

OFFICIAL STATEMENT DATED JANUARY 20, 2020

New Issue

Rating: Moody's Investors Service 'Aa1'

Assuming compliance with certain covenants, in the opinion of Ahlers & Cooney, P.C., Bond Counsel, under present law and assuming continued compliance with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), interest on the Bonds is excludable from gross income for federal income tax purposes. Interest on the Bonds is not an item of tax preference for federal alternative minimum tax purposes. Interest on the Bonds is NOT exempt from present Iowa income taxes. The Bonds will NOT be designated as "qualified tax-exempt obligations". See "TAX MATTERS" herein for a more detailed discussion.

IOWA CITY COMMUNITY SCHOOL DISTRICT JOHNSON COUNTY, IOWA

\$65,925,000 General Obligation School Bonds, Series 2020

Dated: Date of Delivery (February 11, 2020)

Principal Due: June 1, 2021 through 2039 as shown below

The \$65,925,000 General Obligation School Bonds, Series 2020 (the "Bonds") are being issued by the Iowa City Community School District, Johnson County, Iowa (the "District") pursuant to the provisions of Chapter 296 of the Code of Iowa and a resolution for the Bonds adopted by the District's School Board. The Bonds are being issued to provide the third phase of funding for capital improvements to address health, safety, and accessibility issues in all school buildings, including air conditioning all school buildings, reducing the use of temporary classroom structures in the District, addressing classroom, lunchroom, and gymnasium overcrowding, and dedicating rooms to art, music, prekindergarten, and science by constructing, furnishing and equipping a new building, constructing additions to and/or remodeling, repairing, and improving the school buildings remaining in the District's Facilities Master Plan, as follows: Mann and Lincoln renovations, Liberty High athletic facilities construction and site improvements, new elementary school construction in North Liberty and site improvements, West High renovation, South East and North Central Junior High additions, Shimek renovation, City High addition and upgrades, Wood addition, Wickham upgrades, Garner and Northwest additions, Liberty High addition, Horn renovation, Kirkwood addition, Borlaug, Alexander, and Lemme additions, and Tate High addition and upgrades. The Bonds are general obligations of the District and will be paid from annual taxes levied against all taxable real property within the boundaries of the District.

The Bonds will be issued as fully registered Bonds without coupons and, when issued, will be registered in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"). DTC will act as securities depository for the Bonds. Individual purchases may be made in book-entry-only form, in the principal amount of \$5,000 and integral multiples thereof. The purchaser will not receive certificates representing their interest in the Bonds purchased. Principal of the Bonds, payable annually on each June 1, beginning June 1, 2021 and interest on the Bonds payable initially on June 1, 2020 and thereafter on each December 1 and June 1, will be paid to DTC by the District's Registrar/Paying Agent, UMB Bank, N.A., West Des Moines, Iowa (the "Registrar"). DTC will in turn remit such principal and interest to its participants for subsequent disbursements to the beneficial owners of the Bonds as described herein. Principal and interest shall be paid to the registered holder of a bond as shown on the records of ownership maintained by the Registrar as of the close of business on the 15th day of the month preceding such payment date.

The Bonds will mature June 1 in the years and amounts as follows:

* Priced to the call date of June 1, 2028.

REDEMPTION: Bonds due after June 1, 2028 will be subject to call on said date of any date thereafter upon terms of par plus accrued interest to date of call.

The Bonds are offered, subject to prior sale, withdrawal or modification, when, as, and if issued subject to the unqualified approving legal opinion of Ahlers & Cooney, P.C., Bond Counsel, Des Moines Iowa, to be furnished upon delivery of the Bonds. It is expected the Bonds, in the definitive form, will be available on or about February 11, 2020 via Fast Automated Securities Transfer delivery with the Registrar holding the Bonds on behalf of DTC.

No dealer, broker, salesman or other person has been authorized by the District, the Municipal Advisor or the underwriter to give any information or to make any representations other than those contained in this Official Statement, if given or made, such information and representations must not be relied upon as having been authorized by the District, the Municipal Advisor or the underwriter. This Official Statement does not constitute an offer to sell or solicitation of an offer to buy, nor shall there be any sale of the Bonds by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale. The information set forth herein has been obtained from the District and other sources which are believed to be reliable, but it is not to be construed as a representation by the Municipal Advisor or underwriter. The information and expressions of opinion herein are subject to change without notice, and neither the delivery of this Official Statement, nor any sale made thereafter shall, under any circumstances, create any implication there has been no change in the affairs of the District or in any other information contained herein, since the date hereof.

This Official Statement and any addenda thereto were prepared relying on information from the District and other sources, which are believed to be reliable.

Bond Counsel has not participated in the preparation of this Official Statement and is not expressing any opinion as to the completeness or accuracy of the information contained therein.

Compensation of the Municipal Advisor, payable entirely by the District, is contingent upon the sale of the issue.

IOWA CITY COMMUNITY SCHOOL DISTRICT
JOHNSON COUNTY, IOWA

\$65,925,000 General Obligation School Bonds, Series 2020

INTRODUCTION

This Official Statement contains information relating to the Iowa City Community School District located within Johnson County, Iowa (the “District”) and its issuance of \$65,925,000 General Obligation School Bonds, Series 2020 (the “Bonds”). This Official Statement has been executed on behalf of the District and its School Board and may be distributed in connection with the sale of the Bonds. Questions regarding the sale of the Bonds should be directed to the District’s Municipal Advisor, PFM Financial Advisors LLC (the “Municipal Advisor”), 801 Grand Avenue, Suite 3300, Des Moines, Iowa, 50309, telephone 515-243-2600. Information may also be obtained from the District’s Director of Budget & Finance/Board Treasurer, Mr. Leslie Finger, Iowa City Community School District, 1725 North Dodge Street, Iowa City, Iowa 52245, or by telephoning 319-688-1000.

AUTHORITY AND PURPOSE

The Bonds are being issued pursuant to Chapter 296 of the Code of Iowa, as approved by over 60% of District voters at an election held on September 12, 2017, to provide the third phase of funding for capital improvements to address health, safety, and accessibility issues in all school buildings, including air conditioning all school buildings, reducing the use of temporary classroom structures in the District, addressing classroom, lunchroom, and gymnasium overcrowding, and dedicating rooms to art, music, prekindergarten, and science by constructing, furnishing and equipping a new building, constructing additions to and/or remodeling, repairing, and improving the school buildings remaining in the District’s Facilities Master Plan, as follows: Mann and Lincoln renovations, Liberty High athletic facilities construction and site improvements, new elementary school construction in North Liberty and site improvements, West High renovation, South East and North Central Junior High additions, Shimek renovation, City High addition and upgrades, Wood addition, Wickham upgrades, Garner and Northwest additions, Liberty High addition, Horn renovation, Kirkwood addition, Borlaug, Alexander, and Lemme additions, and Tate High addition and upgrades.

The sources and uses of the Bonds are as follows:

Source of Funds

Capitalized Interest	679,473.44
Underwriter’s Discount	220,787.04
Cost of Issuance	<u>156,000.00</u>
Total Uses	\$71,401,664.80

INTEREST

Interest on the Bonds will be payable initially on June 1, 2020 and thereafter on each December 1 and June 1. Interest and principal shall be paid to the registered holder of a bond as shown on the records of ownership maintained by the Registrar as of the close of business on the 15th day of the month next preceding the interest payment date (the “Record Date”). Interest will be computed on the basis of a 360-day year of twelve 30-day months and will be rounded pursuant to rules of the Municipal Securities Rulemaking Board.

OPTIONAL REDEMPTION

Bonds due after June 1, 2028 will be subject to call prior to maturity in whole, or from time to time in part, in any order of maturity and within a maturity by lot on said date or on any date thereafter at the option of the District, upon terms of par plus accrued interest to date of call. Written notice of such call shall be given at least thirty (30) days prior to the date fixed for redemption to the registered owners of the Bonds to be redeemed at the address shown on the registration books.

PAYMENT OF AND SECURITY FOR THE BONDS

The Bonds are general obligations of the District and the unlimited taxing powers of the District are irrevocably pledged for their payment. Upon issuance of the Bonds, the District will levy taxes for the years and in amounts sufficient to provide 100% of annual principal and interest due on the Bonds. If, however, the amount credited to the debt service fund for payment of the Bonds is insufficient to pay principal and interest, whether from transfers or from original levies, the District must use funds in its treasury and is required to levy ad valorem taxes upon all taxable real property in the District without limit as to rate or amount sufficient to pay the debt service deficiency.

Iowa Code section 76.2 provides that when an Iowa political subdivision issues general obligation bonds, “the governing authority of these political subdivisions before issuing bonds shall, by resolution, provide for the assessment of an annual levy upon all the taxable property in the political subdivision sufficient to pay the interest and principal of the bonds within a period named not exceeding twenty years. A certified copy of this resolution shall be filed with the county auditor or the auditors of the counties in which the political subdivision is located; and the filing shall make it a duty of the auditors to enter annually this levy for collection from the taxable property within the boundaries of the political subdivision until funds are realized to pay the bonds in full.”

Nothing in the resolution for the Bonds prohibits or limits the ability of the District to use legally available moneys other than the proceeds of the general ad valorem property taxes levied, as described in the preceding paragraph, to pay all or any portion of the principal of or interest on the Bonds. If and to the extent such other legally available moneys are used to pay the principal of or interest on the Bonds, the District may, but shall not be required to, (a) reduce the amount of taxes levied for such purpose, as described in the preceding paragraph; or (b) use proceeds of taxes levied, as described in the preceding paragraph, to reimburse the fund or account from which such other legally available moneys are withdrawn for the amount withdrawn from such fund or account to pay the principal of or interest on Bonds.

The resolution for the Bonds does not restrict the District’s ability to issue or incur additional general obligation debt, although issuance of additional general obligation debt is subject to the same constitutional and statutory limitations that apply to the issuance of the Bonds. For a further description of the District’s outstanding general obligation debt upon issuance of the Bonds and the annual debt service on the Bonds, see “DIRECT DEBT” under “DISTRICT INDEBTEDNESS” included in APPENDIX A herein. For a description of certain constitutional and statutory limits on the issuance of general obligation debt, see “DEBT LIMIT” under “DISTRICT INDEBTEDNESS” included in APPENDIX A to this Official Statement.

BOOK-ENTRY-ONLY ISSUANCE

The information contained in the following paragraphs of this subsection “BOOK-ENTRY-ONLY ISSUANCE” has been extracted from a schedule prepared by Depository Trust Company (“DTC”) entitled “SAMPLE OFFERING DOCUMENT LANGUAGE DESCRIBING DTC AND BOOK-ENTRY-ONLY ISSUANCE.” The information in this section concerning DTC and DTC’s book-entry-only system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the accuracy thereof.

The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for the securities (the “Securities”). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for each issue of the Securities, each in the aggregate principal amount of such issue, and will be deposited with DTC. If, however, the aggregate principal amount of any issue exceeds \$500 million, one certificate will be issued with respect to each \$500 million of principal amount, and an additional certificate will be issued with respect to any remaining principal amount of such issue.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments from over 100 countries that DTC's participants (the "Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (the "Indirect Participants"). DTC has Standard & Poor's rating: AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC's records. The ownership interest of each actual purchaser of each Security (the "Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Securities, except in the event that use of the book-entry system for the Securities is discontinued.

To facilitate subsequent transfers, all Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Securities may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Securities, such as redemptions, tenders, defaults, and proposed amendments to the Security documents. For example, Beneficial Owners of Securities may wish to ascertain that the nominee holding the Securities for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co., nor any other DTC nominee, will consent or vote with respect to Securities unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Securities are credited on the record date identified in a listing attached to the Omnibus Proxy.

Redemption proceeds, distributions, and dividend payments on the Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC, is the responsibility of the District or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

A Beneficial Owner shall give notice to elect to have its Securities purchased or tendered, through its Participant, to Tender/Remarketing Agent, and shall effect delivery of such Securities by causing the Direct Participant to transfer the Participant's interest in the Securities, on DTC's records, to Tender/Remarketing Agent. The requirement for physical delivery of Securities in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Securities are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Securities to Tender/Remarketing Agent's DTC account.

DTC may discontinue providing its services as depository with respect to the Securities at any time by giving reasonable notice to the District or Agent. Under such circumstances, in the event that a successor depository is not obtained, Security certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the accuracy thereof.

FUTURE FINANCING

The District has no additional general obligation borrowing plans within the next 90 days of the date of this Official Statement.

LITIGATION

The District is not aware of any threatened or pending litigation affecting the validity of the Bonds or the District's ability to meet its financial obligations.

DEBT PAYMENT HISTORY

The District knows of no instance in which it has intentionally defaulted in the payment of principal or interest on its debt. However, the June 1, 2015 interest payment due of \$83,811.32 on the General Obligation School Capital Loan Notes, Series 2014, dated December 23, 2014, was not paid on June 1, 2015, due to an error by the Paying Agent, Bankers Trust Company. The District levied and collected the amount of interest due of \$83,811.32 which was on hand as of June 1, 2015 and available for payment on June 1, 2015. On June 12, 2015, the interest payment was made.

LEGALITY

The Bonds are subject to approval as to certain matters by Ahlers & Cooney, P.C. of Des Moines, Iowa as Bond Counsel. Bond Counsel has not participated in the preparation of this Official Statement other than to review or prepare information describing the terms of the Bonds and Iowa and Federal law pertinent to the validity of and the tax status of interest on the Bonds, which can be found generally under the sections "AUTHORITY AND PURPOSE", "OPTIONAL REDEMPTION", "PAYMENT AND SECURITY FOR THE BONDS" and "TAX MATTERS", herein. Additionally, Bond Counsel has provided its legal opinion and Continuing Disclosure Certificate, included in APPENDIX B and

APPENDIX D, respectively, to this Official Statement. Bond Counsel is not expressing any opinion as to the completeness or accuracy of the information contained in the Official Statement. The FORM OF LEGAL OPINION as set out in APPENDIX B to this Official Statement, will be delivered at closing.

The legal opinion to be delivered concurrently with the delivery of the Bonds, expresses the professional judgment of the attorneys rendering the opinion as to legal issues expressly addressed therein. By rendering a legal opinion, the opinion giver does not become an insurer or guarantor of the result indicated by that expression of professional judgment, or of the transaction on which the opinion is rendered, or of the future performance of parties to the transaction. Nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

There is no trustee or similar person to monitor or enforce the provisions of the resolution for the Bonds. The owners of the Bonds should, therefore, be prepared to enforce such provisions themselves if the need to do so arises. In the event of a default in the payment of principal or interest on the Bonds, there is no provision for acceleration of maturity of the principal of the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the District and certain other public officials to perform the terms of the resolution for the Bonds) may have to be enforced from year to year. The owners of the Bonds cannot foreclose on property within the boundaries of the District or sell such property in order to pay the debt service on the Bonds.

In addition, the enforceability of the rights and remedies of owners of the Bonds may be subject to limitation as set forth in Bond Counsel's opinion. The opinion will state, in part, that the obligation of the District with respect to the Bonds may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights, heretofore or hereafter, enacted to the extent constitutionally applicable, to the exercise of judicial discretion in appropriate cases.

TAX MATTERS

Tax Exemptions and Related Considerations: Federal tax law contains a number of requirements and restrictions that apply to the Bonds. These include investment restrictions, periodic payments of arbitrage profits to the United States, requirements regarding the proper use of bond proceeds and facilities financed with bond proceeds, and certain other matters. The District has covenanted to comply with all requirements that must be satisfied in order for the interest on the Bonds to be excludable from gross income for federal income tax purposes. Failure to comply with certain of such covenants could cause interest on the Bonds to become includable in gross income for federal income tax purposes retroactively to the date of issuance of the Bonds.

Subject to the District's compliance with the above referenced covenants, under present law, in the opinion of Bond Counsel, interest on the Bonds is excludable from gross income for federal income tax purposes and interest on the Bonds is not an item of tax preference for purposes of the federal alternative minimum tax.

The prospective purchaser of the Bonds should be aware that ownership of the Bonds may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, corporations subject to the branch profits tax, financial institutions, certain insurance companies, certain S corporations, individual recipients of Social Security or Railroad Retirement benefits and taxpayers who may be deemed to have incurred (or continued) indebtedness to purchase or carry tax-exempt obligations. Bond Counsel will not express any opinion as to such collateral tax consequences. The prospective purchaser of the Bonds should consult their tax advisors as to collateral federal income tax consequences.

Interest on the Bonds is included in gross income for State of Iowa income tax purposes.

Ownership of the Bonds may result in other state and local tax consequences to certain taxpayers. Bond Counsel expresses no opinion regarding any such collateral consequences arising with respect to the Bonds. The prospective purchaser of the Bonds should consult their tax advisors regarding the applicability of any such state and local taxes.

NOT-Qualified Tax-Exempt Obligations: The District will NOT designate the Bonds as "qualified tax-exempt obligations" under the exception provided in Section 265(b)(3) of the Internal Revenue Code of 1986, as amended (the "Code").

Tax Accounting Treatment of Discount and Premium Bonds: The initial public offering price of the Bonds (the “Discount Bonds”) may be less than the amount payable on such Bonds at maturity. An amount equal to the difference between the initial public offering price of Discount Bonds (assuming that a substantial amount of the Discount Bonds of that maturity are sold to the public at such price) and the amount payable at maturity constitutes original issue discount to the initial purchaser of such Discount Bonds. Owners of Discount Bonds should consult with their own tax advisors with respect to the determination of accrued original issue discount on Discount Bonds for federal income tax purposes and with respect to the state and local tax consequences of owning and disposing of Discount Bonds. It is possible that, under applicable provisions governing determination of state and local income taxes, accrued interest on Discount Bonds may be deemed to be received in the year of accrual even though there will not be a corresponding cash payment.

