The Board of Education and Residents
West Des Moines Community School District

Ladies and Gentlemen:

The following report is a comprehensive financial record of the District for the fiscal year ended June 30, 2019. The report is a reflection of the conditions which have enabled the West Des Moines Community School District to maintain a favorable financial position despite state and federal budget constraints and the related impact on local school districts across our state.

The shared vision of the District states, "The West Des Moines Community School District will be a caring community of learners that knows and lifts every child. We will inspire joy in learning. Our schools will excel at preparing each student for his or her life journey."

This shared vision provides the foundation of our District's financial planning. Meeting the educational needs of our students despite state and federal budget constraints is no simple task. The educational success of the West Des Moines Community School District is due to many factors including:

- An outstanding and effective Board of Education.
- A very supportive community with high expectations for outstanding schools.
- Supportive parents who have high expectations for their children.
- A team of outstanding and dedicated teachers, staff and administrators.
- Students who understand the importance of obtaining a quality education.

As you review the information included in this report, please be sure to contact us if you have any questions or suggestions. Our focus is upon the learning needs of all of our students. With your help and support, we will continue to be an excellent system of schools. We can all take pride in the outstanding success of our students as they graduate as learners prepared for life.

Sincerely,

Lisa Remy, Ed.D.
Superintendent

November 25, 2019

The Board of Education and Residents
West Des Moines Community School District

The Comprehensive Annual Financial Report of the West Des Moines Community School District (the District) for the fiscal year ended June 30, 2019 is submitted herewith. The District is an independent entity governed by a seven member board. Responsibility for the accuracy and completeness of the presentation, including all disclosures, rests with the officials of the District's Administrative Services Division. We believe that the data is accurately presented, in all material respects; that the data is presented to fairly set forth the financial position and results of operations of the District as measured by the financial activity of the various funds; and that all necessary disclosures have been included in order to enable the reader to gain the maximum understanding of the District's financial affairs.

The District was required to undergo a single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, Audits of States and Local Governments and Nonprofit Organizations. Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements that could have a direct and material effect on each major program and on internal control over compliance, and a schedule of findings are included in the single audit compliance section of this report.

This report includes all funds of the West Des Moines Community School District. The District provides a full range of programs and services including instructional; administrative; transportation; food service; maintenance of sites and facilities; custodial; clerical; extra, co-curricular and athletic activities; and community education.

Management is responsible for preparing a Management's discussion and Analysis. This discussion follows the independent auditor's report and provides an assessment of the District's finances for 2019.

Profile of the Government

In Iowa, school districts operate with local control and have fiscal independence from other government entities. The District operates in compliance with the accounting principles generally accepted in the United States of America (GAAP) and currently prepares its financial statements per the Governmental Accounting Standards Board (GASB) Statement No. 34.

The West Des Moines Community School District serves more than 58,000 people who live in the western portion of Polk County-West Des Moines, Clive, parts of Urbandale and Windsor Heights and nearby rural areas. Covering 36.6 square miles, the District has grown up around a former railroad center, Valley Junction, and the farmland north and south of the Raccoon River. The District experienced rapid growth up until the fall of 1975 when enrollment reached 6,726 students. Enrollment gradually declined to 5,825 students in the fall of 1982, but increased annually (except for September 1999) through September 2002, to 8,776 students. Enrollment declined more than 200 students during fiscal years 2004 and 2005. The District's enrollment projections estimate slightly declining enrollments averaging approximately 68 students for each of the next five years. In October 2019 and

2018, the District's Official Enrollment increase by 49 and 22 students, respectively. However, in October 2019, the number of students served within the District increased by 130 which is primarily due to fewer open enrolled out students and an increase in the number of students open enrolled into the District.

The District operates thirteen schools, a maintenance/transportation/warehouse facility, a stadium and the Learning Resource Center (administrative offices). Phenix Elementary School was closed starting in fiscal year 2014-15 as part of the District's budget reductions and subsequently sold during the year. During 2015-16, the District sold the Old Walnut Creek Campus at appraised value. All current real property is used for instructional or support services. The West Des Moines Community School District provides a comprehensive Pre K-12 educational program and an extensive Community Education program.

Economic Condition and Outlook

The District is located in the central part of the state, within the larger Des Moines metropolitan area and ranks as one of the top growth areas of the state. The economic condition and outlook of the District have remained strong during the past ten years, following several years of very high economic growth and steady enrollment growth. This growth has had a positive effect on employment and the District's tax base. The District's tax base increased at an average annual rate of approximately 4.12% over the past 15 years. In fiscal year 2019, the District experienced an increase in valuation of 2.52%.

