-term liabilities	$ 8,622,888	$ 297,284	$ 480,304	$ 8,439,868	$ 287,696

Compensated absences and other postemployment benefits are generally liquidated by the General Fund and the retrospective insurance rating plan liability is liquidated by the Management Fund, a nonmajor governmental fund. Net pension liabilities will generally be liquidated by the General Fund, School Nutrition and Child Care Funds.

Note 6. Long-Term Liabilities and Bonds Payable (Continued)

The District has pledged future statewide penny school infrastructure, services and use tax revenues to repay the $71,900,000 of bonds issued May 2012 with an interest rate of 4%, $8,780,000 of bonds issued December 2013 with interest rates ranging from 3% to 5%, and $61,940,000 of bonds issued May 2014 with interest rates ranging from 3% to 5%, $53,655,000 of bonds issued July 2016 with an interest rate of 2% and $56,235,000 of bonds issued April 2018 with interest rates ranging from 3% to 5%. The bonds were issued for the purpose of financing costs of school infrastructure improvement projects. The bonds are payable solely from the proceeds of the statewide penny school infrastructure, services and use tax revenue received by the District and are payable through 2029. The bonds are not a general obligation of the District; however, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds were expected to require less than 50% of the statewide penny school infrastructure, services and use tax revenues. For the current year, principal and interest paid and total statewide penny school infrastructure, services and use tax revenue were $23,095,026 and $33,896,069, respectively.

Annual debt service requirements to maturity as of June 30, 2019 for the outstanding sales tax revenue bonds are summarized as follows:

	Governmental Activities		
	Principal	Interest	Total
Year ending June 30:			
2020	$ 16,015,000	$ 6,980,050	$ 22,995,050
2021	16,655,000	6,341,380	22,996,380
2022	17,320,000	5,673,997	22,993,997
2023	18,005,000	4,988,249	22,993,249
2024	18,720,000	4,272,734	22,992,734
2025—2028	103,970,000	11,008,567	114,978,567
	$ 190,685,000	$ 39,264,977	$ 229,949,977

As of June 30, 2019, the District did not exceed its legal debt margin, computed as follows:

Total assessed valuation	$ 12,879,798,104
Debt limit of 5% of total assessed valuation	$ 643,989,905
Amount of debt applicable to debt limit, total general obligation bonded debt	190,685,000
Excess of debt limit over bonded debt issued, legal debt margin	$ 453,304,905

Note 6. Long-Term Liabilities and Bonds Payable (Continued)

Special termination benefits: Prior to the year ended June 30, 2018, the District offered a special termination benefit to certified teachers and administrators. To be eligible to participate in this Plan, an employee must (1) have attained age 55; (2) have at least 10 consecutive contract years of employment with the District; (3) have worked a minimum of 100 days during the contract year in which he or she elects to participate in this Plan; (4) have not received an official notice of lay off or termination; (5) not be subject to termination pursuant to Iowa Code Section 279.15 or Section 279.27, whether such termination occurs before or after the acceptance of his or her application and (6) otherwise meet the requirements of this Plan. The special termination benefit allows an eligible employee to (1) if at the time of retirement has health insurance, to use the value of their accumulated sick leave benefit and annual special leave to pay for health insurance until they reach the age of 65 and opt for Medicare benefits, with any remaining funds at that time paid out in a single lump sum payment, or (2) if at the time of retirement has no health insurance, or already reached the age of 65, to pay out the value of their accumulated sick leave benefit and annual special leave over five equal annual payments into a tax sheltered annuity of their choice.

Beginning during the year ended June 30, 2018, the District offered a special termination benefit to all employees. To be eligible to participate in this Plan, an employee must (1) have attained age 60 and (2) have at least 10 or more years of continuous service as a permanent employee of the District. The special termination benefit allows an eligible employee to receive $50,000 paid to a tax-sheltered annuity over 1 to 2 years. The amount is prorated based upon the eligible employee’s full-time equivalency as of the fiscal year-end date in which the employee elected to participate in the Plan. Eligible employees will also have the option to purchase and participate in the District’s group health insurance plan until age 65.

As of June 30, 2019, the District has $1,217,347 accrued in the Management Fund relating to employees over age 65 as they are considered due and expected to be liquidated with expendable available financial resources, plus an additional amount not due as of June 30, 2019 of $1,295,989 recorded only in the government-wide financial statements, for a total liability of $2,513,336. The current year amount paid by the District was $11,348,338 which consisted of 426 participants in the plan. The special termination benefits are generally liquidated by the Management Fund.

Note 7. Commitments and Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

As of June 30, 2019, the District was involved in construction projects with an estimated cost to complete the construction projects of $18,341,092.