The initial public offering price of the Bonds (the “Premium Bonds”) may be greater than the amount of such Premium Bonds at maturity. An amount equal to the difference between the initial public offering price of Premium Bonds (assuming that a substantial amount of the Premium Bonds of that maturity are sold to the public at such price) and the amount payable at maturity constitutes a premium to the initial purchaser of such Premium Bonds. Purchasers of the Premium Bonds should consult with their own tax advisors with respect to the determination of amortizable bond premium on Premium Bonds for federal income tax purposes and with respect to the state and local tax consequences of owning and disposing of Premium Bonds.

Other Tax Advice: In addition to the income tax consequences described above, potential investors should consider the additional tax consequences of the acquisition, ownership, and disposition of the Bonds. For instance, state income tax law may differ substantially from state to state, and the foregoing is not intended to describe any aspect of the income tax laws of any state. Therefore, potential investors should consult their own tax advisors with respect to federal tax issues and with respect to the various state tax consequences of an investment in Bonds.

Audits: The Internal Revenue Service (the “Service”) has an ongoing program of auditing tax-exempt obligations to determine whether, in the view of the Service, interest on such tax-exempt obligations is includable in the gross income of the owners thereof for federal income tax purposes. It cannot be predicted whether or not the Service will commence an audit of the Bonds. If an audit is commenced, under current procedures the Service may treat the District as a taxpayer and the bondholders may have no right to participate in such procedure. The commencement of an audit could adversely affect the market value and liquidity of the Bonds until the audit is concluded, regardless of the ultimate outcome.

Withholdings: Payments of interest on, and proceeds of the sale, redemption or maturity of tax-exempt obligations, including the Bonds, are in certain cases required to be reported to the Service. Additionally, backup withholding may apply to any such payments to any Bondholder who fails to provide an accurate Form W-9 Request for Taxpayer Identification Number and Certification, or a substantially identical form, or to any Bondholder who is notified by the Service of a failure to report any interest or dividends required to be shown on federal income tax returns. The reporting and backup withholding requirements do not affect the excludability of such interest from gross income for federal tax purposes.

New and Pending Legislation: Legislation affecting tax-exempt obligations is regularly considered by the United States Congress and may be considered by the Iowa legislature. Court proceedings may also be filed, the outcome of which could modify the tax treatment. There can be no assurance that legislation enacted or proposed, or actions by a court, after the date of issuance of the Bonds will not have an adverse effect on the tax status of interest or other income on the Bonds or the market value or marketability of the Bonds. These adverse effects could result, for example, from changes to federal or state income tax rates, changes in the structure of federal or state income taxes (including replacement with another type of tax), or repeal (or reduction in the benefit) of the exclusion of interest on the Bonds from gross income for federal or state income tax purposes for all or certain taxpayers.

Current and future legislative proposals, including some that carry retroactive effective dates, if enacted into law, court decisions, or clarification of the Code may cause interest on the Bonds to be subject, directly or indirectly, to federal income taxation, or otherwise prevent owners of the Bonds from realizing the full current benefit of the tax status of such interest. Also, future legislative proposals, or clarification of the Code, may affect the market price for, or marketability of, the Bonds. Prospective purchasers of the Bonds should consult their own legal counsel and tax advisors regarding pending or proposed tax legislation, as to which Bond Counsel expresses no opinion except as expressly set forth in APPENDIX B within this Official Statement.

The opinions expressed by Bond Counsel are based upon existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the Bonds, and Bond Counsel has expressed no opinion as of any date subsequent thereto or with respect to any proposed or pending legislation, regulatory initiatives or litigation.

Enforcement: Holders of the Bonds shall have and possess all the rights of action and remedies afforded by the common law, the Constitution and statutes of the State of Iowa and of the United States of America for the enforcement of payment of the Bonds, including, but not limited to, the right to a proceeding in law or in equity by suit, action or mandamus to enforce and compel performance of the duties required by Iowa law and the resolution authorizing issuance of the Bonds. There is no bond trustee or similar person to monitor or enforce the terms of the resolution for the Bonds. In the event of a default in the payment of principal of or interest on the Bonds, there is no provision for acceleration of maturity of the principal of the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the District and certain other public officials to perform the terms of the resolution for the Bonds) may have to be enforced from year to year. The enforceability of the rights and remedies of owners of the Bonds may be subject to limitation as set forth in Bond Counsel's opinion.

The obligation to pay general ad valorem property taxes is secured by a statutory lien upon the taxed property, but is not an obligation for which a property owner may be held personally liable in the event of a deficiency. The owners of the Bonds cannot foreclose on property within the boundaries of the District or sell such property in order to pay the debt service on the Bonds. In addition, the enforceability of the rights and remedies of owners of the Bonds may be subject to limitation as set forth in Bond Counsel's opinion. The opinion to be delivered concurrently with the delivery of the Bonds will be qualified as to the enforceability of the various legal instruments by limitations imposed by general principles of equity and public policy and by bankruptcy, reorganization, insolvency or other similar laws affecting the rights of creditors generally, and to the exercise of judicial discretion in appropriate cases.

No representation is made, and no assurance is given, that the enforcement of any remedies with respect to such assets will result in sufficient funds to pay all amounts due under the resolution for the Bonds, including principal of and interest on the Bonds.

The Opinion: The opinion expressed by Bond Counsel is based upon existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the Bonds, and Bond Counsel has expressed no opinion as of any date subsequent thereto or with respect to any proposed or pending legislation, regulatory initiatives or litigation.

Bond Counsel's opinion is not a guarantee of a result, or of the transaction on which the opinion is rendered, or of the future performance of parties to the transaction, but represents its legal judgment based upon its review of existing statutes, regulations, published rulings and court decisions and the representations and covenants of the District described in this section. No ruling has been sought from the Service with respect to the matters addressed in the opinion of Bond Counsel and Bond Counsel's opinion is not binding on the Service. Bond Counsel assumes no obligation to update its opinion after the issue date to reflect any further action, fact or circumstance, or change in law or interpretation, or otherwise.

ALL POTENTIAL PURCHASERS OF THE BONDS SHOULD CONSULT WITH THEIR TAX ADVISORS WITH RESPECT TO FEDERAL, STATE AND LOCAL TAX CONSEQUENCES OF OWNERSHIP OF THE BONDS, INCLUDING, BUT NOT LIMITED TO, THOSE LISTED ABOVE.

BONDHOLDER'S RISKS

An investment in the Bonds is subject to certain risks. No person should purchase the Bonds unless such person understands the risks described below and is willing to bear those risks. There may be other risks not listed below which may adversely affect the value of the Bonds. In order to identify risk factors and make an informed investment decision, potential investors should be thoroughly familiar with this entire Official Statement (including the Appendices hereto) in order to make a judgment as to whether the Bonds are an appropriate investment.

Secondary Market Not Established: There is no established secondary market for the Bonds and there is no assurance a secondary market will develop for the purchase and sale of the Bonds. Prices of municipal bonds traded in the secondary market, if any, are subject to adjustment upward and downward in response to changes in the credit markets and changes in the operating performance of the entities operating the facilities subject to bonded indebtedness. From time to time it may be necessary to suspend indefinitely secondary market trading in selected issues of municipal bonds as a result of the financial condition or market position, prevailing market conditions, lack of adequate current financial information about the entity, operating the subject facilities, or a material adverse change in the operations of that entity, whether or not the subject bonds are in default as to principal and interest payments, and other factors which, may give rise to uncertainty concerning prudent secondary market practices.

Municipal bonds are generally viewed as long-term investments, subject to material unforeseen changes in the investor's circumstances, and may require commitment of the investor's funds for an indefinite period of time, perhaps until maturity.

EACH PROSPECTIVE PURCHASER IS RESPONSIBLE FOR ASSESSING THE MERITS AND RISKS OF AN INVESTMENT AND MUST BE ABLE TO BEAR THE ECONOMIC RISK OF SUCH INVESTMENT. THE SECONDARY MARKET FOR THE BONDS, IF ANY, COULD BE LIMITED.

Ratings Loss: Moody's Investors Service ("Moody's") has assigned a rating of 'Aa1' to the Bonds. Generally, a rating agency bases its rating on the information and materials furnished to it and on investigations, studies and assumptions of its own. There is no assurance the ratings will continue for any given period of time, or that such ratings will not be revised, suspended or withdrawn, if, in the judgment of Moody's, circumstances so warrant. A revision, suspension or withdrawal of a rating may have an adverse effect on the market price of the Bonds.

Rating agencies are currently not regulated by any regulatory body. Future regulation of rating agencies could materially alter the methodology, rating levels, and types of ratings available, for example, and these changes, if ever, could materially affect the market value of the Bonds.

Matters Relating to Enforceability: There is no bond trustee or similar person to monitor or enforce the provisions of the resolution for the Bonds. The owners of the Bonds should, therefore, be prepared to enforce such provisions themselves if the need to do so arises. In the event of a default in the payment of principal of or interest on the Bonds, there is no provision for acceleration of maturity of the principal of the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the District and certain other public officials to perform the terms of the resolution for the Bonds) may have to be enforced from year to year. Holders of the Bonds shall have and possess all the rights of action and remedies afforded by the common law, the Constitution and statutes of the State of Iowa and of the United States of America for the enforcement of payment of the Bonds, including, but not limited to, the right to a proceeding in law or in equity by suit, action or mandamus to enforce and compel performance of the duties required by Iowa law and the resolution for the Bonds.

The practical realization of any rights upon any default will depend upon the exercise of various remedies specified in the resolution for the Bonds. The remedies available to the owners of the Bonds upon an event of default under the resolution for the Bonds, in certain respects, may require judicial action, which is often subject to discretion and delay. Under existing law, including specifically the federal bankruptcy code, certain of the remedies specified in the resolution for the Bonds may not be readily available or may be limited. A court may decide not to order the specific performance of the covenants contained in these documents. The legal opinions to be delivered concurrently with the delivery of the Bonds will be qualified as to the enforceability of the various legal instruments by limitations imposed by general principles of equity and public policy and by bankruptcy, reorganization, insolvency or other similar laws affecting the rights of creditors generally.

No representation is made, and no assurance is given, that the enforcement of any remedies with respect to such assets will result in sufficient funds to pay all amounts due under the resolution for the Bonds, including principal of and interest on the Bonds.

Forward-Looking Statements: This Official Statement contains statements relating to future results that are “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. When used in this Official Statement, the words “estimate,” “forecast,” “intend,” “expect” and similar expressions identify forward-looking statements. Any forward-looking statement is subject to uncertainty. Accordingly, such statements are subject to risks that could cause actual results to differ, possibly materially, from those contemplated in such forward-looking statements. Inevitably, some assumptions used to develop forward-looking statements will not be realized or unanticipated events and circumstances may occur. Therefore, investors should be aware there are likely to be differences between forward-looking statements and the actual results. These differences could be material and could impact the availability of funds of the District to pay debt service when due on the Bonds.

Financial Condition of the District from time to time: No representation is made as to the future financial condition of the District. Certain risks discussed herein could adversely affect the financial condition and or operations of the District in the future. However, the Bonds are secured by an unlimited ad valorem property tax as described more fully in the “PAYMENT OF AND SECURITY FOR THE BONDS” herein.

Redemption Prior to Maturity: In considering whether to make an investment in the Bonds, it should be noted the Bonds are subject to optional redemption, as outlined herein, without Bondholder discretion or consent. See “OPTIONAL REDEMPTION” herein.

Tax Matters and Loss of Tax Exemption: As discussed under the heading “TAX MATTERS” herein, the interest on the Bonds could become includable in gross income for purposes of federal income taxation retroactive to the date of delivery of the Bonds, as a result of acts or omissions of the District in violation of its covenants in the resolution for the Bonds. Should such an event of taxability occur, the Bonds would not be subject to a special prepayment and would remain outstanding until maturity or until prepaid under the prepayment provisions contained in the Bonds, and there is no provision for an adjustment of the interest rates on the Bonds.

It is possible further legislation will be proposed or introduced that could result in changes in the way that tax exemptions are calculated, or whether interest on certain securities are exempt from taxation at all. Prospective purchasers should consult with their own tax advisors regarding any pending or proposed federal income tax legislation. The likelihood of legislation being enacted cannot be reliably predicted.

It is also possible actions of the District, after the closing of the Bonds, will alter the tax status of the Bonds, and in the extreme, remove the tax-exempt status from the Bonds. In that instance, the Bonds are not subject to mandatory prepayment and the interest rates on the Bonds will not increase or otherwise reset. A determination of taxability on the Bonds after closing could materially adversely affect the value and marketability of the Bonds.

Legislation Affecting Property Tax Collections: During its 2013 session the Iowa Legislature enacted, and the Governor signed, Senate File 295 (“SF295”). Among other things, SF295 reduces the limit on the annual assessed value growth with respect to residential and agricultural property from 4% to 3%, reduces as a rollback the taxable value applicable to commercial, industrial and railroad property to 95% for the 2013 assessment year and 90% for the 2014 assessment year and all years thereafter, and provides a partial exemption on telecommunications property. SF295 also creates a new separate classification for multiresidential properties which were previously taxed as commercial properties, and assigns an incremental rollback percentage over several years for multiresidential properties such that the multiresidential rollback determination will match that for residential properties in the 2022 assessment year. As a result of SF295, local governments expect to experience reductions in property tax revenues over the next several fiscal years. SF295 includes state-funded replacement moneys for a portion of the expected reduction in property tax revenues to the local governments, but such replacement funding is limited in both amount and duration of availability. There can be no assurance the state-funded replacement moneys will be provided by the state, if at all, during the term the Bonds remain outstanding. The District does not expect the state replacement funding to fully address the property tax reductions resulting from SF295 during the term the Bonds remain outstanding. While SF295 does not limit the legal obligation or the amount the District may be required to levy for payments of debt service on the Bonds there can be no assurances that SF295 will not have a material adverse impact with respect to the District’s financial position.

In Moody's Investors Service U.S. Public Finance Weekly Credit Outlook, dated May 30, 2013, Moody's projected that local governments in the State of Iowa are likely to experience sizeable reductions in tax revenues collected possibly starting in Fiscal Year 2017-18. According to Moody's, local governments that may experience disproportionately higher revenues losses include regions that have a substantial commercial base, a large share of multi-residential property (such as Issuer towns), or significant amount so f telecommunications property.

Notwithstanding any decrease in property tax revenues that may result from the Act, Iowa Code section 76.2 provides that when an Iowa political subdivision issues general obligation bonds, "the governing authority of these political subdivisions before issuing bonds shall, by resolution, provide for the assessment of an annual levy upon off the taxable property in the political subdivision sufficient to pay the interest and principal of the bonds within a period named not exceeding twenty years. A certified copy of this resolution shall be filed with the county auditor or the auditors of the counties in which the political subdivision is located; and the filing shall make it a duty of the auditors to enter annually this levy for collection from the taxable property within the boundaries of the political subdivision until funds are realized to pay the bonds in full."

From time to time, other legislative proposals may be considered by the Iowa General Assembly that would, if enacted, alter or amend one or more of the property tax matters described in this Official Statement. It cannot be predicted whether or in what forms any of such proposals may be enacted and there can be no assurance that such proposals will not apply to valuation, assessment, or levy procedures for the levy of taxes by the District.

Cybersecurity: The District relies on its information systems to provide security for processing, transmission and storage of confidential and other sensitive information. Security breaches, including electronic break-ins, computer viruses, attacks by hackers and similar breaches could create disruptions or shutdowns of the District and the services it provides, or the unauthorized access to or disclosure of personally identifiable information and other confidential or sensitive information. Despite security measures, the District may remain vulnerable to attacks by outside or internal hackers, or breaches caused by employee error, negligence or malfeasance. Any failure to maintain proper functionality and security of the District's information systems could interrupt the District's operations, damage its reputation, subject it to significant costs, liability claims or regulatory penalties, and could have a material adverse effect on the operations and financial condition of the District.

Tax Levy Procedures: The Bonds are general obligations of the District, payable from and secured by a continuing ad valorem tax levied against all of the property valuation within the District. As part of the budgetary process each fiscal year, the District will have an obligation to request a debt service levy to be applied against all of the taxable property within the District. A failure on the part of the District to make a timely levy request or a levy request by the District that is inaccurate or is insufficient to make full payments of the debt service of the Bonds for a particular fiscal year may cause bondholders to experience a delay in the receipt of distributions of principal of and/or interest on the Bonds. In the event of a default in the payment of principal of or interest on the Bonds, there is no provision for acceleration of maturity of the principal of the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the District and certain other public officials to perform the terms of the resolution for the Bonds) may have to be enforced from year to year.

Pending Federal Tax Legislation: From time to time, there are Presidential proposals, proposals of various federal committees, and legislation proposals pending in Congress that could, if enacted, alter or amend one or more of the federal (or state) tax matters described herein in certain respects or would adversely affect the market value of the Bonds or otherwise prevent holders of the Bonds from realizing the full benefit of the tax exemption of interest on the Bonds. Further, such proposals may impact the marketability or market value of the Bonds simply by being proposed. It cannot be predicted whether, or in what forms, any of proposals, either pending or that may be introduced, may be enacted and there can be no assurance that such proposals will not apply to the bonds. In addition, regulatory actions are from time to time announced or proposed and litigation threatened or commenced, which if implemented or concluded in a particular manner, could adversely affect the market value, marketability or tax status of the Bonds. It cannot be predicted whether any such regulatory action will be implemented, how any particular litigation or judicial action will be resolved, whether the Bonds would be impacted thereby.