The tax base is expected to grow more slowly in the next five years.

Retail sales, building permits and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the state of Iowa. Growth in the Des Moines area suburbs is expected to exceed the state average. A large percentage of these increases are occurring outside the District's boundaries.

In recent years, the state of Iowa faced an economic downturn that severely hampered its ability to fund schools at the same level as in prior years. After two consecutive years of 4.5% declines in the state's net receipts, in 2011, the state's net receipts increased by 5.8%. In light of these challenging economic times, the District has publicly discussed operating budget concerns looking ahead to the next five years. In May 2014, the Board approved a plan to reduce \$2.7 million in General Fund Budget in the 2014-15 fiscal year including the closing of Phenix Elementary School. The Board of Education continues to implement the District's long range facilities plan, which was approved in March 2010. In addition, the Board has directed the Administration to review this plan so that additional Revenue Bonds are not necessary to finance the plan and the Administration has since presented a plan to make \$12.3 million in scope reductions to this plan. This District is in the process of developing a Master Facilities Plan that will continue investment in the District's facilities upon the completion of the existing Facilities Plan which will be completed June 30, 2020.

The 2018-19 school year included many stories of success. The shared vision and five guiding principles continue to be the foundation for curriculum development, integration of technology, community involvement and the learning process.

The shared vision is carefully considered in all District efforts: "The West Des Moines Community School District will be a caring community of learners that knows and lifts every child. We will inspire joy in learning. Our schools will excel at preparing each student for his or her life journey."

The District has spent a significant amount of 2018-19 evaluating districtwide building structures for the purpose of creating effective learning spaces, also known as the Framework. Subsequent to June 30, 2019, the Board approved Framework Option D which architects estimate will cost approximately \$167,000,000. In short, the scope Option D is to remove 6th grade from the elementary school buildings and provide 6th -7th Jr. Highs and an 8th -9th grade building. The last two elementary schools will add PreSchool and remodeling will occur at each elementary building to accommodate students in small group settings. Learning environment improvements are planned at each of the Jr. Highs as well. In addition, the District is in the process of reviewing each school buildings envelope along with its mechanical, electrical and plumbing needs. These needs, when added together with Framework Option D, will comprise the District's Master Facility Plan which is planned to be approved in fiscal year 2019-20.

On November 5, 2019, with 86% approval, the community approved the District's Revenue Purpose Statement which will allow the District to use anticipated sales tax revenues to finance the Master Facility Plan.

The Stretching Minds program continued serving many elementary and junior high students during the summer. The program targets students most likely to benefit from additional opportunities in reading, mathematics and community learning.

Athletic Report for 2018-19 School Year

The Valley High School Tigers had another very great year in on the athletic fields of competition. The Tigers finished 2nd in the Des Moines Register All-Sports (Large School) Standings. Valley has finished in the top 2 most every year since point tracking has begun. Valley has won the All-Sports Award seven times. Twelve different teams finished in the top eight at their respective tournaments, with Boys Track winning their 3rd straight State Championship, and Girls Golf, Girls Basketball, and Softball also bringing home State Titles. A really phenomenal year by Girls Athletics securing 44 of Valleys 67 total team points. The CIML won 16 of the 21 State Championships in the 2018-19 school year with the Tigers winning four of them.

Over 900 students participated in athletics at Valley Southwoods and Valley High School during the 2018-19 school year and as a group, they continue to lead in the classroom, community, and playing fields.

West Des Moines Community Schools continues to be very well represented by students, coaches, teachers, and families dedicated to the pursuit of excellence both in competitions and in the academics. The following is a breakdown of all teams finish at the state level.

<u>SPORT</u>	<u>STATE PLACE</u>
Fall

Boys Soccer	Lost in Substate
Girls Golf	1 st Place State Champs
Girls Tennis	Did not place
Boys Tennis	Quarterfinalists

Summer

Softball	1 st Place State Champs
Baseball	Lost in Substate

Other Financial Information

Management of the District is responsible for establishing and maintaining internal controls designed to ensure that its assets are protected from loss, theft or misuse and to ensure that adequate data are compiled to allow for the preparation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). The internal controls are designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable recognizes that the cost of a control should not exceed the benefits likely to be derived. The valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal, state and county financial assistance, the District is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. The internal control procedures are subject to periodic evaluation by management and external auditors.

As a part of the District's audit, tests are made to determine the adequacy of the internal control over financial reporting and its compliance with applicable laws and regulations, including those related to major federal award programs. The results of the District's audit for the fiscal year ended June 30, 2018 noted no material weaknesses in the internal controls over financial reporting or for compliance issues.