The District leases technology equipment for District schools and administrative offices on a long-term basis. Rental expense for the year ended June 30, 2019 under these leases is $5,547,683. Following is a schedule of minimum future rentals for noncancelable operating leases in effect at June 30, 2019:

During the year ending June 30:	
2020	$ 4,036,786
2021	2,994,185
2022	1,255,482
	$ 8,286,453

The above schedule represents operating leases in effect at June 30, 2019. As part of the normal course of business, the District continues to negotiate and/or renegotiate various operating leases.

Note 8. Risk Management

The District has chosen to establish a risk financing fund for risks associated with the self-insurance plan for medical, dental and vision benefits. The risk financing fund is accounted for as an internal service fund where assets are set aside for claim settlements. The total charge allocated to each of the funds (based upon the percentage of each fund's current year payroll of the District) is calculated using trends in actual claims experience. Losses on medical claims are limited through the purchase of stop-loss insurance to $150,000 per accident or disease, and 120% of actuarially projected claims for the District in total.

The claims liability of $6,316,913 in the Self Insurance fund is based on the requirements of the Governmental Accounting Standards Board Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues,* which requires that a liability for claims be reported if information indicates that it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an estimated amount for claims that have been incurred but not reported (IBNR) which represent estimates of the eventual loss on claims arising prior to year-end. Changes in the balances of claims liabilities during the past two fiscal years are as follows:

	Years Ended June 30	
	2019	2018
Unpaid claims, beginning of year	$ 6,613,731	$ 4,686,845
Current year claims and changes in estimates	68,144,976	69,994,248
Claim payments	(68,441,794)	(68,067,362)
Unpaid claims, end of year	$ 6,316,913	$ 6,613,731

As of June 30, 2019, the unpaid claims payable of $6,316,913 is net of $515,964 of reimbursement receivable that the District expects to receive as it has exceeded its individual stop-loss amount. A total of $515,964 reinsurance revenue to be received is netted against claims expense.

The District self insures its workers' compensation exposures. As of June 30, 2019, the amount of liabilities recorded for estimated claims payable for workers' compensation was $5,113,796 of which $304,295 was recorded in the Management Fund in accounts payable, a nonmajor governmental fund, as that portion of the liability has matured, and an additional $4,809,500 was recorded in the government-wide statements. Losses on workers' compensation claims are limited through the purchase of stop-loss insurance to $500,000 per occurrence. Liabilities are reported in the financial statements in accounts payable. Changes in the balances of claims liabilities during the past two fiscal years are as follows:

	Years Ended June 30	
	2019	2018
Unpaid claims, beginning of year	$ 4,168,106	$ 4,061,956
Current year claims and changes in estimates	4,212,768	4,676,811
Claim payments	(3,267,078)	(4,570,661)
Unpaid claims, end of year	$ 5,113,796	$ 4,168,106

Note 8. Risk Management (Continued)

The District's general liability and automobile liability policies are written under a retrospective rating plan where final premium costs are within a specified minimum and maximum premium. For the policy year ended June 30, 2019, various liability claims remain unsettled; therefore, the District has accrued a liability for the maximum potential additional premium that could be payable under the retrospective rating plan of $827,768. The liability is recorded in the Government-wide financial statements.

The District continues to carry commercial insurance for all other risks of loss. The District has a $100,000 deductible on property insurance. Settled claims from these risks have not exceeded the planned coverage during any of the past three years.

Note 9. Retirement Systems

Iowa Public Employees' Retirement System:

Plan description: Employees of the District are provided with pensions through a cost sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension benefits: A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary. For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50% for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Note 9. Retirement Systems (Continued)

Disability and death benefits: A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions: Effective July 1, 2012, as a result of a 2010 law change, the contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2019, pursuant to the required rate, Regular members contributed 6.29% of pay and the District contributed 9.44% for a total rate of 15.73%.

The District's contributions to IPERS for the year ended June 30, 2019 were $22,990,897.

Net pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions: At June 30, 2019, the District reported a liability of $206,722,536 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2018, the District's collective proportion was 3.267692%, which was a decrease of 0.096306% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of $12,762,039 and reported deferred outflows of resources and deferred inflows of resources related to the IPERS pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 1,133,430	$ 4,672,264
Changes of assumptions	29,490,250	-
Net difference between projected and actual earnings on pension plan investments	-	5,680,071
Changes in proportion and differences between District contributions and proportionate share of contributions	7,256,251	313,552
Total deferred amounts to be recognized in pension expense in future periods	37,879,931	10,665,887
District contributions subsequent to the measurement date	22,906,742	-
Total deferred amounts related to pensions	$ 60,786,673	$ 10,665,887

Note 9. Retirement Systems (Continued)

The $22,906,742 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. The deferred inflows relates to the difference between expected and actual investment earnings and is being amortized over a closed 5-year period as of the beginning of each measurement period. Other deferred outflows of resources and deferred inflows of resources are being amortized over a closed period equal to the average of the expected service lives of all employees as of the beginning of each measurement period, which was 5.30 years for the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net
Years ending June 30:	
2020	$ 17,258,458
2021	9,407,003
2022	(335,849)
2023	797,804
2024	86,628
	$ 27,214,044

There were no non-employer contributing entities at IPERS.