Changes in Property Taxation: From time to time the Iowa General Assembly has altered the method of property taxation and could do so again. Such alterations could adversely affect the District's financial condition. Historically, changes to property tax calculations and impositions are imposed on a prospective basis. However, there is no assurance future changes to property taxation by the Iowa General Assembly will not be applied retroactively. It is impossible to predict the outcome of future property taxation changes by the Iowa General Assembly or resulting impacts on the District's financial condition. However, the Bonds are secured by an unlimited ad valorem property tax as described more fully in the "PAYMENT OF AND SECURITY FOR THE BONDS" herein.

DTC-Beneficial Owners: Beneficial Owners of the Bonds may experience some delay in the receipt of distributions of principal of and interest on the Bonds since such distributions will be forwarded by the Registrar to DTC and DTC will credit such distributions to the accounts of the Participants which will, thereafter, credit them to the accounts of the Beneficial Owner either directly or indirectly through Indirect Participants. Neither the District nor the Registrar will have any responsibility or obligation to assure any such notice or payment is forwarded by DTC to any Participants or by any Participant to any Beneficial Owner.

In addition, since transactions in the Bonds can be effected only through DTC Participants, Indirect Participants and certain banks, the ability of a Beneficial Owner to pledge the Bonds to persons or entities that do not participate in the DTC system, or otherwise to take actions in respect of such Bonds, may be limited due to lack of a physical certificate. Beneficial Owners will be permitted to exercise the rights of registered Owners only indirectly through DTC and the Participants. See "BOOK-ENTRY-ONLY ISSUANCE" herein.

Pensions: Pursuant to GASB 68, the District reported a liability of \$91,203,343 within its COMPREHENSIVE ANNUAL FINANCIAL REPORT ("CAFR") as of June 30, 2019 for its proportionate share of the net pension liability related to IPERS, as defined herein. The net pension liability is the amount by which the total actuarial liability exceeds the pension plan's net assets or fiduciary net position (essentially the market value) available for paying benefits. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2018, the District's collective proportion was 1.441664% which was an increase of 0.070482% from its proportion measured as of June 30, 2017. See "EMPLOYEES AND PENSIONS" included in APPENDIX A to this Official Statement for more summary information related to the District's contributions, and the District's June 30, 2019 CAFR, included in APPENDIX C to this Official Statement, for additional information related to the District's deferred outflows and inflows of resources related to pensions, actuarial assumptions, discount rate and discount rate sensitivity. Changes to the District's pension contributions, or available sources to fund said contributions, may adversely affect the District's financial condition. However, the Bonds are secured by an unlimited ad valorem property tax as described more fully in the "PAYMENT OF AND SECURITY FOR THE BONDS" herein.

Continuing Disclosure: A failure by the District to comply with continuing disclosure obligations (see "CONTINUING DISCLOSURE" herein) will not constitute an event of default on the Bonds. Any such failure must be disclosed in accordance with Rule 15c2-12 adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended (the "Rule"), and may adversely affect the transferability and liquidity of the Bonds and their market price.

Bankruptcy: The rights and remedies available to holders of the Bonds may be limited by and are subject to the provisions of federal bankruptcy laws, to other laws or equitable principles that may affect the enforcement of creditor's rights, to the exercise of judicial discretion in appropriate cases and to limitations in legal remedies against exercise of judicial discretion in appropriate cases and to limitations on legal remedies against municipal corporations in the State of Iowa. The various opinions of counsel to be delivered with respect to the Bonds and the resolution for the Bonds, including the opinion of Bond Counsel, will be similarly qualified. If the District were to file a petition under Chapter 9 of the Bankruptcy Code, the owners of the Bonds could be prohibited from taking any steps to enforce their rights under the resolution for the Bonds. In the event the District fails to comply with its covenants under the resolution for the Bonds or fails to make payments on the Bonds, there can be no assurance of the availability of remedies adequate to protect the interests of the holders of the Bonds.

Suitability of Investment: The interest rate borne by the Bonds is intended to compensate the investor for assuming the risk of investing in the Bonds. Each prospective investor should carefully examine this Official Statement and its own financial condition to make a judgment as to its ability to bear the economic risk of such an investment, and whether or not the Bonds are an appropriate investment for such investor.

Tax Levy Procedures: The Bonds are general obligations of the District, payable from and secured by a continuing ad valorem tax levied against all of the property valuation within the District. As part of the budgetary process each fiscal year, the District will have an obligation to request a debt service levy to be applied against all of the taxable property within the District. A failure on the part of the District to make a timely levy request or a levy request by the District that is inaccurate or is insufficient to make full payments of the debt service of the Bonds for a particular fiscal year, may cause bondholders to experience a delay in the receipt of distributions of principal of and/or interest on the Bonds. In the event of a default in the payment of principal of or interest on the Bonds, there is no provision for acceleration of maturity of the principal of the Bonds. Consequently, the remedies of the owners of the Bonds (consisting primarily of an action in the nature of mandamus requiring the District and certain other public officials to perform the terms of the resolution for the Bonds) may have to be enforced from year to year.

Project Completion; Risks of Construction: A delay in completion of the project may arise from any number of other causes, including but not limited to, adverse weather conditions, unavailability of subcontractors, and negligence on the part of subcontractors, labor disputes, or unanticipated costs of construction, equipping or renovation. Any of these events or occurrences, separately or in combination, could have a material adverse effect on the District's ability to complete the project, or to complete it as planned and on schedule. The District believes the proceeds of the Bonds, plus the proceeds from the issuance of the Series 2019B Bonds and the Series 2017C Bonds, will be sufficient to complete the project; however, the cost of construction of the project may be affected by factors beyond the control of the District, including strikes, material shortages, adverse weather conditions, subcontractor defaults, delays, and unknown conditions.

Clean-Up Costs and Liens Under Environmental Statutes: The District is not aware of any enforcement actions currently in process with respect to any releases of pollutants or contaminants at the project sites. However, there can be no assurance that an enforcement action or actions will not be instituted under such statutes at future date. In the event such enforcement actions were initiated, the District could be liable for the costs of removing or otherwise treating pollutants or contaminants located at the project sites. In addition, under applicable environmental statutes, in the event an enforcement action is initiated, a lien superior to the Bondholders' lien, if any, could attach to the project, which may adversely affect the Bondholders' rights.

General Liability Claims: In recent years, the number of general liability suits and the dollar amounts of damage awards have increased nationwide, resulting in substantial increases in insurance premiums. Litigation may also arise against the District from its business activities, such as its status as an employer. While the District maintains general liability insurance coverage, the District is unable to predict the availability or cost of such insurance in the future. In addition, it is possible that certain types of liability awards may not be covered by insurance as in effect at relevant times. Any negative impact resulting from such awards may impact the District's ability to operate.

Risks as Employer: The District is a major employer, combining a complex mix of tenured and untenured full-time faculty, part-time faculty, technical and clerical support staff and other types of workers in a single operation. As with all large employers, the District bears a wide variety of risks in connection with its employees. These risks include discrimination claims, personal tort actions, work-related injuries, exposure to hazardous materials, interpersonal torts (such as between employees or between employees and students) and other risks that may flow from the relationships between employer and employee or between students and employees. Certain of these risks are not covered by insurance, and certain of them cannot be anticipated or prevented in advance.

Summary: The foregoing is intended only as a summary of certain risk factors attendant to an investment in the Bonds. In order for potential investors to identify risk factors and make an informed investment decision, potential investors should become thoroughly familiar with this entire Official Statement and the Appendices hereto to make a judgment as to whether the Bonds are an appropriate investment.

RATING

The Bonds and the District's outstanding General Obligation debt is rated 'Aa1' by Moody's. In addition, the District's outstanding School Infrastructure Sales, Services and Use Tax Revenue debt is rated 'A+' by S&P Global Ratings. Such ratings reflect only the views of the rating agencies and any explanation of the significance of such ratings may only be obtained from the rating agencies. There is no assurance such ratings will continue for any period of time or that they will not be revised or withdrawn. Any revision or withdrawal of the ratings may have an effect on the market price of the Bonds.

MUNICIPAL ADVISOR

The District has retained PFM Financial Advisors LLC, Des Moines, Iowa as Municipal Advisor in connection with the preparation of the District's issuance of the Bonds. The Municipal Advisor is not obligated to undertake, and has not undertaken, an independent verification of the accuracy, completeness, or fairness of the information contained in the Official Statement. PFM Financial Advisors LLC is an independent advisory firm and is not engaged in the business of underwriting, trading or distributing municipal securities or other public securities.

CONTINUING DISCLOSURE

The District will enter into a Continuing Disclosure Certificate (the "Undertakings") for the benefit of the beneficial owners of the Bonds to send certain information annually and to provide notice of certain events to the Municipal Securities Rulemaking Board ("MSRB") pursuant to the requirements of the Rule. The information to be provided, the events which will be noticed on an occurrence basis and a summary of other terms of the Undertakings, including termination, amendment and remedies, are set forth in APPENDIX D – FORM OF CONTINUING DISCLOSURE CERTIFICATE, to this Official Statement.

A failure by the District to comply with the Undertakings will not constitute a default under the resolution for the Bonds and beneficial owners of the Bonds are limited to the remedies described in the Undertakings. Any holder or beneficial owner of the Bonds may take such actions as may be necessary and appropriate, including seeking mandamus or specific performance by court order, to cause the District to comply with its obligations under the Continuing Disclosure Certificate. Direct, indirect, consequential and punitive damages shall not be recoverable by any person for any default thereunder. If the District fails to comply with any provision of the Continuing Disclosure Certificate, the sole remedy available shall be an action to compel performance. A failure by the District to comply with the Undertakings must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

During the past five (5) years, to the best of its knowledge, the District believes it has complied in all material respects with its previous Undertakings entered into under the Rule.

Bond Counsel expresses no opinion as to whether the Undertakings complies with the requirements of Section (b)(5) of the Rule.

SALE AT COMPETITIVE BIDDING

After competitive bids were received on January 14, 2020, the Bonds were awarded to the syndicate of Morgan Stanley & Co. LLC, Raymond James & Assoc., Inc., FHN Financial Securities Group, UBS Financial Services, Keybank Capital Markets, Inc., Samuel A. Ramirez & Co., Inc., B.C. Ziegler & Co., R. Sealaus & Co., Inc. and American Veterans Group for an aggregate price of \$71,180,877.76.

Morgan Stanley & Co. LLC, an underwriter of the Bonds, has entered into a distribution agreement with its affiliate, Morgan Stanley Smith Barney LLC. As part of the distribution arrangement, Morgan Stanley & Co. LLC may distribute municipal securities to retail investors through the financial advisor network of Morgan Stanley Smith Barney LLC. As

part of this arrangement, Morgan Stanley & Co. LLC may compensate Morgan Stanley Smith Barney LLC for its selling efforts with respect to the Bonds.

CERTIFICATION

The District has authorized the distribution of this Official Statement for use in connection with the initial sale of the Bonds. I have reviewed the information contained within the Official Statement prepared on behalf of the Iowa City Community School District by PFM Financial Advisors LLC, Des Moines, Iowa, and to the best of our knowledge, information and belief said Official Statement does not contain any material misstatements of fact nor omission of any material fact which is necessary to make the statements and information herein, in light of the circumstances under which they are made, not misleading regarding the issuance of \$65,925,000 General Obligation School Bonds, Series 2020.

APPENDIX A

GENERAL INFORMATION ABOUT THE IOWA CITY COMMUNITY SCHOOL DISTRICT, JOHNSON COUNTY, IOWA

This section is included for informational purposes only. THE \$65,925,000 General Obligation School Bonds, Series 2020 are general obligations of the Iowa City Community School District, Johnson County, Iowa (the “District”) and will be paid from annual taxes levied against all taxable property within the District pursuant to Chapter 296 of the Code of Iowa and a resolution adopted by the District’s School Board.

PROPERTY VALUES

IOWA PROPERTY VALUATIONS

In compliance with Section 441.21 of the Code of Iowa, the State Director of Revenue annually directs the county auditors to apply prescribed statutory percentages to the assessments of certain categories of real property. The 2018 final Actual Values were adjusted by the Johnson County auditor. The reduced values, determined after the application of rollback percentages, are the Taxable Values subject to tax levy. For assessment year 2018, the taxable value rollback rate was 56.9180% of actual value for residential property; 56.1324% of actual value for agricultural property; 75.0000% of the actual value for multiresidential property; and 90.0000% of actual value for commercial, industrial and railroad property. No adjustment was ordered for utility property because its assessed value did not increase enough to qualify for reduction. Utility property is limited to an 8% annual growth.

The Legislature's intent has been to limit the growth of statewide taxable valuations for the specific classes of property to 3% annually. Political subdivisions whose taxable values are thus reduced or are unusually low in growth are allowed to appeal the valuations to the State Appeal Board, in order to continue to fund present services.

The 100% Actual Valuations, before rollback, and after reduction of military exemption, include Ag. Land, Ag. Buildings, TIF Increment and all Utilities. The Taxable Valuations, with the rollback and after reduction of military exemption, include Ag. Land, Ag. Buildings and all Utilities, but exclude the Taxable TIF Increment. Iowa school districts certify operating levies against Taxable Valuation excluding Taxable TIF Increment. Debt Service and PPEL levies are certified against Taxable Valuation including the Taxable TIF Increment.

LARGER TAXPAYERS

Set forth in the following table are the persons or entities which represent larger taxpayers within the boundaries of the District, as provided by the Johnson County auditor's office. No independent investigation has been made of and no representation is made herein as to the financial condition of any of the taxpayers listed below or that such taxpayers will continue to maintain their status as major taxpayers in the District. The District's mill levy is uniformly applicable to all of the properties included in the table, and thus taxes expected to be received by the District from such taxpayers will be in proportion to the assessed valuations of the properties. The total tax bill for each of the properties is dependent upon the mill levies of the other taxing entities which overlap the properties.

<u>Taxpayer</u> ¹⁾	<u>Type of Property/Business</u>	<u>1/1/2018 Taxable Valuation</u> ²⁾	<u>% of District's Total Taxable Valuation</u> ³⁾

1) This list represents some of the larger taxpayers in the District, not necessarily the 10 largest taxpayers.

2) The January 1, 2018 Taxable valuations listed represents only those valuations associated with the title holder and may not necessarily represent the entire taxable valuation.

3) Calculated based on the District's total January 1, 2018 Taxable Valuation of \$6,833,478,180 which includes taxable TIF increment valuation.

PROPERTY TAX LEGISLATION

From time to time, legislative proposals are pending in Congress and the Iowa General Assembly that would, if enacted, alter or amend one or more of the property tax matters described herein. It cannot be predicted whether or in what forms any of such proposals, either pending or that may be introduced, may be enacted, and there can be no assurance that such proposals will not apply to valuation, assessment or levy procedures for taxes levied by the District or have an adverse impact on the future tax collections of the District. Purchasers of the Bonds should consult their tax advisors regarding any pending or proposed federal or state tax legislation. The opinions expressed by Bond Counsel are based upon existing legislation as of the date of issuance and delivery of the Bonds and Bond Counsel has expressed no opinion as of any date subsequent thereto or with respect to any pending federal or state tax legislation.

During the 2019 legislative session, the Iowa General Assembly enacted Senate File 634 (the “2019 Act”). The 2019 Act modifies the process for hearing and approval of the total maximum property tax dollars under certain levies in the District’s budget, including levies for the General Fund, the Emergency Fund, Trust and Agency Funds for pensions, insurance, transit, civic centers, certain bridges, sanitary disposal, and emergency management. The 2019 Act also includes a provision that will require the affirmative vote of 2/3 of the District’s School Board when the maximum property tax dollars under these levies exceed an amount determined under a prescribed formula.

The 2019 Act does not change the process for hearing and approval of the Debt Service Levy pledged for repayment of the Bonds. It is too early to evaluate the affect the 2019 Act will have on the overall financial position of the District or its ability to fund essential services.

During the 2013 legislative session, the Iowa General Assembly enacted Senate File 295 (the “2013 Act”). Among other things, the 2013 Act (i) reduced the maximum annual taxable value growth percent, due to revaluation of existing residential and agricultural property to 3%, (ii) assigned a “rollback” (the percentage of a property’s value that is subject to tax) to commercial, industrial and railroad property of 90%, (iii) created a new property tax classification for multi-residential properties (apartments, nursing homes, assisted living facilities and certain other rental property) and assigned a declining rollback percentage to such properties for each year until the residential rollback percentage is reached in the 2022 assessment year, after which the rollback percentage for such properties will be equal to the residential rollback percentage each assessment year, and (iv) exempted a specified portion of the assessed value of telecommunication properties.

The 2013 Act includes a standing appropriation to replace some of the tax revenues lost by local governments, including tax increment districts, resulting from the new rollback for commercial and industrial property. The appropriation does not replace losses to local governments resulting from the 2013 Act’s provisions that reduce the annual revaluation growth limit for residential and agricultural properties to 3%, the gradual transition for multi-residential properties from the residential rollback percentage (currently 53% of market value), or the reduction in the percentage of telecommunications property that is subject to taxation.

The District has not attempted to quantify the financial impact of the 2013 Act’s provisions on the District’s future operations.