Actuarial assumptions: The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60%
Salary increases	3.25% to 16.25%, average, including inflation; rates vary by membership group
Long-term rate of return	7.00%, net of investment expense, including inflation

Mortality rates were based on the RP-2014 Generational Mortality Table, with age setbacks and age set forwards as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using Projection Scale MP-2017.

The demographic actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the four-year period ended June 28, 2018.

At the Investment Board's direction, the experience study of IPERS economic assumptions, including the long-term rate of return, was accelerated a year resulting in a full review of the economic assumptions in early 2018. The findings of the experience study on economic assumptions, along with the resulting recommendations, were included in a report dated March 24, 2017.

Note 9. Retirement Systems (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core-plus fixed income	27.0%	1.97%
Domestic equity	22.0	6.48
International equity	15.0	6.48
Private equity	11.0	10.81
Public credit	3.5	3.93
Public real assets	7.0	2.91
Private credit	3.0	3.11
Private real assets	7.5	4.14
Global smart beta equity	3.0	6.23
Cash	1.0	(0.25)
	100.0%	

Discount rate: The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate.

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	$ 350,849,682	$ 206,722,536	$ 85,821,281

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Note 9. Retirement Systems (Continued)

Payables to the pension plan: At June 30, 2019, the District reported payables to the defined benefit pension plan of $1,939,829 for legally required employer contributions and $1,292,535 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Des Moines Teachers' Retirement System:

Plan description: The Des Moines Teachers' Retirement System (DMTRS) Plan and Trust is a single employer pension plan administered by Bankers Trust Capital Management with Wells Fargo Bank, N.A. as custodian of the Plan. The Plan was established in 1953 to offer employees of the school district a choice in planning for their retirement and is a uniquely designed hybrid pension plan as it contains features of both a traditional defined benefit plan, which is very common in the public sector, and a defined contribution plan. The Plan is considered a hybrid plan because investment risk is borne by the participant in the form of a variable account balance, implying a defined contribution plan, however, mortality risk is maintained by the District, which is a defined benefit plan feature. Due to this hybrid feature, the benefit terms cannot be modified.

The District's Board of Education is also the Plan's board and constitutes the trustees. The Plan does not issue a stand-alone financial report.

Basis of accounting: The DMTRS financial statements are prepared on the accrual basis of accounting. Member contributions are recognized in the period in which the contributions are due. The District's contributions are recognized when due and a formal commitment to provide the contributions is made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair value. Administrative costs of DMTRS are financed through investment earnings.

Employees of the District who are teachers as defined under the Plan are eligible to participate in the Plan. Each teacher may choose to participate in either the Plan or in the Iowa Public Employees Retirement System. The election is made within 30 days of hire. If no election is made, the default is to participate in IPERS. The membership data as of the most recent actuarial valuation date was:

Active members	271
Retirees and beneficiaries currently receiving benefits	863
Inactive members entitled to but not yet receiving benefits	157
	1,291

Plan benefits and death benefits: Upon retirement on or after age 55, the account balance is converted to one of various available forms of monthly benefits payable to the participant, and if elected, a continuing benefit to a surviving spouse.

Contributions: Participants electing to participate in the Plan will have contributions deducted on a pre-tax basis. The contribution will be based on the participant's age at hire and will remain constant for that participant thereafter. The older the participant, the higher the contribution. The Plan's contribution rates range from 6.31% to 9.14%, dependent on the entry age of the participant. The contribution rates have increased between 30% to 45% from 2007 to 2015.

An "Employer Matching Contribution" ranging from 7.83% to 11.00% (120% to 124% of the employee contribution) will also be made. Both employee and employer contributions are credited to an employee's account balance. The account balance is also credited with plan investment earning allocations.

Note 9. Retirement Systems (Continued)

Investments: The Board of Education established an investment policy guiding the allocation of invested assets. This policy may be amended by the Board of Education. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the Plan. See additional information about the DMTRS investments in Note 3.

The pension plan shall diversify the investments so as to minimize the risk of large losses unless under the circumstances, it is clearly prudent not to do so.

Asset Class	Asset Allocation	Long-Term Expected Rate of Return
Certificates of deposit	0.6%	2.5%
Money market mutual funds	3.1	1.7
U.S. Government securities	4.2	2.6
Corporate equities	19.9	7.0
Mortgage-backed securities	9.9	2.7
Corporate obligations	46.9	4.2
Preferred stock	1.8	4.8
Municipal bonds	13.1	5.0
Other fixed income	0.5	1.9
	100.0%	

There are no investments in any one organization representing more than 5% or more of DMTRS' net position. There are no investments in, loans to, or leases with related parties.