Notwithstanding any decrease in property tax revenues that may result from the 2013 Act or the 2019 Act, Iowa Code section 76.2 provides that when an Iowa political subdivision issues bonds, “[t]he governing authority of these political subdivisions before issuing bonds shall, by resolution, provide for the assessment of an annual levy upon all the taxable property in the political subdivision sufficient to pay the interest and principal of the bonds within a period named not exceeding twenty years. A certified copy of this resolution shall be filed with the county auditor or the auditors of the counties in which the political subdivision is located; and the filing shall make it a duty of the auditors to enter annually this levy for collection from the taxable property within the boundaries of the political subdivision until funds are realized to pay the bonds in full.”

From time to time, other legislative proposals may be considered by the Iowa General Assembly that would, if enacted, alter or amend one or more of the property tax matters described in this final Official Statement. It cannot be predicted whether or in what forms any of such proposals may be enacted, and there can be no assurance that such proposals will not apply to valuation, assessment or levy procedures for the levy of taxes by the District.

DISTRICT INDEBTEDNESS

DEBT LIMIT

Article XI, Section 3 of the State of Iowa Constitution limits the amount of debt outstanding at any time of any county, municipality or other political subdivision to no more than 5% of the actual value of all taxable property within the corporate limits, as taken from the last state and county tax list. The debt limit for the District, based on its 2018 actual valuation currently applicable to the Fiscal Year 2019-20, is as follows:

Net 2018 Actual Valuation for Debt Limit Purposes	\$10,773,522,141
Legal Debt Limit of 5%	<u>0.05</u>
Legal Debt Limit	\$538,676,107
Less: General Obligation Debt Subject to Limit	<u>(186,375,000) ¹⁾</u>
Net Debt Limit	\$352,301,107

1) It has not been determined whether Sales Tax Revenue Bonds count against the District's constitutional debt limit. If Sales Tax Revenue Bonds were to count against the District's constitutional debt limit, the aggregate outstanding debt would increase by \$90,270,000 and the Net Debt Limit would be \$262,031,107.

Taxes in Iowa are delinquent each October 1 and April 1 and a late payment penalty of 1% per month of delinquency is enforced as of those dates. If delinquent taxes are not paid, the property may be offered at the regular tax sale on the third Monday of June following the delinquency date. Purchasers at the tax sale must pay an amount equal to the taxes, special assessments, interest and penalties due on the property and funds so received are applied to taxes. A property owner may redeem from the regular tax sale but, failing redemption within three years, the tax sale purchaser is entitled to a deed which in general conveys the title free and clear of all liens except future tax installments.

THE DISTRICT

SCHOOL DISTRICT

The Iowa City Community School District (the “District”) is headquartered in Iowa City and is located in Johnson County. The District is located in southeastern Iowa and is approximately 115 miles east of Des Moines, 20 miles south of Cedar Rapids and 55 miles west of Davenport. The district covers 133 square miles and serves the communities of Iowa City, Coralville, Hills, North Liberty, University Heights, and the surrounding rural areas. Iowa City is the county seat of Johnson County, and is the home of the State University of Iowa, which is the oldest educational institution in Iowa.

The District provides educational services for 12,678 students enrolled in kindergarten through 12th grade general education programs, and 1,607 students in special schools and programs, for a total student population served in Fiscal Year 2018-19 of 14,285. The District has several pre-school sites, 21 elementary schools, 3 junior high schools, 3 senior high schools and 1 alternative school for 9th through 12th graders. The District maintains an average regular education class sizes of 24-32 students, depending on grade level and school configuration. The District employs nearly 2,150 people and operates on an annual budget of approximately \$170,000,000. It is the 5th largest school district in the State of Iowa and the 4th largest employer in the Iowa City metropolitan area.

ORGANIZATION AND ADMINISTRATION

The District’s School Board (the “Board”) consists of seven community members who are elected at-large to four-year terms. They volunteer their time to attend bi-monthly meetings and serve on sub-committees of the Board.

The Board is a policy-making, planning and appraisal body and as such, delegates the day-to-day operation of the District to the superintendent and other staff members. The Board elects its own president and vice president, appoints its secretary and treasurer and hires the district superintendent.

Open Enrollment

Students in Iowa are allowed to choose to enroll into and out of the District. The District has participated in an open enrollment plan supported by the State Department of Children, Families and Learning since its inception. The additional students are measured in terms of Weighted Average Daily Membership (WADM). According to the open enrollment program, the District’s revenues per pupil are adjusted for any net gains and/or losses in enrollment. Listed below are the recent open enrollment numbers.

<u>Count Date</u>	<u>Fiscal Year</u>	<u>Enrolled In</u>	<u>Enrolled Out</u>	<u>Net</u>

DISTRICT TAX RATES

The District levies property taxes to support different funds. The General Fund accounts for all sources used to finance District operations and maintenance, except for those required to be accounted for in another fund. The Management Fund is authorized by Iowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty. The Physical Plant and Equipment Levy (the "PPEL") Fund is authorized by Iowa Code Section 298.2 and accounts for transactions related to the improvement of facilities and grounds, construction of schoolhouses, certain equipment expenditures and other expenditures authorized in Iowa Code Section 298.3. There are both non-voted ("Regular") and voted ("Voted") levies available for PPEL. The Public Education and Recreation Levy (the "PERL") Fund is authorized by Iowa Code Section 300.2 and accounts for transactions related to schoolhouse playgrounds and recreational activities within the District. This fund also accounts for community education activity. The District has not utilized the PERL levy in the past five years. The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. Below is a table of the District's current and historic property tax rates.

DISTRICT REVENUE MIX

The school foundation formula in Iowa has two primary sources of revenue: State of Iowa general fund appropriations or state aid, and locally raised property and income surtax taxes. The District has a mix of property tax revenue, income surtax revenues and state foundation aid revenues and other state aid revenues in the General Fund as follows:

<u>Fiscal Year</u>	<u>Property and Income Surtax Tax Revenues</u>	<u>All State Aid Revenues</u>
2015-16	\$63,426,883	\$76,749,193
2016-17	67,171,466	80,336,962
2017-18	69,764,737	81,903,894

SUPPLEMENTAL STATE AID

Supplemental State Aid (formally known as “Allowable Growth”) is the rate by which State cost per pupil and District cost per pupil will increase from one budget year to the next. The growth rate is required by statute to be set two budget years in advance and is subject to reduction resulting from statewide budget cuts. However, the legislature has not complied with the statute in recent years.

<u>Fiscal Year</u>	<u>Supplemental State Aid Rate</u>
2015-16	1.25%
2016-17	2.25%
2017-18	1.11%
2018-19	1.00%

EMPLOYEES AND PENSIONS

Iowa Public Employees Retirement System (“IPERS”): Employees of the District are provided with pensions through IPERS, which is a cost-sharing, multiple-employer, contributory defined benefit public employee retirement system administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS provides retirement, disability and death benefits. Employees are eligible for full retirement at age 65; at age 62 with at least 20 years of covered employment, or when the years of service plus the employee’s age equals or exceeds 88.

IPERS is authorized to adjust the total contribution rate up or down each year, by no more than 1 percentage point, based upon the actuarially required contribution rate. The District’s contributions to IPERS for the last three fiscal years as shown below equal the required contributions for each year.

	<u>FY 2016-17</u>	<u>FY 2017-18</u>	<u>FY 2018-19</u>
IPERS District Contribution	\$9,056,979	\$9,734,619	\$10,815,115

Pursuant to Governmental Accounting Standards Board (“GASB”) Statement No. 68, the District reported a liability of \$91,203,343 within its COMPREHENSIVE ANNUAL FINANCIAL REPORT (“CAFR”) as of June 30, 2019 for its proportionate share of the net pension liability. The net pension liability is the amount by which the total actuarial liability exceeds the pension plan’s net assets or fiduciary net position (essentially the market value) available for paying benefits. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2017, the District’s collective proportion was 1.441664% which was an increase of 0.070482% from its proportion measured as of June 30, 2017.

For further information about the District’s pension plan, refer to Note 9 – Pension Plan, beginning on page 50 of the District’s June 30, 2019 CAFR contained as APPENDIX C to this Official Statement.

The IPERS CAFR is available on the IPERS website, <https://www.ipers.org/about-us/plans-and-performance>, or by contacting IPERS at 7401 Register Drive P.O. Box 9117, Des Moines, IA 50321.

Bond Counsel, Disclosure Counsel, the District and the Municipal Advisor undertake no responsibility for and make no representations as to the accuracy or completeness of the information available from the IPERS discussed above or included on the IPERS website, including, but not limited to, updates of such information on the State Auditor’s website or links to other Internet sites accessed through the IPERS website.

OTHER POST-EMPLOYMENT BENEFITS (“OPEB”)

Plan Description: The District’s defined benefit OPEB plan, a single health care plan provides OPEB for all active and retired employees and their eligible dependents. The plan is administered by the District and the District has the authority to establish or amend the plan provisions or contribution requirements. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75. The plan does not issue a stand-alone financial report.

Benefits provided: The District provides postemployment health benefits. Health benefits include medical, prescription drug and dental. The benefits are provided until the participant is Medicare eligible, are self-insured by the District and administered through First Administrators, Inc.

Contributions: All participants of the postemployment medical, dental and prescription drug plan are required to contribute an amount equal to the premium equivalent. Since the premium equivalent is developed from the claims experience of active employee and retiree lives, an implicit subsidy is provided to retirees and their spouses. The implicit subsidy results from a lower premium equivalent to what a retiree would otherwise pay had the claims experience been based just on retiree health claims. The full active/retire premiums as of July 1, 2019 are as follows:

<u>Medical Benefit</u>		<u>Dental Benefit</u>	
<u>Rate Tier</u>	<u>Premium Equivalents</u>	<u>Rate Tier</u>	<u>Premium Equivalents</u>
Retiree only	\$675	Retiree only	\$33
Retiree + Family	1,400	Retiree + Family	99

As of June 30, 2019, the following employees were covered by the benefit term:

Inactive employees currently receiving benefits	131
Active employees currently receiving benefits	<u>1,700</u>
	1,831

APPENDIX B
FORM OF LEGAL OPINION

(This page has been left blank intentionally.)

February 11, 2020

We hereby certify that we have examined a certified transcript of the proceedings of the Board of Directors of the Iowa City Community School District in the County of Johnson, State of Iowa, and acts of administrative officers of the School District (the "Issuer"), relating to the issuance of General Obligation School Bonds, Series 2020, by said Issuer, dated February 11, 2020, in the denominations of \$5,000 or multiples thereof, in the aggregate amount of \$65,925,000 (the "Bonds").

We have examined the law and certified proceedings and other papers as we deem necessary to render this opinion as bond counsel.

As to questions of fact material to our opinion, we have relied upon representations of the Issuer contained in the Resolution authorizing issuance of the Bonds (the "Resolution") and in the certified proceedings and other certifications of public officials furnished to us, without undertaking to verify the same by independent investigation.

Based on our examination and in reliance upon the certified proceedings and other certifications described above, we are of the opinion, under existing law, as follows:

1. The Issuer is duly created and validly existing as a body corporate and politic and political subdivision of the State of Iowa with the corporate power to adopt and perform the Resolution and issue the Bonds.
2. The Bonds are valid and binding general obligations of the Issuer.
3. All taxable property in the territory of the Issuer is subject to ad valorem taxation without limitation as to rate or amount to pay the Bonds. Taxes have been levied by the Resolution for the payment of the Bonds and the Issuer is required by law to include in its annual tax levy the principal and interest coming due on the Bonds to the extent the necessary funds are not provided from other sources.
4. Interest on the Bonds is excludable from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax. The opinion set forth in the preceding sentence is subject to the condition that the Issuer comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied subsequent to the issuance of the Bonds in order that the interest thereon be, and continue to be, excludable from gross income for federal income tax purposes. The Issuer has covenanted to comply with all such requirements. Failure to comply with certain of such requirements may cause interest on the Bonds to be included in gross income for federal income tax purposes retroactively to the date of issuance of the Bonds.

We express no opinion regarding the accuracy, adequacy, or completeness of the Official Statement or other offering material relating to the Bonds. Further, we express no opinion regarding tax consequences arising with respect to the Bonds other than as expressly set forth herein.

The rights of the owners of the Bonds and the enforceability of the Bonds are limited by bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights generally, and by equitable principles, whether considered at law or in equity.

This opinion is given as of the date hereof, and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention, or any changes in law that may hereafter occur.

The Board of Education and Residents
Iowa City Community School District

I am pleased to submit the Comprehensive Annual Financial Report of the Iowa City Community School District (the District) for the fiscal year ended June 30, 2019. The report has been prepared to conform to guidelines recommended by the Association of School Business Officials International and the Government Finance Officers Association of the United States and Canada. The responsibility for the accuracy and completeness of the presentation, including all disclosures, rests with the officials of the District's Central Administration staff. We believe that the data is accurately presented, in all material respects; that the data is presented to fairly set forth the financial position and results of operations of the District as measured by the financial activity of the various funds; and that all necessary disclosures have been included in order to enable the reader to gain the maximum understanding of the District's financial affairs.

RSM US LLP, Certified Public Accountants, have issued an unmodified ("clean") opinion on the District's basic financial statements for the fiscal year ended June 30, 2019. The independent auditor's report is located at the front of the financial section of this report.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical and single audit compliance. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal District officials. The financial section includes the independent auditor's report, the Management's Discussion and Analysis, the basic financial statements, and the combining and individual fund financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The District was required to undergo a single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U. S. Office of Management and Budget Circular A-133, *Audits of States and Local Governments and Nonprofit Organizations*. Information related to this single audit, including a schedule of expenditures of federal awards, summary schedule of prior audit findings, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements applicable to each major program and internal control over compliance, a schedule of findings and questioned costs and corrective action plan are included in the single audit compliance section of this report.

This report includes all funds of the Iowa City Community School District. The District provides a full range of programs and services including instructional, administrative, transportation, food service, maintenance of sites and facilities, custodial, clerical, extra co-curricular and athletic activities, and community education.

Profile of the Government

In Iowa, school districts operate in accordance with Dillon's Rule with local control and have fiscal independence from other governmental entities. The District operates in compliance with the accounting principles generally accepted in the United States of America (GAAP) and currently prepares its financial statements per the Governmental Accounting Standards Board (GASB) Statement No. 34.

The Iowa City Community School District is a political subdivision of the state of Iowa and operates public schools for children in grades pre-school through twelve. The District is governed by a seven member Board of Education whose members serve four year terms and are elected on a nonpartisan basis. The Board of Directors is a policy-making and planning body whose decisions are carried out by school administrators.

The Iowa City Community School District serves nearly 115,000 people who live in Iowa City, Coralville, University Heights, Hills and North Liberty and the surrounding predominately agricultural territory in central Johnson County. Covering nearly 133 square miles, the District has developed around the City of Iowa City and The University of Iowa. The District has experienced consistent growth over the last 20 years, growing from 10,619 in 1999 to 14,573 in October 2019. The District is currently the fifth largest public school in the state of Iowa.

The District operates three comprehensive high schools, an alternative high school, three junior high schools, 21 elementary schools and center for offsite programs. The District also maintains a maintenance/warehouse facility, three athletic complexes and an administrative office/professional development center. The Iowa City Community School District provides a comprehensive educational program appropriate to students in early childhood and grades pre-school through twelve. These services include basic, regular and enriched academic education, special education, vocational education and numerous individualized programs such as instruction for students at-risk, gifted and talented or limited English proficiency (LEP).

Relevant financial policies

The Iowa City Community School District operates under the laws as defined in the Code of Iowa and policies as determined by the local Board of Directors. A comprehensive accounting system is promulgated by the Iowa Department of Education including account numbers for revenues and expenditures by function and object. The District additionally tracks revenues by source of funds and expenditures by location, curricular program and funding source. Annual budgets are provided to the Department of Management and annual financial reports are provided to the Iowa Department of Education in their prescribed formats. Periodic financial reports are submitted to the Iowa Department of Education or other granting agencies for many federal and state grants.

The Iowa City Community School District's Board of Education takes its fiduciary responsibility very seriously. It has adopted policies defining a budgeting process, quarterly financial reporting, purchasing, facilities planning, insurance and cash management. Idle cash is invested in Board approved allowable investments which include certificates of deposit, money markets and pooled investment trusts. A quarterly investment report is provided indicating performance of investments to a comparative benchmark.

Economic Condition and Outlook

The District is located in the eastern part of the state, within the larger Iowa City metropolitan area and ranks as one of the top growth areas of the state. The economic condition and outlook of the District has remained strong during the past ten years despite some economic downturns experienced in many areas, including several years of high economic growth and steady enrollment growth in the local area. This growth has had a positive effect on employment and the District's tax base. The District has experienced steady increases in its tax base over the past 25 years and continued with an increase during 2019 of more than three percent.