Rate of return: For the year ended June 30, 2019, the annual weighted rate of return on pension plan investments, net of pension plan investment expense was 7.7%. The money weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net pension liability: The total pension liability was determined using an actuarial valuation date of June 30, 2017 rolled forward from the valuation date to the plan's year-end of June 30, 2019 using generally accepted actuarial principles and methods.

Note 9. Retirement Systems (Continued)

A schedule of the District's changes in its net pension liability for DMTRS for the year ended June 30, 2019 is as follows:

Total pension liability	
Service cost	$ 2,662,665
Interest	9,850,960
Differences between expected and actual experience	16,672,458
Changes of assumptions	4,071,232
Benefit payments, including refunds of member contributions	(19,246,304)
Net change in total pension liability	14,011,011
Total pension liability—beginning	227,202,054
Total pension liability—ending (a)	$ 241,213,065
Plan fiduciary net position	
Contributions—employer	$ 1,561,342
Contributions—members	1,101,323
Net investment income	17,530,073
Benefit payments, including refunds of member contributions	(19,246,304)
Administrative expense	(103,014)
Net change in plan fiduciary net position	843,420
Plan fiduciary net position—beginning	236,834,038
Plan fiduciary net position—ending (b)	$ 237,677,458
Net pension liability—ending (a) - (b)	$ 3,535,607
Plan fiduciary net position as a percentage of the total pension liability	98.5%

Actuarial assumptions: The total pension liability in the June 30, 2017 actuarial valuation was determined using a 4.50% investment rate of return with mortality rates based on the RP-2014 Mortality Table for Males or Females, as appropriate, with adjustments for MP-2017 projections. The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Discount rate: The discount rate used to measure the total pension liability was 4.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 9. Retirement Systems (Continued)

Sensitivity of the District's net pension (asset) to changes in the discount rate: The following presents the District's net pension (asset) calculated using the discount rate of 4.50%, as well as what the District's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (3.50%) or 1-percentage-point higher (5.50%) than the current rate.

	1% Decrease (3.50%)	Discount Rate (4.50%)	1% Increase (5.50%)
District's net pension liability (asset) as of June 30, 2019	$ 29,186,578	$ 3,535,607	$ (18,178,505)

Pension expense, deferred outflows of resources and deferred inflows of resources related to pensions: For the year ended June 30, 2019, the District recognized an overall credit to pension expense of $57,963. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to the DMTRS pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 16,644,094	$ 687,292
Changes of assumptions	5,323,166	3,604,819
Net difference between projected and actual earnings on pension plan investments	-	2,130,212
Total deferred amounts related to pensions	$ 21,967,260	$ 6,422,323

Deferred outflows of resources and deferred inflows of resources related to the differences between expected and actual experience and changes of assumptions are being amortized over a closed period equal to the average of the expected service lives of all employees as of the beginning of the measurement period, which was 7 years as of June 30, 2019. The deferred inflows of resources related to the difference between expected and actual investment earnings is being amortized over a closed 5-year period as of the beginning of each measurement period. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Deferred Outflows (Inflows) of Resources
Years ending June 30:	
2020	$ 3,602,272
2021	2,953,012
2022	2,436,516
2023	590,710
2024	2,999,047
Thereafter	2,963,380
	$ 15,544,937

Note 9. Retirement Systems (Continued)

Aggregate pension related amounts for all plans are as follows:

	IPERS	DMTRS	Total
Net pension liability	$ 206,722,536	$ 3,535,607	$ 210,258,143
Deferred outflows of resources, pension related amounts	60,786,673	21,967,260	82,753,933
Deferred inflows of resources, pension related amounts	10,665,887	6,422,323	17,088,210
Pension expense	12,713,665	(57,963)	12,704,076

Deferred inflows and outflows of resources related to both pension plans will be recognized in pension expense as follows:

Years ended June 30:	
2020	$ 20,860,730
2021	12,360,015
2022	2,100,667
2023	1,388,514
2024	3,085,675
Thereafter	2,963,380
	42,758,981
Deferred outflows of resources, pension related amounts—District contributions to IPERS subsequent to the measurement date	22,906,742
	$ 65,665,723

Note 10. Other Postemployment Benefits

Plan description: The District sponsors a single-employer health care plan that provides three self-funded medical plans including prescription drug benefits to all active and retired employees and their eligible dependents. Retiree coverage begins for employees who have attained age 55 prior to the beginning of the subsequent contract year and have at least 10 consecutive contract years of employment and continues until the retiree is Medicare eligible at age 65. The plan is administered by the District and the District has the authority to establish or amend the plan provisions or contribution requirements within the sections of the Code. The plan does not issue a stand-alone financial report.

Funding policy: The current funding policy of the District is to pay health claims as they occur through internal allocated funds. For employees who retired on or before June 30, 2002, the District provides a 100% subsidy to the full cost of coverage for both retiree and dependent coverage. For employees who retire on or after June 30, 2002, Des Moines School District provides no subsidy. The health insurance plan contributions on behalf of employees are established and amended through negotiation by management and the union and governed by the District’s union contracts.

Note 10. Other Postemployment Benefits (Continued)

The required contribution is based on projected pay-as-you-go financing. For fiscal year 2019, the District contributed $1,406,697. Retiree and active members receiving benefits contributed through their required monthly contributions of:

Rate Tier	Fiscal Year 2019 Alliance Select	Fiscal Year 2019 Blue Access
Employee	$ 563.75	$ 543.72
Employee + One	1,075.18	1,036.98
Family	1,713.80	1,652.91

Employees covered by benefit terms: At June 30, 2019, the following employees were covered by the benefit terms:

Current retirees, beneficiaries and dependents	146
Current active members, fully eligible for benefits	876
Current active members, not yet fully eligible for benefits	4,008
	5,030

Total OPEB Liability: The District's total OPEB liability of $45,343,071 was measured as of June 30, 2019, and was determined by an actuarial valuation as of that date.

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.00%
Salary increases	2.00%
Discount rate	3.50%
Healthcare cost trend rates	6.0% for medical and prescription benefits for 2019 and 4.5% for administrative fees for 2019, decreasing 0.50% per year to an ultimate rate of 4.00% for 2022 and later years

The discount rate was based on the Bond Buyer 20-Bond GO Index.

Note 10. Other Postemployment Benefits (Continued)

Mortality rates were based on the RP-2014 generational table scaled using MP-17 and applied on a gender-specific basis. It is assumed that 50% of future retirees cover a spouse at retirement. This is based on the current retiree spouse election percentages. All current and future retirees are assumed to be eligible for Medicare at age 65. The participation percentage is the assumed rate of future eligible retirees who elect to continue health coverage at retirement. It is assumed that 70% of all employees and their dependents who are eligible for early retiree benefits will participate in the retiree medical plan.

Based on current retiree plan elections, future retirees are assumed to elect plan coverage at the following rates:

Alliance Select	52%
Blue Access	48%

Changes in the Total OPEB Liability:

	Total OPEB Liability
Balance as of June 30, 2018	$ 69,452,570
Changes for the year:	
Service cost	5,612,753
Interest	2,877,808
Change in benefit terms	(4,273,106)
Differences between expected and actual experience	(16,056,500)
Changes in assumptions or other inputs	(10,863,757)
Contributions and payments made	(1,406,697)
Net changes	(24,109,499)
Balance as of June 30, 2019	$ 45,343,071

Changes of assumptions and other inputs reflect a change in the discount rate from 3.87% in 2018 to 3.50% in 2019 a change in the mortality improvement scale, a lowered participation rate and reduction of health care cost trend rates by 0.50% as the rates decrease towards the ultimate rates as assumed.

Changes in benefit terms included increases in deductibles, office visit copays as well as a few other changes.

Differences between expected and actual experience is due to a decrease in the overall stop loss rate, better than expected claims experience, along with higher than expected premiums and a decrease in the overall active and retired populations.

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the approximate total OPEB liability of the District, as well as what the District's approximate total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.50%) or 1-percentage-point higher (4.50%) than the current discount rate:

	1% Decrease (2.50%)	Discount Rate (3.50%)	1% Increase (4.50%)
Total OPEB liability	$ 49,280,511	$ 45,343,071	$ 41,168,494

Note 10. Other Postemployment Benefits (Continued)

Sensitivity of the total OPEB liability to changes in the health care cost trend rates: The following presents the approximate total OPEB liability of the District, as well as what the District's approximate total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (5.00% decreasing to 3.00%) or 1-percentage-point higher (7.00% decreasing to 5.00%) than the current healthcare cost trend rates:

	1% Decrease (5.00% decreasing to 3.50%)	Healthcare Cost Trend Rates (6.00% decreasing to 4.50%)	1% Increase (7.00% decreasing to 5.50%)
Total OPEB liability	$ 35,741,821	$ 45,343,071	$ 51,919,715

OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB: For the year ended June 30, 2019, the District recognized OPEB expense of $1,755,185. At June 30, 2019, the District reported deferred inflows of resources related to OPEB from changes in assumptions or other inputs in the amount of $14,635,081 and differences between expected and actual experience of $14,867,129.