Major employers within the District include The University of Iowa and The University of Iowa Hospitals and Clinics, American College Testing and Pearson Educational Measurement as well as two other hospitals. These employers provide a strong employment base in the education and health care industries. The unemployment rate of the Iowa City area is consistently one of the lowest in the state of Iowa and well below national averages even during periods of recessionary trends. In addition, the Iowa City area is served by two nearby regional airports and two major interstate highways. The economic development organizations of Johnson County have teamed with similar organizations in Linn County to the north to develop a "technology corridor" which combines the strong health care and education industries of Johnson County with numerous manufacturing and financial service organizations in Linn County for a wide range of economic and employment opportunities. Iowa City is also consistently promoted in major business publications as one of the best places in the United States for business, schools and quality of life. These recognitions include a #3 ranking for best place to live in America by Outside Magazine in August 2016, #2 ranked "Least Stressed City in U.S." by Smartasset.com in June 2016, #1 for "Best College Town in America" by reviews.org in 2018, #5 "Healthiest City in America" by 24/7 Wall Street in 2016, #4 on the "Best Places to Live" by Liveability.com in 2018 and #1 state in the Country by USNews in 2018. The area has also been recognized for its quality as a best college town, city for college grads and workforce quality by various sources. Iowa City was also designated by UNESCO as the world's third City of Literature in 2008, the only designation in North or South America and is home to the International Writing Program. In April 2018, MSN Money named Iowa City Community School District the #1 school district in the state using an index that measures child poverty, per-pupil expenditure, graduation rate, teachers per student, percentage of adults with a bachelor's degree, preschool enrollment and advanced placement enrollment.

The tax base for the area is estimated to continue to grow in the three percent range. The District has experienced an enrollment growth of over 1,800 students over the last seven years. Future projections indicate a continued trend for enrollment increases, however, a slower annual rate is expected over the next five years. The District has experienced an increase in its October 2019 official enrollment of approximately 280 students.

Retail sales, building permits and population increases in the area continue to exceed that of most other areas in the state of Iowa during the past several years. Future increases are projected to continue, however economic conditions on the national and state levels in the area will impact local growth levels. A large percentage of the past area increases have occurred within the School District boundaries.

The District's budget is largely dependent on the Iowa school funding formula and various economic factors. For the years 2001-2011, the state of Iowa experienced economic conditions that hampered its ability to fund schools at annual levels of approximately four percent as in prior years. This period included an across the board reduction of \$5,600,000 from the Governor's executive order which the District used its General Fund balance to absorb the reduction. The District also implemented a cash reserve levy for fiscal year 2011 to partially replenish the fund balance and the District maintained significantly all of its programs and services during these conditions. During the last seven years, the state legislature has provided annual growth from zero to four percent. The impact on future periods is unknown as funding is determined on an annual basis by the Iowa Legislature.

The District serves the nearly 14,300 students in buildings built from 1917 to 2019. The District has maintained a building envelope and roof maintenance program for many years to monitor the physical considerations of its facilities. District officials developed a 10 year facility master plan in 2013 for planning the maintenance and capital project needs of the district, including life cycle programs for major maintenance and equipment needs, remodeling and renovation of existing facilities and the construction of new facilities throughout the District. This facility plan has been followed and current projects indicate the plan will be completed in 2021.

The District has completed numerous construction projects during the last ten years. A new gymnasium and classroom addition at South East Junior High was completed and placed in service in October 2008. The District opened Buford Garner Elementary for classes in August 2010. The District completed a major addition on Horn Elementary that was opened in August 2011 and Norman Borlaug Elementary School was opened for classes in August 2012. The District has also completed construction of a fine arts addition at City High School that opened in August 2013. The District opened Alexander Elementary School in August 2015 and completed major additions on three elementary schools and an eight classroom addition at City High School during 2015-2016. Liberty High School, a third comprehensive high school in North Liberty, Iowa was opened for in August 2017 with a total cost of nearly \$57 million. Athletic complexes and additional classroom space will be constructed in future years to accommodate student growth and will be funded from general obligation bonds as approved by district voters in September 2017. The District also completed construction of a new elementary school in August 2017 that has been used for two years to serve students from three elementary schools during the historical renovations of those facilities. Construction of a new elementary school in North Liberty was completed in August 2019 and major additions and renovations have started on City High School and West High School.

During 2006, the U.S. Green Building Council awarded the District a silver certificate for Leadership in Energy and Environmental Design (LEED) in connection with the construction of James Van Allen Elementary School. In 2013, the district received an Excellence in Energy Efficient Design award for the efforts in reducing energy use for Norman Borlaug Elementary School. The District has also received energy efficiency awards for the recent renovations of Twain, Weber and Penn Elementary School and construction of Alexander Elementary School, Hoover (east) Elementary School and Liberty High School.

The District owns parcels of land of 18 and 42 acres in the northern portion of the District for the future construction of school facilities. During the year ending June 30, 2014, the District purchased land for Alexander Elementary School that opened in August 2015 and Hoover (east) Elementary School that opened in August 2017 and Liberty High School completed in August 2017. The District also purchased the land and building utilized by the District's transportation provider. In July 2016, the District purchased a parcel of land containing approximately 18 acres near North Liberty for the construction of Grant Elementary School that opened in August 2019. The District has also purchased two units previously leased for one its special education programs. In August 2019, the District purchased a warehouse building adjacent to the transportation facility which will replace a leased warehouse facility.

In February 2007, the residents of Johnson County approved a resolution and Revenue Purpose Statement for a 1 percent local option sales tax for a period of 10 years that began on July 1, 2007. The sales tax resulted in revenues of approximately \$13-14 million annually for the first five years, \$10 million annually for several years, but have returned to amounts exceeding \$13 million due to growth in the state's economy. In February 2013, district voters approved the extension of the sales tax Revenue Purpose Statement through June 30, 2029. The District is using these sales tax revenues to fund various projects in the facility master plan as allowed in the Code of Iowa and the approved Revenue Purpose Statement.

The high schools provide a full selection of opportunities in their music departments. Each year, the District has a high number of all-state musicians in addition to consistently earning Division I ratings at state contests. City High and West have both earned at least one Grammy Award for their music department in recent years.

The three comprehensive high schools offer athletic programs in 19 different sports. State championship honors have been earned in boys' soccer, tennis, swimming and basketball while state placing went to boys' and girls cross country, football, track, volleyball and girls' tennis and basketball during the last four years. The District's three junior high schools also offer athletic programs in 10 different sports.

The high schools also support strong programs in math, debate and journalism that regularly receive state, regional and national recognition.

Students of the District continue to achieve high rankings on college entrance exams and are recognized as National Merit Scholars. The composite averages on these exams are consistently in the top 5 percent of the state and significantly exceed the national averages. These students achieved a graduation rate over 90 percent in 2018 with over 8 percent planning to continue their education at postsecondary schools or other training opportunities.

Other Financial Information

Management of the District is responsible for establishing and maintaining an internal control designed to ensure that its assets are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America. The internal control is designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal, state and county financial assistance, the District also is responsible for ensuring that an adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control is subject to periodic evaluation by management and external auditors.

As a part of the District's single audit, described earlier, tests are made to determine the adequacy of the internal control over financial reporting and its compliance with applicable laws and regulations, including those related to major federal awards programs. The results of the District's single audit for the fiscal year ended June 30, 2019 provided no violations of applicable laws and regulations.

Budgetary Controls. In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of the General Fund, special revenue funds, Debt Service Fund, enterprise funds and Capital Projects Fund are included in the annual appropriated budget by program. Project length financial plans are adopted for the capital projects funds and budgeted accordingly on an annual basis. The level of statutory budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the function level for all funds combined rather than at the individual fund level.

Basis of Presentation. The charts and accounts used by the District have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Governmental Units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records conform to the Uniform Accounting System for Iowa Schools, Chapter 11 of the Code of Iowa and Area Educational Agencies issued by the Department of Education, state of Iowa. The chart of accounts manual is updated annually and the District is in full compliance with these requirements.

Cash Management. Cash, while temporarily idle during the year, was invested in money market deposit accounts and other short term investments as allowed by law. Interest rates have started to rise over previous year rates and the district was able to increase its interest revenue compared to amounts received in previous years. This aspect of the District's finances has gained importance in recent years as the District has sought to maximize the yield on our investments in accordance with the Board approved investment policy without forfeiting the use of fund balances.

Risk Management. The District utilizes a single medical care facility and dedicated physician program for its workers compensation program to lower the claim expense and experience modification factor as it relates to workers' compensation. A safety committee has been operational for several years and meets periodically to review the District's facilities and programs. The District manages a self-funded health insurance plan for its employee medical and prescription program. The health plan is funded at the maximum expected claim levels and coverage for individual and aggregate stop loss coverage is purchased by the plan. The District is also managing the health plan in accordance with the provisions of the Patient Protection and Affordable Care Act.

Awards and Acknowledgments

Independent Audit. The accounting firm of RSM US LLP was selected to perform the annual audit in accordance with Chapter 11 of the Code of Iowa. In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditor's report on the basic financial statements, combining and individual fund statements and other schedules is included in the financial section of this report.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement in Financial Reporting and the Association of School Business Officials International, (ASBO) awards a Certificate of Excellence in Financial Reporting. The Iowa City Community School District received both of these Certificates for its comprehensive annual financial report for the fiscal year ended June 30, 2018. Each Certificate is a prestigious national award, recognizing conformance with the highest standards for preparation of government financial reports.

In order to be eligible to receive the Certificates, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report (CAFR) whose contents conform to program standards. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

These Certificates are valid for a period of one year only. The Iowa City Community School District has received these awards for the thirteen previous fiscal years Comprehensive Annual Financial Report. I believe that our current CAFR conforms to the requirements for both awards and, therefore, we are submitting to the GFOA and ASBO to determine its eligibility for each Certificate. The Iowa City Community School District had not applied for the Certificates in any years prior to 2006.

Acknowledgment: The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated efforts of the accounting staff and our auditors, RSM US LLP. I would like to express my appreciation to all staff members who assisted and contributed to this report as well as members of city and county governments. Also, appreciation is expressed for the interest and support of the Board of Education in conducting the financial operations of the District in a most responsible and progressive manner.

Respectfully submitted,

Independent Auditor's Report

To the Board of Education
Iowa City Community School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Iowa City Community School District (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the schedule of the District's proportionate share of the net pension liability and schedule of District contributions for the Iowa Public Employees' Retirement System, the schedule of changes in the District's total other postemployment benefit plan liability and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining nonmajor governmental fund financial statements and statement of changes in fiduciary assets and liabilities—agency funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the basic financial statements, and accordingly, we do not express an opinion on or provide any assurance on them.

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

Iowa City Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2019. We encourage readers to consider this information in conjunction with the District's financial statements.

Financial Highlights

Total net position increased \$9,954,747 from \$197,667,574 in 2018 to \$207,622,321 in 2019. Total revenues for the fiscal year 2019 increased \$15,390,080 from 2018. Total expenses increased from \$203,959,860 in 2018 to \$212,130,128 in 2019.

General Fund revenues increased from \$162,894,810 in fiscal year 2018 to \$166,434,612 in fiscal year 2019, while General Fund expenditures increased from \$165,761,057 in fiscal year 2018 to \$172,395,991 in fiscal year 2019. In addition, the District transferred \$250,000 to other funds during fiscal year 2019. This resulted in a decrease in the District's General Fund balance from \$21,111,423 in fiscal year 2018 to \$14,900,044 in fiscal year 2019.

The increase in General Fund revenues for fiscal year 2019 was attributable to an increase in property tax revenues and 1% supplemental state aid (formerly allowable growth) as provided in the state funding formula by the Iowa Legislature. The increased expenditures in the General Fund were due to increases to staffing for increased enrollment and providing a full curricular program for Liberty High School which opened in August 2017.

Overview of the Financial Statements

This report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.
 - ✓ The governmental fund statements explain how basic services, such as regular and special education, were financed in the short term as well as what remains for future spending.
 - ✓ The statements for proprietary funds offer short-term and long-term financial information about the activities the District operates like businesses, such as food services.
 - ✓ The statements for fiduciary funds provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, liabilities and deferred inflows/outflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources – are one way to measure the District's financial health or position. To assess the District's overall health, you need to consider additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

For the government-wide financial statements, the District's activities are divided into two categories:

- **Governmental activities:** Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- **Business-type activities:** The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included as a business-type activity.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

- **Governmental funds.** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information following the governmental fund statements explains the relationship or differences between the two statements.
 - ✓ The District's governmental funds include the General Fund, Physical Plant and Equipment Levy Fund, Management Fund, Student Activity Fund, Debt Service Fund and two Capital Projects Funds.
- **Proprietary funds.** Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements.
 - ✓ The District's enterprise fund, one type of proprietary fund, is encompassed in the District's business-type activities, but provide more detail and additional information, such as cash flows. The District currently has one enterprise fund, the School Nutrition Fund.

Iowa City Community School District

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

- ✓ Internal service funds, the other type of proprietary fund, are optional and available to report activities that provide supplies and services for other District programs and activities. The District currently uses an Internal Service Fund to account for its self-insured health insurance and dental insurance funds.
- Fiduciary funds. The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust and Agency funds.
 - ✓ Private-Purpose Trust Fund – The District accounts for assets for scholarships for individual students in this fund according to the terms of the donor's request.
 - ✓ Agency Fund – These are funds for which the District administers and accounts for certain assets in a fiduciary capacity as an agent on behalf of others.

The District is responsible for ensuring that the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The District's total assets increased by 13.4% during the year ended June 30, 2019. The increase occurred primarily as a result of the investment in capital assets as detailed in Note 5. During the year ended June 30, 2019, the District completed a historical renovation of an elementary school, construction on the athletic facilities at the new high school and completion of Phase I renovations at West High School as part of the ten year facility master plan. The District also expended approximately \$1,000,000 for furniture, fixtures and equipment for the new facilities. In addition, the District expended approximately \$55,000,000 for construction of a new elementary school, historical renovations of two elementary schools and remodeling at two junior high schools that will be completed in the next year.

Iowa City Community School District

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

Deferred outflows of resources increased by \$174,263, primarily from amounts recorded for the IPERS defined benefit pension program as detailed in Note 7.

Long-term obligations and other liabilities increased by \$59,773,928 and \$1,656,721 respectively, compared to the prior year. During the year ending June 30, 2019, the District issued over \$66,000,000 of bonds to fund its ten-year facility master plan as detailed in Note 6 to the financial statements. Long-term obligations also increased by approximately \$3,100,000 for amounts recorded for postemployment benefits in accordance with GASB 75 and changes in the net pension liabilities as detailed in Note 7.

The total net position of the District's business-type activities increased by \$300,073 over the prior year's balance. This increase is due primarily to increased revenues of the District's nutrition program and control of food and negotiated personnel costs.

Property and sales taxes and unrestricted state grants account for 82% and 81% of the total revenue for the years ended June 30, 2019 and 2018, respectively. The District's expenses primarily relate to instruction and support services which account for 94% and 95% of the total expenses for the years ended June 30, 2019 and 2018, respectively.

Iowa City Community School District

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

Governmental Activities

Revenues for governmental activities were \$215,209,361 and expenses were \$205,554,687. This difference of \$9,654,674 was used primarily for the repayment of the general obligations bonds and capital loan notes. Revenues in the governmental activities increased approximately \$15,100,000 or 7.5% over 2018. Most of this increase is from property taxes and state sources as provided through the school funding formula and supplemental state aid and property taxes levied for the repayment of general obligation bonds. In addition, investment earnings increased approximately \$1,400,000 compared to 2018 due to investment of idle funds, higher interest rates and bond funds received in the capital projects funds.

The increase in expenses in governmental activities of \$8,076,815 or 4.1% is related to expenses for increased instructional staff and operating costs of the new high school, increased salary and benefits from negotiated contract settlements and amounts recorded as pension expense. The District also recorded \$1,511,261 in the current year for other postemployment benefit liabilities which are attributable to the statutory requirement that the District allows retirees the ability to purchase District sponsored health insurance at the employee's own cost. The District does not offer any voluntary postretirement benefits.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services, noninstructional programs and other expenses.

Totals	\$ 205,554,687	\$ (175,633,385)	\$ 197,477,872	\$ (167,538,177)

- The cost financed by users of the District's programs was \$2,391,978 for 2019 and \$2,157,635 for 2018. This increase was primarily from an increase in tuition received from services provided to students from other school districts.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$27,529,324 for 2019 and \$27,782,060 for 2018. The District had an increase in grants and contributions was provided through the Aid & Levy calculations for the state funding formula, however, a reduction in energy rebates from completed renovation projects in prior years offset the increase in grants and contributions.
- The remaining net cost of governmental activities was financed with property tax, sales tax, state foundation aid and investment earnings.

Iowa City Community School District

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

Business-Type Activities

Revenues of the District's business-type activities were \$6,841,164, excluding \$34,350 of investment earnings, and expenses were \$6,575,441. The District's business-type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and interest income. Revenues increased by approximately 4.4% due to an increase in the number of meals served from the higher student participation levels and higher reimbursement rates from federal and state programs compared to prior years. Expenses increased by 1.4% due to additional food and supply costs to serve the increased participation and increased staff costs from negotiated settlements and addition of a new kitchen at Liberty High School.

Financial Analysis of the District's Funds

As previously noted, the Iowa City Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental fund highlights: The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported combined fund balances of \$83,909,880 which was a decrease of \$1,922,745 from last year's ending fund balances of \$85,832,625. The primary reason for the net decrease in combined fund balances in fiscal year 2019 is due sales tax revenue bonds and general obligation bonds sold in prior years utilized to fund projects in the facility master plan.

- The District's General Fund financial position is the product of many factors. The primary factor resulting in the General Funds decreased balance for the year ending June 30, 2019 was due to the District's staffing of new facilities and related operating costs and increased enrollment for fiscal year 2019.
- The GO Bond Fund balance was added in fiscal year 2018 to account for the general obligation bonds sold in December 2017 and the construction expenditures of the District's ten year facility master plan. Bond sale proceeds and related investment earnings provided approximately \$68 million with approximately \$63 million expended for projects in the facility plan.
- The Capital Projects Fund balance decreased from a balance of \$9,837,463 in fiscal year 2018 to \$4,104,780 in fiscal year 2019. This decrease is primarily due to the use of sales tax revenue bonds sold in prior years used to fund construction expenditures as part of the District's ten year facility master plan.

Proprietary fund highlights: The School Nutrition Fund's net position increased from \$1,041,333 as of June 30, 2018 to \$1,148,724 as of June 30, 2019, representing an increase of approximately 10.3% for 2019 compared to a decrease of 2.5% for 2018. The increase was primarily due to the increased student participation levels and higher reimbursement rates while controlling staffing and food costs.

The Internal Service Fund for the District's self-insured health insurance fund and dental insurance funds increased net position from \$16,110,838 in 2018 to \$18,518,717 in 2019. This increase was due to increased charges for services (premiums) from additional employees on the plans and the decrease to the liability for unpaid claims as of June 30, 2019.

Iowa City Community School District

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a certified budget following required public notice and hearing for all funds, except its internal service, private-purpose trust and agency funds. The legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's certified budget is prepared on the GAAP basis. Over the course of the year, the District amended its annual (operating) budget one time to reflect additional revenue and expenditures associated with programs and activities added or changed during the fiscal year. A schedule showing the original certified and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report.

Legal budgetary highlights: The District's total actual revenues were \$3,111,183 greater than the total budgeted revenues, a variance of 1.42% from the final budget.

Total expenditures were less than budgeted. It is the District's practice to budget expenditures at the maximum authorized spending authority as defined by the Code of Iowa. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed the actual expenditures during the year. In addition, the Board of Directors has utilized a resource allocation model to manage the expenditure levels with available resources and to address the educational needs of the district's student enrollment. The increased expenditures related to the budget were primarily in the other expenditure category due to construction expenditures as planned in the District's facility master plan and funded by sales tax revenue bonds in fiscal years 2015 to 2018 and general obligation bonds in 2017 to 2019.

Capital Asset and Debt Administration

Capital assets: As of June 30, 2019, the District had invested \$409 million, net of accumulated depreciation, in the broad range of capital assets, including land, buildings, athletic facilities, computers and equipment. (See Figure A-6) This amount represents a net increase of \$69 million from last year. More detailed information about capital assets is available in Note 5 to the financial statements. Depreciation expense for the year was \$10,415,909.

The original costs of the District's capital assets were approximately \$524.7 million. Governmental funds account for approximately \$522.9 million with the remainder of \$1.8 million in the Proprietary, School Nutrition Fund.

The largest change in capital asset activity during the year occurred in the building and construction in progress categories. The building category increased primarily from the completion of renovations and improvements at Longfellow Elementary School and West High School. The construction-in-progress category increased due to historical renovations for Mann and Lincoln Elementary Schools, remodeling of two junior high schools and construction of Christine Grant Elementary School with expected completion in the next fiscal period.

Long-Term Debt: As of June 30, 2019, the District had \$228.6 million in general obligation and other long-term debt outstanding. This represents an increase of approximately \$54.9 million from last year. The increase in the early retirement obligation is due to an increase in the number of employees accepting the District's early retirement incentive in 2018 than 2017 as part of management's plan to reduce and control General Fund expenditures. The increase in general obligation bonds was related to the District's issuance of \$66,645,000 of bonds in January 2019. Capital loan notes decreased by approximately \$835,000 from the previously stated maturities. (See Figure A-7) More detailed information about the District's long-term liabilities are available in Note 6 to the financial statements.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- The District received supplemental state aid (formerly allowable growth) of 2% and a one-time 2% supplemental state aid allocation for fiscal year 2014 and supplemental state aid at 4%, 1.25%, 2.25%, 1.11% and 1% for fiscal years 2015, 2016, 2017, 2018, and 2019 respectively. For the fiscal year 2020, the District received supplemental state aid of 2.06%. The Iowa Legislature will take up the issue to determine the level of the supplemental state aid for FY2021 and beyond starting in their January 2020 session. As the District's General Fund budget is comprised of approximately 85% salary and benefits, wage and salary adjustments realized through the negotiations process will have a significant impact on future budget spending decisions. In February 2017, significant legislative changes to Chapter 20 of the Code of Iowa as it relates to formal negotiations were enacted. The impact of these changes on wage and salary adjustments has not been significant to date, however, the District continues to review the flexibility for control of these expenditures.

Iowa City Community School District

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

- The Iowa school funding formula is highly dependent upon student enrollment. The District has experienced enrollment growth of 321, 386, 168, 343, 309, 213 and 86 students in the last seven years, respectively. The enrollment growth of approximately 280 students in fiscal year ending 2020 will assist the District's budget in fiscal year ending 2021. The enrollment increase of over 2,000 students in the last eight years have required additional staff and materials for educational programs and the demand for additional space to the existing facilities and construction of new facilities. New facilities as well as additions and renovations to existing facilities are included in the District's Facility Master Plan and will also increase expenditures related to utilities, custodial, maintenance and support staff. The District utilizes a demographer to assist with projecting future enrollment increases with updates provided to the District every two years. The next demographer report is anticipated to be completed in December 2019 and will be used to develop long range budgets and facility needs.
- The District has issued General Obligation Bonds of \$125,600,000 to fund identified construction and renovation projects of the Facility Master Plan. During fiscal year 2019, the District expended approximately \$63 million of these funds for projects at Lincoln Elementary School, Mann Elementary School, renovation at West High School, construction of Grant Elementary School and the construction of athletic facilities at Liberty High School, which were opened in August 2019. In addition, the District initiated design and construction work on the remaining projects of the Facility Master Plan with final construction expected to be completed by August 2021.
- The District sold Capital Loan Notes of \$9,435,000 in December 2014. The proceeds from the sale of these Notes funded various construction projects in the Facility Master Plan and will be repaid from the existing Physical Plant and Equipment Levy (PPEL) through 2025. In addition, the District sold School Infrastructure Sales, Services and Use Tax Revenue Bonds of approximately \$60 million in September 2015, \$10,000,000 in December 2016, \$11,185,000 in January 2017, \$21,200,000 in August 2017 and \$9,085,000 in June 2018. These revenue funds have been used for projects at Coralville Central Elementary, Lucas Elementary School, City High School, construction of Liberty High School and Hoover (East) Elementary School and major renovation projects at Lucas Elementary School and West High School. The Revenue Bonds will be repaid from sales tax revenues collected through 2029.
- Liberty High School, a new comprehensive high school, was opened in August 2017 with a cost of approximately \$57 million and an enrollment of 740 students. In addition to the building, the District completed the construction of the football and track stadium in August 2018 and construction of athletic venues for soccer, softball and baseball near the high school building will be used for the 2019-20 school year. The District anticipates student attendance at Liberty will approach 1,500 students by 2020 and had started construction of additional classroom space to accommodate this enrollment growth. The classroom space addition to accommodate the student growth was planned for completion in August 2023 in the original Facility Master Plan, however, student growth has accelerated this project for completion in August 2020. This will require increased expenditures for instructional staff, support and custodial expenditures in future fiscal years.
- The enrollment increases experienced in recent years has included significant additional student needs for students requiring English language learning programs. The District has hired additional staff with the appropriate certifications to serve these students. The District expended approximately \$1,900,000 more during the year ended June 30, 2019 than direct categorical program revenue. The District will continue to request additional modified supplemental spending authority for this Limited English Program deficit from the School Budget Review Committee to support these expenditures in future periods.

Iowa City Community School District

Management's Discussion and Analysis For Fiscal Year Ended June 30, 2019

- The District provides health insurance to its employees utilizing a self-funded insurance plan with specific and aggregate reinsurance coverage as required by the State of Iowa. The District's plan is subject to various insurance coverage and reporting provisions of the Patient Protection and Affordable Care Act (ACA) and the District believes its plan complies with all coverage and reporting requirements of the ACA. The transitional reinsurance fees included in the ACA rules are being paid from the current premium levels of the self-funded plan and the District anticipates the impact of the coverage and reporting rules to be minimal based upon existing insurance benefits offered to its staff. However, the health insurance industry continues to operate in an extremely uncertain and rising cost environment and the District will continue to monitor the potential impact of any changes on the plan and its employees.
- The ten year Facility Master Plan, originally approved in December 2013 and subsequently updated in April 2015, February 2017 and February 2019, includes nearly \$122 million of future construction and renovation projects. On September 12, 2017, taxpayers within the District approved a bond referendum authorizing \$191,925,000 of general obligation bonds to fund the projects in the Facility Master Plan. The District anticipates the sale of approximately \$66 million of general obligation bonds in January 2020 to fund the remaining renovation projects and additions of the Facility Master Plan at all three junior high buildings, City High School and several elementary buildings. This anticipated bond sale represents the third and final sale from the approved 2017 referendum.
- The district completed the construction of Christine Grant Elementary School in North Liberty in August 2019. This is the final new building included in the current Facility Master Plan. This new 600 student elementary building will decrease the overcrowded conditions currently at Penn, Garner, and Van Allen elementary schools. It will also provide for much needed growth capacity in the North Liberty area, one of the fastest growing communities in Iowa. Additional General Fund expenditures are estimated to be \$550,000 for staffing, maintenance and utilities will result from opening this building. The completion of this building and the Board of Directors completion of attendance areas during the year ending June 30, 2019 will provide more efficient staffing and transportation expenditures in future years.
- State legislators approved the extension of SAVE during the 2019 legislative session from 2029 to 2050. The extension is estimated to provide the District with additional borrowing capacity for as much as \$145 million for facility improvement projects with \$35 million being available as early as October 2022. The Board of Education has the option, and could choose to use the annual SAVE revenue stream to pay down general obligation bond debt rather than spending on additional facility related projects. The legislative action requires districts to submit a new revenue purpose statement (RPS) to its voters prior to expending funds received from the extension period or related to certain improvements to district athletic facilities. The District's current RPS is valid until 2029.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2019

Net change in fund balances, total governmental funds	\$	(1,922,745)
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as depreciation expense in the statement of activities. This is the amount by which capital outlay exceeds depreciation expense in the period:		
Capital outlay	\$ 79,812,987	
Depreciation expense	(10,329,593)	69,483,394
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, change in unavailable revenues.		(245,661)
Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and does not affect the statement of activities.		
Repayment of long-term debt	19,212,478	
Proceeds from general obligation bonds	(66,645,000)	
Proceeds from bond premium	(4,917,515)	(52,350,037)
Interest on long-term debt in the statement of activities differs from the amount reported in governmental funds because interest is recorded as an expenditure in the funds when due. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.		
		(365,251)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:		
Change in other postemployment benefits	(1,165,126)	
Pension expense	(3,405,373)	
Change in early retirement	(3,595,716)	
Change in compensated absences	130,724	(8,035,491)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in net position in the internal service fund is reported with governmental activities in the statement of activities.		
		2,407,879
Change in Internal Service Fund allocation to business-type activities.		(192,682)

Iowa City Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies

Nature of operations: The Iowa City Community School District (the District) is a political subdivision of the state of Iowa and operates public schools for children in grades pre-school through twelve. The geographic area served includes the cities of Iowa City, Coralville, University Heights, Hills and North Liberty and the surrounding predominately agricultural territory in central Johnson County. The District is governed by a Board of Education whose members are elected on a nonpartisan basis.

Reporting entity: For financial reporting purposes, the Iowa City Community School District has included all funds, organizations, agencies, boards, commissions and authorities for which the District is financially accountable. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on the organization, or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. In addition, the GASB issued Statement No. 39, which sets forth additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. These criteria include 1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units or its constituents, 2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the Organization and 3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. Based on these criteria, the District is considered a primary government and there are no other organizations or agencies whose financial statements should be combined and presented with these basic financial statements.

The District participates in several jointly governed organizations for which the District is not financially accountable or that the nature and significance of the relationships with the District are such that exclusion does not cause the District's financial statements to be misleading or incomplete. Among those organizations are the Johnson County Conference Board, Iowa City Conference Board, Johnson County Compensation Board and the Iowa City Assessors Examining Board.

Significant accounting policies:

Government-wide financial statements: The statement of net position and the statement of activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services.

The statement of net position presents the District's nonfiduciary assets, liabilities and deferred inflows/outflows of resources, with the difference reported as net position.

Iowa City Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not included among program revenues are reported instead as general revenues.

Fund financial statements: Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual funds are reported as separate columns in the fund financial statements. Nonmajor governmental funds and nonmajor enterprise funds are aggregated and presented in a single column.

Fund accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, deferred inflows/outflows of resources, fund balance/net position, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities and deferred inflows/outflows of resources is reported as fund balance. The following are the District's major governmental funds:

General Fund: is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. The general operating expenses of the District, including instructional, support and other costs, are paid from the fund.

Physical Plant and Equipment Levy Fund: a capital projects fund, accounts for the property taxes levied and collected by the District to be used for the purchase and improvement of grounds; purchase, construction and remodeling of buildings; and major equipment purchases.

Capital Projects Fund: a capital projects fund, is used to account for all resources restricted for the acquisition and construction of major capital facilities as authorized by the voters in the District. Revenues of the Fund primarily consist of state-wide sales taxes.

Debt Service Fund: accounts for property taxes levied and collected for the payment of general long-term debt principal, interest and related costs.

General Obligation Bonds Fund: a capital projects fund, used to account for all resources restricted for the acquisition and construction of major capital facilities as authorized by voters in the District. Revenue of the fund consists of sale of general obligation bonds.

Iowa City Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The other governmental funds of the District are considered nonmajor and are as follows:

Special Revenue Funds: Accounts for the revenue sources that are legally restricted to expenditures for specific purposes.

Management Fund: Accounts for property taxes levied and collected which are restricted for tort liability insurance premiums, unemployment compensation insurance claims and early retirement incentive payments.

Student Activity Fund: Accounts for money held by the District which is restricted on behalf of the students who have raised these funds and are responsible for their disposition for co-curricular or extracurricular activities of the District.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing operations and activities which are similar to those often found in the private sector. They are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred.

Enterprise Funds: Enterprise funds are used to account for those operations for which a fee is charged to external users for goods and/or services. The following enterprise fund of the District is considered nonmajor.

School Nutrition Fund: Accounts for the food service operations of the District.

Internal Service Fund: The Internal Service Fund is used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District's Internal Service Fund is used to account for the premium and claim payments for the self-insured health insurance and dental plan for District employees and retirees.

The District also reports the following fiduciary fund types:

Private Purpose Trust Fund: This fund is utilized to account for assets held by the District in a fiduciary capacity according to the terms of the donor's request of granting scholarships at City High School.

Agency Funds: These funds are utilized to account for assets held by the District in the fiduciary capacity as an agent on behalf of others. The Agency fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations. The Agency funds of the District include:

Flexible benefits account: for the District's flexible benefit plan activity.

School children's aid: for providing services to at risk students at any District building.

Opportunity funds: for providing services to at risk families in two District elementary buildings.

School based health clinics: partnerships with local medical community to provide health services to at risk children.

Iowa City Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The government-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the "economic resources measurement focus" and accrual basis of accounting. Agency funds follow the accrual basis of accounting but do not have a measurement focus as they report only assets and liabilities. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax and income surtax is recognized as revenue in the year for which it is levied and budgeted for. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after year-end.

Property tax when levied and budgeted for, other taxes and intergovernmental revenues when eligibility requirements have been met (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be measurable and are recognized as revenue, if available. All other revenue items are recognized only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, early retirement payments, other postemployment benefits, pension contributions and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital financing and capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general resources. When program expenses are incurred and there are both restricted and unrestricted net position available to finance the program it is the District's policy to first apply cost-reimbursement grant resources to such programs then the general revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's proprietary funds are charges for services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, depreciation on capital assets and claims. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Cash, cash equivalents and investments: The cash balances of most District funds are nonpooled and separately invested. Investments in the Iowa Schools Joint Investment Trust, nonnegotiable certificates of deposit and IPAS Education Money Market Fund are stated at amortized cost.

The IPAS Education Money Market Fund is a "money market fund" that seeks to maintain a stable net asset value of \$1.00 per share. The Fund qualifies as a legal investment for the District under Iowa law.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the date of purchase have a maturity date of no more than three months.

Iowa City Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Property tax and income surtax receivable: Property tax receivable is recognized on the levy or lien date, which is the date the tax asking is certified by the Board of Education.

Current year property tax receivable represents unpaid taxes related to April 2018 levy certification. Property taxes become due and collectible in September and March of the following fiscal year with a 1½% per month penalty for delinquent payments. This tax levy is based on January 1, 2017 assessed property valuations and is revenue for fiscal year ended June 30, 2019.

The succeeding year property tax receivable represents taxes certified by the Board of Education in April 2019. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. The tax asking represents a lien which is effective on the first day of that calendar year. Although the succeeding year property tax receivable has been recorded, the related revenue is a deferred inflow of resources in both the government-wide and fund financial statements and will not be recognized as revenue until the year ended June 30, 2020, the year for which it is levied and budgeted for.

The income surtax receivable represents the fiscal year 2019 levy which will be collected by the District in fiscal year 2020. Although the income surtax receivable has been recorded as of June 30, 2019, the related revenue is a deferred inflow of resources in both the government-wide and fund financial statements and will not be recognized as revenue until the year ended June 30, 2020, the year for which it is levied and budgeted for.

Due from other governments: Due from other governments represent amounts due from the state of Iowa, other school districts, and other various grants, reimbursements and shared revenues.