Amounts reported as the deferred inflows of resources related to OPEB will be recognized in OPEB expense over the average future service to retirement of plan participants as follows:

	Deferred Inflows of Resources
Years ending June 30:	
2020	$ 2,462,270
2021	2,462,270
2022	2,462,270
2023	2,462,270
2024	2,462,270
Thereafter	17,190,860
	$ 29,502,210

Note 11. Tax Abatements

GASB Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments

Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2019 under agreements entered into by the following entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Des Moines, Iowa	Urban renewal and economic development projects	$ 5,471,253
City of Pleasant Hill, Iowa	Urban renewal and economic development projects	254
City of Windsor Heights, Iowa	Urban renewal and economic development projects	15,356
		$ 5,486,863

The State of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times $5.40 per $1,000 of taxable valuation. For the year ended June 30, 2019, the District received $1,854,487 of State Foundation Aid Replacement from the State of Iowa to replace $5.40/per $1,000 of assessed valuation lost due to tax increment financing tax abatements paid by the above listed municipalities.

Note 12. Fund Balances

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions,* establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental fund types. The details for the District's fund balance as of June 30, 2019 are as follows:

Fund Balances:	General	Capital Projects	Nonmajor Governmental	Total
Nonspendable:				
Inventories	$ 1,028,373	$ -	$ 57	$ 1,028,430
Prepaids	2,940,080	-	84,313	3,024,393
Total nonspendable	3,968,453	-	84,370	4,052,823
Restricted:				
Student activities	-	-	1,525,584	1,525,584
Management levy purposes	-	-	(931,303)	(931,303)
Physical plant and equipment	-	-	8,054,480	8,054,480
Public education and recreation	-	-	809,932	809,932
DMPS expendable trust	-	-	2,470,869	2,470,869
Capital projects	-	105,276,369	-	105,276,369
Categorical funding	13,807,072	-	-	13,807,072
Shared programs	1,661,684	-	-	1,661,684
Grants	347,703	-	-	347,703
Total restricted	15,816,459	105,276,369	11,929,562	133,022,390
Committed:				
Common core projects	5,000,000	-	-	5,000,000
Technology	6,500,000	-	-	6,500,000
Total committed	11,500,000	-	-	11,500,000
Assigned:				
Technology	1,247,971	-	-	1,247,971
Parent pay reserve	1,639,234	-	-	1,639,234
Total assigned	2,887,205	-	-	2,887,205
Unassigned	62,613,523	-	-	62,613,523
Total fund balances	$ 96,785,640	$ 105,276,369	$ 12,013,932	$ 214,075,941

Nonspendable:

Inventories: These dollars have been committed and spent on inventories that have yet to be consumed.

Prepaid items: These dollars have been spent on expenditures that relate to subsequent fiscal years.

Permanent trust: The principal of the District's permanent fund is legally or contractually required to be maintained intact.

Note 12. Fund Balances (Continued)

Restricted:

The following list of funds are restricted per Department of Ed policy or explicitly stated in Iowa code. Please refer to Note 1 for a description of each funds restricted purpose:

- Student Activities
- Management Levy Purposes
- Physical Plant and Equipment (PPEL)
- Public Education and Recreation (PERL)
- DMPS Expendable Trust
- Capital Projects
- Permanent Trust

Categorical funding: These are funds that Des Moines Public Schools has received from State and Federal sources. These dollars have to be spent in accordance with the guidelines defined by each of these categories. These programs include, but are not limited to:

- 4-Year Old Preschool
- Early Childhood
- English Language Learners (Students that English is not their first language)
- Nonpublic Textbooks
- Professional Development
- Professional Development specifically for the Common Core implementation
- Success Early Readers
- Gifted & Talented
- Teacher Leadership/Teacher Mentoring
- Medicaid Reimbursement
- Special Education Reserve to be utilized for special education related expenditures

Grants: These are funds that have been granted to Des Moines Public Schools from Federal, State or Local sources. These funds can only be spent as defined by the grant.

Shared Programs Reserve: These funds have been set aside to allow students to take classes outside of their core classes. These courses allow students to take college level courses and Career courses that will help transfer these credits to a college after graduation.

Committed:

Curriculum: These funds have been set aside to help Des Moines Public Schools continue to develop Common Core Strategies across the district now and in future years. This initiative will require significant resources and manpower to help the District move forward to this goal.

Curriculum Technology: These funds have been set aside for Curriculum Technology as the District moves toward the Common Core Strategies and continue to move Des Moines Public Schools into the future state of learning in the 21st Century.

Note 12. Fund Balances (Continued)

Assigned:

Technology: These are funds that have been set aside to make sure that Des Moines Public Schools can maintain and improve its current technology infrastructure. This enables the students and employees to have access to the technology needs for the present and the future.

Parent pay reserve: The District has several pre-school programs serving more than 1,900 students, including multiple funding sources. In most cases, half of the school day is covered through the state-funded Universal Preschool Program. The remaining portion of the day is often covered by fees charged to parents (referred to as parent pay revenue). As a result, the District assigned the remaining funds in the parent pay account to be utilized for future pre-school needs.