	General	Capital Projects	Nonmajor Enterprise
Due from other governments:			
Federal	\$ 1,749,345	\$ -	\$ -
State	241,577	-	21,163
Local option sales tax	-	1,155,570	-
Other	382,447	-	-
	<u>\$ 2,373,369</u>	<u>\$ 1,155,570</u>	<u>\$ 21,163</u>

Prepaid expenses: Prepaid expenses consist primarily of insurance costs paid for the succeeding year and are recorded as prepaid expenses in both government-wide and fund financial statements on the consumption method.

Inventories: Inventories of the enterprise fund consist of food. The inventories are valued on a first-in, first-out basis, with purchased inventory valued at the lower of cost or market and government-contributed commodities valued at the acquisition value as of the date received. Unused commodities at balance sheet date are reported as inventory.

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Capital assets: Capital assets, which include land, construction-in-progress, buildings, improvements, furniture, equipment and vehicles, are reported in the applicable governmental or business-type activities columns in the government-wide statement of net position and the proprietary fund statement of net position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of one year.

	<u>Threshold</u>
Description:	
Buildings and improvements other than buildings	\$ 2,500
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	2,500
Vehicles	2,500

Capital assets are depreciated using the straight-line method of depreciation over the following estimated useful lives:

	<u>Estimated Lives</u>
Description:	
Buildings	50 years
Improvements other than buildings	20 years
Furniture and equipment:	
School Nutrition Fund equipment	12 years
Other furniture and equipment	5 years
Vehicles:	
School Nutrition Fund vehicles	5 years
Other vehicles	7 years

The District's collection of library books and other similar assets are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Deferred outflows of resources: Deferred outflows of resources on the statement of net position represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense, pension contributions from the District after the measurement date but before the end of the District's reporting period.

Iowa City Community School District

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Salaries and benefits payable: Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities. Incurred but unpaid payroll expense for all employees as of June 30, 2019, has also been accrued as a liability as of June 30, 2019.

Unearned revenue: Unearned revenue consists of grant awards received but unearned by the fulfillment of an eligibility provision and cash received in the School Nutrition Fund for meals to be provided during fiscal year 2020.

Deferred inflows of resources: Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. The governmental funds report unavailable revenues from three sources: property taxes, income surtaxes and intergovernmental revenue. The amounts related to intergovernmental revenue are deferred and recognized as an inflow of resources in the period that the amounts become available. In both the District's government-wide and governmental fund financial statements, property tax revenue and income surtaxes for the succeeding year are reported as a deferred inflow of resources and will become an inflow in the year they are levied and budgeted for. The District's statement of net position also includes unrecognized pension and OPEB related amounts as a deferred inflow.

Compensated absences: District employees with a contract of 200 days or more accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only for employees that have resigned or retired which is considered due. The compensated absences liability has been computed based on rates of pay in effect as of June 30, 2019. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Self-insurance: The District is self-insured for health and dental benefits. The District's premiums and claims are accounted for in the Internal Service Fund. Premiums are charged by the Internal Service Fund to operating funds based upon number of employees and selected coverage in each fund.

Long-term liabilities: In the governmental fund financial statements, principal and interest on long-term debt, early retirement payments, other postemployment benefits and compensated absences are recognized as liabilities only when payment has matured, or becomes due. The face amount of debt issued is reported as other financing sources. Premiums/discounts received on debt issuances are reported as other financing sources/uses. Principal payments and bond issuance costs are reported as debt service expenditures. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the statement of net position. As of June 30, 2019, the District did not have any long-term obligations related to its business-type activities. Bond premiums and deferred amounts on refunding are amortized over the life of the debt using a method which approximates the effective interest method. Bond issuance costs are recognized as an expense in the period they are incurred.

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Pensions: The net pension liability, deferred inflows and outflows of resources related to pensions, pension expense, information about the fiduciary net position of the Iowa Public Employees Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Total OPEB liability: For purposes of measuring the total other postemployment benefit (OPEB) liability, deferred inflows of resources related to OPEB and OPEB expense, information has been based on an actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total of OPEB liability will be paid primarily by the General Fund.

Fund balance: In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable: Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the District's Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts through resolution.

Assigned: Amounts constrained by the District's intent to use them for a specific purpose. It is the District's policy that the authority to assign fund balance has been delegated by the District's Board of Education to the Chief Financial Officer through the budget process.

Unassigned: All amounts not included in other spendable classifications. The General Fund is the only fund that would report a positive amount in unassigned fund balance. Residual deficit amounts of other governmental funds would also be reported as unassigned.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is to pay the expenditure from restricted fund balance and then from less-restrictive classifications—committed, assigned and then unassigned fund balances.

Net position: Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets and also excludes unspent debt proceeds. Unspent debt proceeds for general obligation bonds are \$70,679,827 for governmental activities. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted through enabling legislation consists of \$505,775 for capital improvements and equipment.

Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Interfund activity: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as "due to/from other funds" in the fund financial statements. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgets and budgetary control: As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules—Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of functional areas as required by state statute for its legally adopted budget.

Note 2. Cash and Investments

Interest rate risk: As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy requires operating funds to be invested in investments that mature within 397 days or less. When investing other than operating funds, the investments must mature according to the needs of the funds. Operating funds of the District are funds which are reasonably expected to be used during a current budget year or within 15 months of receipt.

Credit risk: The Board authorizes the District to invest funds in excess of current needs in interest-bearing savings, money market and checking accounts at the District's authorized depositories; the Iowa Schools Joint Investment Trust Program; obligations of the United States governments, its agencies and instrumentalities; and certificates of deposit and other evidences of deposit at federally insured Iowa depository institutions. The Miles Capital Education Institutional Money Market Fund and the Iowa Schools Joint Investment Trust is rated AAAM with Standard & Poor's Global Ratings. The District's policy does not further limit the District's investments in relation to credit risk.

The Miles Capital Education Institutional Money Market Fund and Iowa Schools Joint Investment Trust are valued at an amortized cost based on the criteria set forth in GASB No. 79.

Iowa City Community School District

Notes to Basic Financial Statements

Note 2. Cash and Investments (Continued)

Concentration of credit risk: The District's general investment policy is to apply the prudent-person rule. In making investments, the District shall exercise the care, skill, prudence and diligence under the circumstances that a prudent person acting in a like capacity and familiar with such matters would use to meet the goals of the investment program.

The investments in Iowa Schools Joint Investment Trust and Miles Capital Education Institutional Money Market Fund are not subject to concentration of credit risk.

Custodial credit risk: For deposits, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

It is the District's policy to require that time deposits in excess of FDIC insurable limits be secured by collateral or private insurance to protect public deposits in a single financial institution if it were to default. Chapter 12c of the Code of Iowa requires all District funds be deposited into an approved depository and be either insured or collateralized.

As of June 30, 2019, none of the District's deposit bank balance or investments were exposed to custodial credit risk. The District's deposits with financial institutions were entirely covered by federal depository insurance or insured by the state through pooled collateral, state sinking funds and by the state's ability to assess for lost funds. In addition, the District's investments were not insured but were held by the District or its Agent in the District's name.

A reconciliation of cash and investments as shown on the financial statements of the District follows:

Early retirement: The District provided early retirement incentives for certain employees who met certain qualifications as established by the Board of Education. The cost of the incentives is borne by the District in whole. Eligible participants cannot, and do not, contribute to the incentive program.

Early retirement participation is based on the following criteria, but may be adjusted annually to assist management in budgetary restraints:

1. It is available to employees who are at least 55 years of age. The Board of Directors reserves the right to limit the number of early retirements.
2. The employee has completed at least ten (10) years of service to the District and has been actively employed during the school year that they request early retirement benefits.
3. The employee must be eligible for the receipt of IPERS retirement benefits or allowance pursuant to Chapter 97B of the Code of Iowa.
4. The employee submits a written notification of their intent to apply for early retirement benefits prior to March 1 in the year the early retirement is to begin.
5. The benefits offered to District employees shall be a District contribution to a Special Pay Deferral Plan (SPDP) of 50%–60% of current year's base salary depending on years of service and calculated on the average full time equivalence (FTE) during the years of service.

The District has pledged a portion of future sales tax revenues to repay \$60,030,000 in sales tax increment bonds issued in August 2015, \$10,000,000 in sales tax revenue bonds issued December 2016 and \$11,185,000 in sales tax revenue bonds issued January 2017, \$21,200,000 in sales tax revenue bonds issued August 2017 and \$9,085,000 in sales tax revenue bonds issued June 2018. The bonds are payable solely from the sales taxes received by the District. Total principal and interest remaining on the bonds is \$106,759,335, payable through 2029. For the current year, principal and interest paid and total incremental sales tax revenues were \$10,776,476 and \$14,546,702, respectively.

Capital lease: The District has entered into a lease agreement as lessee for financing the acquisition of computer equipment. This agreement qualifies as a capital lease for accounting purposes and therefore, has been recorded at the present value of the future minimum lease payments as of the inception date.

The assets under capital lease are as follows:

Computer equipment	\$ 1,508,519
Accumulated depreciation	<u>(791,972)</u>
Net book value	<u><u>\$ 716,547</u></u>

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2019, were as follows:

Years ending June 30:	
2020	\$ 390,913
2021	<u>390,913</u>
Total minimum lease payments	781,826
Less amount representing interest	<u>(28,912)</u>
Present value of minimum lease payments	<u><u>\$ 752,914</u></u>

As of June 30, 2019, the District did not exceed its legal debt margin computed as follows:

Total assessed valuation	<u><u>\$ 10,427,198,940</u></u>
Debt limit, 5% of total assessed valuation	\$ 521,359,947
Amount of debt applicable to debt limitation, general obligation bonds and capital loan notes	<u>120,450,000</u>

Note 7. Pension and Retirement Benefits

Plan description: IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by the Iowa Public Employees Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension benefits: A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is 65, any time after reaching age 62 with 20 or more years of covered employment or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service
- The member's highest five-year salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50% for each month the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payment.

Disability and death benefits: A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions: Contribution rates are established by IPERS following the annual actuarial valuation which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll based on the Actuarial Amortization Method adopted by the Investment Board.

Note 7. Pension and Retirement Benefits (Continued)

In fiscal year 2019, pursuant to the required rate, Regular members contributed 6.29% of covered payroll and the District contributed 9.44% of covered payroll, for a total rate of 15.73%.

The District's contributions to IPERS for the year ended June 30, 2019 totaled \$10,815,115.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions: At June 30, 2019, the District reported a liability of \$91,203,343 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2018, the District's proportion was 1.4412% an increase of 0.0823% from its proportion measured as of June 30, 2017. Net pension liability attributable to governmental activities are generally liquidated by the general fund and management fund.

For the year ended June 30, 2019, the District recognized pension expense of \$3,509,656. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 500,054	\$ (2,061,342)
Changes of assumptions	13,010,722	-
Net difference between projected and actual earnings on pension plan investments	-	(2,505,975)
Changes in proportion and differences between District contributions and proportionate share of contributions	4,983,008	(206,566)
Total deferred amounts to be recognized in pension expense in future periods	18,493,784	(4,773,883)
District contributions subsequent to measurement date	10,815,115	-
Total	\$ 29,308,899	\$ (4,773,883)

Iowa City Community School District

Notes to Basic Financial Statements

Note 7. Pension and Retirement Benefits (Continued)

Deferred pension outflows totaling \$10,815,115 resulting from the District contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. The deferred outflows and deferred inflows resulting from the difference between projected and actual earnings on pension plan investments will be recognized as a reduction of pension expense over five years. The deferred outflows resulting from differences between expected and actual experience, the deferred outflows resulting from changes of assumptions and the deferred outflows and deferred inflows resulting from changes in proportion and differences between District contributions and proportionate share of contributions will be recognized in pension expense using the average expected remaining service lives of all IPERS members. The average is determined by taking the calculated total future service years of the Plan divided by the number of the people in the Plan including retirees.

Deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Years ending June 30:

2020	\$ 7,618,047
2021	4,549,780
2022	532,917
2023	861,922
2024	157,235
	<u>\$ 13,719,901</u>

Actuarial assumptions: The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2017)	2.60% per annum
Rates of salary increases (effective June 30, 2017)	3.25% to 16.25%, average, including inflation. Rates vary by membership group.
Long-term effective investment rate of return (effective June 30, 2017)	7.00%, compounded annually, net of investment expense, including inflation.
Wage growth (effective June 30, 2017)	3.25%, per annum, based on 2.60% inflation and 0.65% real wage inflation.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an economic assumption study dated March 24, 2017 and a demographic assumption study dated June 28, 2018.

Mortality rates used in the 2018 valuation were based on the RP-2014 Employee and Healthy Annuitant Tables with MP-2017 generational adjustments.

Notes to Basic Financial Statements

Note 7. Pension and Retirement Benefits (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core-plus fixed income	27.0%	1.97%
Domestic equity	22.0	6.01
International equity	15.0	6.48
Global smart beta equity	3.0	6.23
Private equity	11.0	10.81
Private real assets	7.5	4.14
Public real assets	7.0	2.91
Public credit	3.5	3.93
Private credit	3.0	3.11
Cash	1.0	(0.25)
	<u>100.0%</u>	

Discount rate: The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$ 154,790,398	\$ 91,203,343	\$ 37,863,253

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report; which can be located at www.ipers.org.

Payables to the pension plan: At June 30, 2019, the District reported payables to the defined benefit pension plan of \$2,063,022 for legally required employer contributions and legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Note 8. Risk Management

The Iowa City Community School District is exposed to various risks of loss related to torts, theft, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters.

Workers' Compensation, Property, General Liability and Other Insurance: The District is a member of the Iowa Public School Insurance Program (IPSIP), a public entity risk pool formed in July of 2012 between certain Iowa school districts, created in accordance with Chapter 28E of the Code of Iowa. The purpose of IPSIP is to jointly provide or obtain casualty, property, employer liability, general liability, risk management, professional liability, group coverage and other protections so as to effectively manage and contain costs for insurance coverage and related administration. IPSIP has 24 members as of July 1, 2018. IPSIP is governed by an eleven-member board of directors elected by the members of IPSIP. The District has no direct control over budgeting, financing, the governing body or management selection.

IPSIP is not intended to function as an insurance company for the participants; rather, it is a means of combining the administration of claims and of obtaining lower insurance rates through the creation of a self-insurance pool and through the purchase of commercial insurance. The District's participation in IPSIP represents a risk-sharing pool as defined by GASB Statement No. 10 in which the District pools its risks and funds with other members and shares in the cost of losses. The District is required to make annual payments, which are determined by IPSIP, based upon its direct proportion to the pro rata share of insurance costs for coverage administered by IPSIP. IPSIP may require the participating Districts to make supplemental payments if the funds on hand are insufficient to pay expenses of the administration of IPSIP. The District was not required to make any supplemental payments to IPSIP in fiscal years 2019 or 2018. Payments to IPSIP by the District in order to maintain adequate insurance coverage in fiscal year 2019 was \$1,405,039.

Employee Health Insurance: During the year ended June 30, 2019, employees of the District were covered by the District's health and dental self-insurance plan. The contributions made by the District are part of the negotiated agreements with specific employee groups. Employees authorize payroll withholdings to pay contributions for dependents or increased coverage. Claims were paid by a third-party administrator acting on behalf of the District. The plans are authorized by Chapter 509A of the Code of Iowa.

The administrative contract between the District and the third-party administrator is renewable annually and administrative fees and stop loss premiums are included in the contractual provisions. In accordance with state statute, the District was protected against unanticipated catastrophic individual or aggregate loss by stop loss coverage from a private insurance company. Stop loss coverage was in effect for individual claims that exceeded \$250,000 and for an aggregate amount of 125% of expected claims.

Iowa City Community School District

Notes to Basic Financial Statements

Note 8. Risk Management (Continued)

All claim handling procedures are performed by an independent claims administrator. Liabilities are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Recognized liabilities include a provision for all estimated claims incurred but not reported. Changes in the medical claims liability amounts for the years ended June 30, 2019 and 2018 were as follows:

Self-Insurance Liability	Beginning	Claims and Changes in Estimates	Claims Payments	Ending
Health:				
2019	\$ 2,432,473	\$ 11,551,972	\$ 12,443,916	\$ 1,540,529
2018	2,206,033	13,830,976	13,604,536	2,432,473

Note 9. Area Education Agency

The District is required by the Code of Iowa to budget for its share of media, educational services and special education services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$6,338,197 for the year ended June 30, 2019. The District's actual constructive revenue and constructive expenses are included in the General Fund.

Note 10. Commitments

As of June 30, 2019, the District had outstanding construction commitments totaling approximately \$59,832,180, which will be paid with bond proceeds, property taxes and sales taxes.

Note 11. Nonvested Employee Benefits

District employees accumulate sick leave hours for subsequent use and can be carried over in limited amounts for use in future years. The contingent liability for this sick leave is approximately \$33,399,000 as of June 30, 2019. This liability does not vest and is not included as a liability in the statement of net position. This contingent liability has been computed based on rates of pay as of June 30, 2019.

Note 12. Contingencies

As of June 30, 2019, the District is involved in various claims and lawsuits against the District that arise in the normal course of operations, which are covered by insurance. The outcome and eventual liability of the District, if any, from these claims and any unasserted claims is not known at this time; however, management does not believe they will be material to the basic financial statements.