Note 13. Pending Governmental Accounting Standards Board (GASB) Pronouncements

The GASB has issued several statements not yet implemented by the District. The Statements which might impact the District are as follows:

- GASB Statement No. 84, *Fiduciary Activities*, issued January 2017, will be effective for the District beginning with its fiscal year ending June 30, 2020. Statement No. 84 is designed to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

- GASB Statement No. 87, *Leases,* issued June 2017, will be effective for the District beginning with its fiscal year ending June 30, 2021. Statement No 87, is designed to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Contributions and payments made	**(1,406,697)**	(2,971,963)	(2,091,035)
Net change in total OPEB liability	**(24,109,499)**	4,862,750	2,562,086
Total OPEB liaiblity, beginning	**69,452,570**	64,589,820	62,027,734
Total OPEB liability, ending	**$ 45,343,071**	$ 69,452,570	$ 64,589,820
Covered payroll	**$ 265,893,659**	$ 270,536,351	$ 262,230,859
Total OPEB liability as a percentage of covered payroll	**17.05%**	25.67%	24.63%

Notes to schedule:
Changes of assumptions. Changes of assumptions and other inputs reflect the changes in the discount rate each period. The following are discount rates used in each period.

2017	3.58%
2018	3.87
2019	3.50

The following are health care cost trend rates used in each period.

2017—7.00% for medical and prescription benefits and 4.50% for administrative fees, decreasing 0.50 per year to an ultimate rate of 4.50% for 2022 and later years.

2018—6.50% for medical and prescription benefits and 4.00% for administrative fees, decreasing 0.50 per year to an ultimate rate of 4.00% for 2022 and later years.

2019—6.00% for medical and prescription benefits and 4.50% for administrative fees, decreasing 0.50 per year to an ultimate rate of 4.00% for 2022 and later years.

GASB 75 requires the presentation of 10 years of information. However, until a full 10-year trend is compiled, the District will present information for those years which information is available.

Des Moines Independent Community School District

Note to Required Supplementary Information
Iowa Public Employees' Retirement System

The information presented in the required supplementary schedule was determined as part of the June 30, 2018 and 2017 actuarial valuations.

Changes in actuarial assumptions and methods:

June 30, 2018 Valuation:

- Mortality assumption was changed to the family of RP-2014 Mortality Tables for all groups, with mortality improvements modeled using Scale MP-2017.
- Retirement rates for Regular members were lowered to better reflect actual experience. For the Sheriffs and Deputies, the retirement assumption was modified to reflect lower retirement rates at the younger ages. For the Protection Occupation group, the retirement rates were modified both higher and lower across the age ranges.
- Disability rates were lowered for all groups to better reflect the actual experience.
- Termination rates for Regular members were adjusted to better reflect actual experience. Separate termination assumptions were adopted for the two Special Service groups and the assumptions were changed to be service-based rather than age-based.
- The probability of a vested member electing to receive a deferred benefit was adjusted for Regular members to better reflect actual experience.
- The merit component of the salary increase assumptions was adjusted to better reflect actual salary increases.

June 30, 2017 Valuation:

- The inflation assumption decreased from 3.00% to 2.60% per year.
- The assumed rate of interest on member accounts was decreased from 3.75% to 3.50% per year.
- The long-term rate of return assumption decreased from 7.50% to 7.00% per year.
- The wage growth and payroll growth assumption decreased from 4.00% to 3.25% per year.
- Salary increase assumption decreased by 0.75%.

June 30, 2016 Valuation:

- None

June 30, 2015 Valuation:

- None

June 30, 2014 Valuation:

- The inflation assumption decreased from 3.25% to 3.00% per year.
- The assumed rate of interest on member accounts was decreased from 4.00% to 3.75% per year.
- Male mortality rates for Regular members were adjusted:
    - State males were changed to the RP-2000 Healthy Annuitant Table using generational mortality projections with no age adjustment.
    - School males were changed to the RP-2000 Healthy Annuitant Table using generational mortality projections with a 1-year age set back and rates decreased by 5% below age 75.
    - Other males were changed to the RP-2000 Healthy Annuitant Table using generational mortality projections with no age adjustment.
- Retirement rates were reduced for Sheriffs and Deputies between the ages of 55 and 64.
- Beginning June 30, 2014, the Amortization Method amortizes the June 30, 2014 UAL as a level percentage of payroll over a closed 30-year period. Each year thereafter, changes in the UAL will result in the establishment of new amortization bases. The future bases arising from plan experience will be amortized over a closed 20-year period beginning on the date the base is established. The amortization period for changes in the UAL due to plan amendments and assumption changes will be determined by the Investment Board at the time they occur.