Note 13. Jointly Governed Organization

The District is a member of a cooperative agreement with the City of Coralville, Iowa organized under 28E of the Code of Iowa to provide for the operation of a joint swimming pool facility. The mayor of the City of Coralville, Iowa is designated as the administrator of the agreement. Under the agreement, the District is responsible for 30% of the City's costs and expenses in operating and maintaining the facility payable monthly throughout the year. For the fiscal year 2019, monthly payments were approximately \$8,297 per month, which were paid from the Physical Plant and Equipment Levy Fund.

Note 14. Other Postemployment Benefits (OPEB)

Plan description: The District's defined benefit OPEB plan, a single health care plan provides OPEB for all active and retired employees and their eligible dependents. The plan is administered by the District and the District has the authority to establish or amend the plan provisions or contribution requirements. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75. The plan does not issue a stand-alone financial report.

Benefits provided: As required under Iowa Code Chapter 509A-3, the District provides postemployment health benefits. Health benefits include medical, prescription drug and dental. The benefits are provided until the participant is Medicare eligible, are self-insured by the District and administered through First Administrators, Inc.

Contributions: All participants of the postemployment medical, dental and prescription drug plan are required to contribute an amount equal to the premium equivalent. Since the premium equivalent is developed from the claims experience of active employee and retiree lives, an implicit subsidy is provided to retirees and their spouses. The implicit subsidy results from a lower premium equivalent to what a retiree would otherwise pay had the claims experience been based just on retiree health claims. The full active/retire premiums as of July 1, 2019 are as follows:

Rate Tier	Medical	Dental
Retiree only	\$ 675	\$ 33
Retiree and family	1,400	97

Employees covered by benefit terms: At June 30, 2019, the following employees were covered by the benefit terms:

Inactive employees currently receiving benefits	60
Active employees	2,003

Total OPEB Liability

The District's total OPEB liability of \$10,581,580 was measured as of June 30, 2019, and was determined by an actuarial valuation as of June 30, 2018. Total OPEB liability attributable to governmental activities are generally liquidated by the management fund.

Actuarial methods and assumptions:

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.0%
Salary increases	3.5%
Discount rate	3.5%
Health care cost trend rates	6.5% for 2019 decreasing by 0.50% per year to an ultimate rate of 4.5%
Mortality rates	RP-2014, back-projected to 2006, generational table using MP-17 and applied on a gender-specific basis

The discount rate was based on the June 30, 2019 Bond Buyer 20-Bond GO Index.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period using 24 months of historical claim experience through March 2018.

Note 16. Tax Abatements

GASB Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action, after the agreement that has been entered into, that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2019 under agreements entered into by the following entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Coralville	Urban renewal and economic development	\$ 527,161
City of North Liberty	Urban renewal and economic development	199,813
City of Iowa City	Urban renewal and economic development	93,782
City of University Heights	Urban renewal and economic development	186,404
		<u>\$ 1,007,160</u>

The state of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2019, this reimbursement amounted to \$391,065.

Note 17. Pending Governmental Accounting Standards Board (GASB) Statements

As of June 30, 2019, the GASB had issued several Statements not yet implemented by the District. The Statements which may impact the District are as follows:

- GASB Statement No. 84, *Fiduciary Activities*, issued February 2017, will be effective for the District beginning with its fiscal year ending June 30, 2020. The objective of Statement No. 84 is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. An exception to that requirement is provided for a business-type activity that normally expects to hold custodial assets for three months or less. This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

A fiduciary component unit, when reported in the fiduciary fund financial statements of a primary government, should combine its information with its component units that are fiduciary component units and aggregate that combined information with the primary government's fiduciary funds.

Iowa City Community School District

Notes to Basic Financial Statements

Note 17. Pending Governmental Accounting Standards Board (GASB) Statements (Continued)

This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. Events that compel a government to disburse fiduciary resources occur when a demand for the resources has been made or when no further action, approval or condition is required to be taken or met by the beneficiary to release the assets.

- GASB Statement No. 87, *Leases*, issued June 2017, will be effective for the District beginning with its fiscal year ending June 30, 2021, with earlier adoption encouraged. Statement No. 87 establishes a single approach to accounting for and reporting leases by state and local governments. Under this statement, a government entity that is a lessee must recognize (1) a lease liability and (2) an intangible asset representing the lessee's right to use the leased asset. In addition, the District must report the (1) amortization expense for using the lease asset over the shorter of the term of the lease or the useful life of the underlying asset, (2) interest expense on the lease liability and (3) note disclosures about the lease. The Statement provides exceptions from the single-approach for short-term leases, financial purchases, leases of assets that are investments and certain regulated leases. This statement also addresses accounting for lease terminations and modifications, sale-leaseback transactions, non-lease components embedded in lease contracts (such as service agreements), and leases with related parties.

The District's management has not yet determined the effect these Statements will have on the District's financial statements. However, the District plans to implement the standards by the effective date.

Notes to Required Supplementary Information—Pension Liability Iowa Public Employee's Retirement System

Changes of benefit terms: Legislation enacted in 2010 modified benefit terms for Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3% per year measured from the member's first unreduced retirement age to a 6% reduction for each year of retirement before age 65.

Changes of assumptions: The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL (unfunded actuarial liability) beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

Note to Required Supplementary Information—Budgetary Reporting

The Board of Education annually adopts and certifies a budget by program which includes all funds except for internal service funds, agency funds and private-purpose trust funds on the GAAP basis following required public notice and hearing in accordance with the Code of Iowa. The budget may be amended during the year utilizing similar statutorily prescribed procedures. Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functional areas, not by fund. These four functional areas are instruction, support services, noninstructional programs and other expenditures. The legal level of control is at the aggregated functional level, not at the fund or fund type level. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula (spending authority).

During the year ended June 30, 2019, the District adopted one budget amendment which increased the budgeted expenditures by \$39,260,803.

(1) Unrestricted net position declined significantly in fiscal year 2015 for both governmental and business-type activities due to the impact of GASB 68 compliance and a resulting impact of a new net pension liability of \$53,825,764 shared between governmental and business-type activities at \$52,732,793 and business-type activities at \$1,092,971.

(2) Unrestricted net position in fiscal year 2018 declined significantly for governmental activities due to the impact of GASB 75 compliance and a resulting impact of a new other postemployment benefit liability of \$9,070,319. Unrestricted net position also declined due to purchases of capital assets and issuance of debt in accordance with the District's master Plan.

APPENDIX D

FORM OF CONTINUING DISCLOSURE CERTIFICATE

(This page has been left blank intentionally.)

CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (the "Disclosure Certificate") is executed and delivered by the Iowa City Community School District, State of Iowa (the "Issuer"), in connection with the issuance of \$65,925,000 General Obligation School Bonds, Series 2020 (the "Bonds") dated February 11, 2020. The Bonds are being issued pursuant to a Resolution of the Issuer approved on January 28, 2020 (the "Resolution"). The Issuer covenants and agrees as follows:

Section 1. Purpose of the Disclosure Certificate; Interpretation. This Disclosure Certificate is being executed and delivered by the Issuer for the benefit of the Holders and Beneficial Owners of the Bonds and in order to assist the Participating Underwriters in complying with S.E.C. Rule 15c2-12(b)(5). This Disclosure Certificate shall be governed by, construed and interpreted in accordance with the Rule, and, to the extent not in conflict with the Rule, the laws of the State. Nothing herein shall be interpreted to require more than required by the Rule.

Section 2. Definitions. In addition to the definitions set forth in the Resolution, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

"Annual Financial Information" shall mean financial information or operating data of the type included in the final Official Statement, provided at least annually by the Issuer pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

"Beneficial Owner" shall mean any person which (a) has the power, directly or indirectly, to vote or consent with respect to, or to dispose of ownership of, any Bonds (including persons holding Bonds through nominees, depositories or other intermediaries), or (b) is treated as the owner of any Bonds for federal income tax purposes.

"Business Day" shall mean a day other than a Saturday or a Sunday or a day on which banks in Iowa are authorized or required by law to close.

"Dissemination Agent" shall mean the Issuer or any Dissemination Agent designated in writing by the Issuer and which has filed with the Issuer a written acceptance of such designation.

"Financial Obligation" shall mean a (i) debt obligation; (ii) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (iii) guarantee of (i) or (ii). The term "Financial Obligation" does not include municipal securities as to which a final official statement has been provided to the MSRB consistent with S.E.C. Rule 15c2-12.

"Holders" shall mean the registered holders of the Bonds, as recorded in the registration books of the Registrar.

"Listed Events" shall mean any of the events listed in Section 5(a) of this Disclosure Certificate.

"Municipal Securities Rulemaking Board" or "MSRB" shall mean the Municipal Securities Rulemaking Board, 1300 I Street NW, Suite 1000, Washington, DC 20005.

"National Repository" shall mean the MSRB's Electronic Municipal Market Access website, a/k/a "EMMA" (emma.msrb.org).

"Official Statement" shall mean the Issuer's Official Statement for the Bonds, dated January 20, 2020.

"Participating Underwriter" shall mean any of the original underwriters of the Bonds required to comply with the Rule in connection with offering of the Bonds.

"Rule" shall mean Rule 15c2-12 adopted by the Securities and Exchange Commission (S.E.C.) under the Securities Exchange Act of 1934, and any guidance and procedures thereunder published by the S.E.C., as the same may be amended from time to time.

"State" shall mean the State of Iowa.

Section 3. Provision of Annual Financial Information.

a) The Issuer shall, or shall cause the Dissemination Agent to, not later than Two Hundred Ten (210) days after the end of the Issuer's fiscal year (presently June 30th), commencing with information for the 2019/2020 fiscal year, provide to the National Repository an Annual Financial Information filing consistent with the requirements of Section 4 of this Disclosure Certificate. The Annual Financial Information filing must be submitted in such format as is required by the MSRB (currently in "searchable PDF" format). The Annual Financial Information filing may be submitted as a single document or as separate documents comprising a package. The Annual Financial Information filing may cross-reference other information as provided in Section 4 of this Disclosure Certificate; provided that the audited financial statements of the Issuer may be submitted separately from the balance of the Annual Financial Information filing and later than the date required above for the filing of the Annual Financial Information if they are not available by that date. If the Issuer's fiscal year changes, it shall give notice of such change in the same manner as for a Listed Event under Section 5(c).

b) If the Issuer is unable to provide to the National Repository the Annual Financial Information by the date required in subsection (a), the Issuer shall send a notice to the Municipal Securities Rulemaking Board, if any, in substantially the form attached as Exhibit A.

c) The Dissemination Agent shall:

- i. each year file Annual Financial Information with the National Repository;
and
- ii. (if the Dissemination Agent is other than the Issuer), file a report with the Issuer certifying that the Annual Financial Information has been filed pursuant to this Disclosure Certificate, stating the date it was filed.

Section 4. Content of Annual Financial Information. The Issuer's Annual Financial Information filing shall contain or incorporate by reference the following:

a) The last available audited financial statements of the Issuer for the prior fiscal year, prepared in accordance with generally accepted accounting principles promulgated by the Financial Accounting Standards Board as modified in accordance with the governmental accounting standards promulgated by the Governmental Accounting Standards Board or as otherwise provided under State law, as in effect from time to time, or, if and to the extent such financial statements have not been prepared in accordance with generally accepted accounting principles, noting the discrepancies therefrom and the effect thereof. If the Issuer's audited financial statements for the preceding years are not available by the time Annual Financial Information is required to be filed pursuant to Section 3(a), the Annual Financial Information filing shall contain unaudited financial statements of the type included in the final Official Statement, and the audited financial statements shall be filed in the same manner as the Annual Financial Information when they become available.

b) A table, schedule or other information prepared as of the end of the preceding fiscal year, of the type contained in the final Official Statement under the captions "Property Valuations", "Larger Taxpayers", "Debt Limit", "Direct Debt", and "Tax Levies and Collections".

Any or all of the items listed above may be included by specific reference to other documents, including official statements of debt issues of the Issuer or related public entities, which have been filed with the National Repository. The Issuer shall clearly identify each such other document so included by reference.

Section 5. Reporting of Significant Events.

a) Pursuant to the provisions of this Section, the Issuer shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Bonds in a timely manner not later than 10 Business Days after the day of the occurrence of the event:

i. Principal and interest payment delinquencies;

ii. Non-payment related defaults, if material;

iii. Unscheduled draws on debt service reserves reflecting financial difficulties;

iv. Unscheduled draws on credit enhancements relating to the Bonds reflecting financial difficulties;

v. Substitution of credit or liquidity providers, or their failure to perform;

vi. Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax-exempt status of the Series Bonds, or material events affecting the tax-exempt status of the Bonds;

vii. Modifications to rights of Holders of the Bonds, if material;

viii. Bond calls (excluding sinking fund mandatory redemptions), if material, and tender offers;

ix. Defeasances of the Bonds;

x. Release, substitution, or sale of property securing repayment of the Bonds, if material;

xi. Rating changes on the Bonds;

xii. Bankruptcy, insolvency, receivership or similar event of the Issuer;

xiii. The consummation of a merger, consolidation, or acquisition involving the Issuer or the sale of all or substantially all of the assets of the Issuer, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;

xiv. Appointment of a successor or additional trustee or the change of name of a trustee, if material;

xv. Incurrence of a Financial Obligation of the Issuer, if material, or agreement to covenants, events of default, remedies, priority rights, or other terms of a Financial Obligation of the Issuer, any of which affect security holders, if material; and

xvi. Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a Financial Obligation of the Issuer, any of which reflect financial difficulties.

b) Whenever the Issuer obtains the knowledge of the occurrence of a Listed Event, the Issuer shall determine if the occurrence is subject to notice only if material, and if so shall as soon as possible determine if such event would be material under applicable federal securities laws.

c) If the Issuer determines that knowledge of the occurrence of a Listed Event is not subject to materiality, or determines such occurrence is subject to materiality and would be material under applicable federal securities laws, the Issuer shall promptly, but not later than 10 Business Days after the occurrence of the event, file a notice of such occurrence with the Municipal Securities Rulemaking Board through the filing with the National Repository.

Section 6. Termination of Reporting Obligation. The Issuer's obligations under this Disclosure Certificate with respect to each Series of Bonds shall terminate upon the legal defeasance, prior redemption or payment in full of all of the Bonds of that Series or upon the Issuer's receipt of an opinion of nationally recognized bond counsel to the effect that, because of legislative action or final judicial action or administrative actions or proceedings, the failure of the Issuer to comply with the terms hereof will not cause Participating Underwriters to be in violation of the Rule or other applicable requirements of the Securities Exchange Act of 1934, as amended.

Section 7. Dissemination Agent. The Issuer may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Certificate, and may discharge any such Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent shall not be responsible in any manner for the content of any notice or report prepared by the Issuer pursuant to this Disclosure Certificate. The initial Dissemination Agent shall be the Issuer.

Section 8. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the Issuer may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, provided that the following conditions are satisfied:

a) If the amendment or waiver relates to the provisions of Section 3(a), 4, or 5(a), it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature or status of an obligated person with respect to the Bonds, or the type of business conducted;

b) The undertaking, as amended or taking into account such waiver, would, in the opinion of nationally recognized bond counsel, have complied with the requirements of the Rule at the time of the original issuance of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

c) The amendment or waiver either (i) is approved by the Holders of the Bonds in the same manner as provided in the Resolution for amendments to the Resolution with the consent of Holders, or (ii) does not, in the opinion of nationally recognized bond counsel, materially impair the interests of the Holders or Beneficial Owners of the Bonds.

In the event of any amendment or waiver of a provision of this Disclosure Certificate, the Issuer shall describe such amendment in the next Annual Financial Information filing, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by the Issuer. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements, (i) notice of such change shall be given in the same manner as for a Listed Event under Section 5(c), and (ii) the Annual Financial Information filing for the year in which the change is made will present a comparison or other discussion in narrative form (and also, if feasible, in quantitative form) describing or illustrating the material differences between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

Section 9. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Issuer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Financial Information filing or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the Issuer chooses to include any information in any Annual Financial Information filing or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the Issuer shall have no obligation under this Certificate to update such information or include it in any future Annual Financial Information filing or notice of occurrence of a Listed Event.

Section 10. Default. In the event of a failure of the Issuer to comply with any provision of this Disclosure Certificate, any Holder or Beneficial Owner of the Bonds may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Issuer to comply with its obligations under this Disclosure Certificate. Direct, indirect, consequential and punitive damages shall not be recoverable by any person for any default hereunder and are hereby waived to the extent permitted by law. A default under this Disclosure Certificate shall not be deemed an event of default under the Resolution, and the sole remedy under this Disclosure Certificate in the event of any failure of the Issuer to comply with this Disclosure Certificate shall be an action to compel performance.

Section 11. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate, and the Issuer agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities which it may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorneys' fees) of defending against any claim of liability, but excluding liabilities due to the Dissemination Agent's negligence or willful misconduct. The obligations of the Issuer under this Section shall survive resignation or removal of the Dissemination Agent and payment of the Bonds.

Section 12. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the Issuer, the Dissemination Agent, the Participating Underwriters and Holders and Beneficial Owners from time to time of the Bonds, and shall create no rights in any other person or entity.

Section 13. Rescission Rights. The Issuer hereby reserves the right to rescind this Disclosure Certificate without the consent of the Holders in the event the Rule is repealed by the S.E.C. or is ruled invalid by a federal court and the time to appeal from such decision has expired. In the event of a partial repeal or invalidation of the Rule, the Issuer hereby reserves the right to rescind those provisions of this Disclosure Certificate that were required by those parts of the Rule that are so repealed or invalidated.