Note 1. Basis of Presentation

The District operates within the budget requirements for school districts as specified by state law and as prescribed by the Iowa Department of Management. Budgets are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

For the fiscal year beginning July 1, a proposed budget is adopted by the Board and filed with the County Auditor no later than April 15. The budget is certified by the County Auditor to the Department of Management.

Once adopted, the budget can be amended by the Board. The amendment must be published and a public hearing conducted prior to the amendment. Any amendments must be certified to the County Auditor no later than May 31. The proposed expenditure budget is advertised in the local newspaper, together with a notice of public hearing.

The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the functional area for budgeted governmental, enterprise, and private purpose trust funds in total, rather than by individual fund type. Formal and legal budgetary control is based on four major classes of expenditures known as functional areas. These four functional areas are instruction, support services, noninstructional programs and other expenditures. During the year ended June 30, 2019, the District was below budget in all four functional areas. Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. Authorized expenditures cannot exceed the lesser of the certified budget plus any allowable amendments, or the authorized budget, which is the sum of the District's cost for that year plus the actual miscellaneous income received for that year plus the actual unspent balance from the preceding year. Appropriations as adopted and amended lapse at the end of the fiscal year.

During the year, one budget amendment increased budgeted expenditures by $14,873,989.

The District is required by the Code of Iowa to budget for its share of media, educational services and special education support provided through the local area education agency. The District's actual amount for this purpose totaled $14,914,998 for the year ended June 30, 2019.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds
Account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extracurricular or cocurricular activities.

Management: This fund is authorized by Iowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty.

DMPS (expendable trust funds): This fund accounts for transactions that are received in trust in which both the principal and interest earned can be used to support the District.

Debt Service Fund
Accounts for and reports financial resources that are restricted, committed or assigned to expenditure for principal and interest.

Capital Projects Funds
Accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Physical Plant and Equipment Levy (PPEL): This capital projects fund is authorized by Iowa Code Section 298.2 and accounts for transactions related to the improvement of facilities and grounds, construction of schoolhouses, certain equipment expenditures and other expenditures authorized in Iowa Code Section 298.3.

Public Education and Recreation Levy (PERL): This fund is authorized by Iowa Code Section 300.2 and accounts for transactions related to schoolhouse playgrounds and recreational activities within the District. This fund also accounts for community education activity.

Permanent Funds
The Permanent Trust Fund accounts for transactions that are received in trust in which only the interest earned, and not the principal itself, can be used to support the District.

NONMAJOR ENTERPRISE FUNDS

Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

School Nutrition Fund
This fund accounts for transactions related to the school lunch, breakfast and summer food programs authorized by Iowa Code Section 283A.

Child Care Fund
This fund accounts for transactions for before and after school child care and summer child care programs authorized by Iowa Code Sections 298A.12 and 279.49.

Home Construction Fund
This fund accounts for transactions for the home building activity performed by students as part of their instructional or extracurricular program. This fund also accounts for the sale of those homes.

Automotive Fund
This fund accounts for transactions for the service and repair of automobiles performed by students as part of their instructional or extracurricular program.

INTERNAL SERVICE FUNDS

The internal service funds are used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis.

Self-Insurance Fund
This fund accounts for transactions for self-insured health insurances including medical, dental, prescription and vision received by District employees in which the District is responsible for paying all claims and administrative costs attributable to the insurances listed in Note 1.

Risk Management Fund
This fund accounts for transactions for certain health insurances including life and disability received by District employees in which the District is responsible for paying all premiums as specified attributable to the insurances listed in Note 1.

Print Shop Fund
This fund accounts for transactions for print shop and copying services.

Principal retirement	520,000	3,180,000	2,590,000	5,810,000
Interest	39,078	4,334,020	3,418,000	6,348,244
Payment to escrow agent	-	-	-	-
Bond issuance costs	499,051	-	1,299,592	-
Total expenditures	$ 393,085,363	$ 408,515,833	$ 419,436,140	$ 440,319,123
Debt service as a percentage of noncapital expenditures	0.16%	2.08%	1.62%	3.23%

Source: Comprehensive Annual Financial Report

Note: The increase in percentage in fiscal year 2009 is due to early retirement of sales tax revenue bonds. Debt service as a percentage of noncapital expenditures is calculated by dividing total debt service expenditures (principal and interest) by total noncapital expenditures (the difference between total expenditures and capitalized capital outlay expenditures).

N/A - There were no revenue bonds outstanding in each of these years.

- There were no payments due on revenue bonds outstanding during fiscal year 2010.

Note:

The statewide penny sales (SWP) tax was implemented in the District on July 1, 2010. The District's SWP tax revenue for each fisal year is calculated by multiplying the certified enrollment by the statewide average tax revenue per student. The statewide average is calculated by dividing the total statewide penny sales tax revenue by the statewide enrollment.