Budgetary Controls. In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of the General Fund, special revenue funds, Debt Service Fund, and enterprise funds are included in the annual appropriated budget by program. Project length financial plans are adopted for the capital projects funds and budgeted accordingly on an annual basis. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by the functional level for all funds combined rather than at the individual fund level. The District also maintains an encumbrance

accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at the fiscal year's end. However, encumbrances generally are re-appropriated as part of the following year's budget.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

In the 2014-15 fiscal year, the District implemented budgetary reductions totaling \$2.7 million. The District again initiated a budgetary process to reduce up to \$850,000 for the 2016-17 fiscal year given the District's 134 student decrease in Official Enrollment, which generates 2016-17 funding. In the spring of 2016, the District refunded its 2010 and 2011 Capital Loan Notes resulting in a net savings of approximately \$1.9 million over the remaining five years maturity. This Notes are paid from the District's Physical Plant and Equipment Levy Fund, PPEL, and this Fund will realize the \$1.9 million savings over the next five years.

The District's General Fund's categorical program's carryover balances decreased by \$553,340 to a total carryover amount of \$2,928,847 at June 30, 2019. This carryover amount is reflected in both the General Fund's Fund Balance and Unspent Balances as of June 30, 2019.

On September 12, 2017, subsequent to year end, the taxpayers, with an 82% approval, voted to extend the Voted Physical Plant and Equipment Levy (VPPEL) for another ten year period starting with fiscal year ending June 30, 2022. In 2019, the VPPEL generated \$6.7 million. The VPPEL and Statewide Sale Tax mentioned above will be the two sources of revenue to finance the Master Facility Plan.

Basis of Presentation. The charts and accounts used by the District have been prepared in conformity with GAAP as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Governmental Units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records conform with the Uniform Accounting System for Iowa Schools, Chapter 11 of the Code of Iowa and Area Educational Agencies issued by the Department of Education, state of Iowa. The chart of accounts manual is updated annually and the District is in full compliance with these requirements.

Relevant Financial Policies. Since the funding formula is pupil driven, an increase in total spending authority occurs by increasing the number of pupils or by increasing the cost per pupil. The cost per pupil is determined by the legislature in setting the amount of Supplemental State Aid, formerly known as allowable growth, each year. Under the law, the legislature has 30 days after receiving the governor's budget recommendation to set the state percent of growth for the year following the budget year. To illustrate, the 2011 legislature set the FY13 state percent of growth. The Supplemental State Aid becomes increasingly important because as a District, if we are faced with declining enrollment in a given year, the amount of Supplemental State Aid often will dictate budget reductions that will take place.

Awards and Acknowledgements

Independent Audits. The accounting firm of Bohnsack & Frommelt, LLP performed the annual audit. In addition to meeting requirements set forth in state statutes, the audit was designed to meet the requirements of federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditor's report on the basic financial statements, required supplementary information, combining and individual fund statements and other schedules are included in the financial section of this report.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the West Des Moines Community School District for its comprehensive annual financial report for the fiscal year ended June 30, 2018. The Certificate of Achievement is the highest form of recognition for excellence in state and local financial reporting.

In order to be presented this award, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The West Des Moines Community School District has received a Certificate of Achievement for twenty-seven consecutive years.

The School District has also received the Certificate of Excellence in Financial Reporting from the Association of School Business Officials (ASBO) for thirty-one consecutive years. Upon recommendation of the Association's Panel and Review, which has judged that the report substantially conforms to principles and standards of ASBO's Certificate of Excellence Program, we are submitting this report to ASBO to determine its eligibility for another certificate.

A certificate from both associations is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the program requirements of GFOA and ASBO and we are submitting it to both associations to determine its eligibility for another certificate.

Acknowledgement

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated efforts of the accounting staff and our auditors, Bohnsack & Frommelt, LLP. We would like to express our appreciation to all staff members who assisted and contributed to this report. Also, appreciation is expressed for the interest and support of the Board of Education in conducting the financial operations of the District in a most responsible and progressive manner.

Respectively submitted,

Independent Auditor's Report

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the West Des Moines Community School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the West Des Moines Community School District, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the District's total OPEB liability and related ratios, and schedule of the District's proportionate share of the net pension liability and schedule of District contributions on pages 4-13 and 55-62 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information, as listed in the table of contents, and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the other information, including the introductory and statistical sections and are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information, as listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

WEST DES MOINES
COMMUNITY SCHOOLS

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

It is an honor to present to you the financial picture of West Des Moines Community School District. We offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the West Des Moines Community School District for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

The District showed an increase in net position of \$79,306 during the year ended June 30, 2019, compared to a decrease in net position of \$8,653,898 during the year ended 2018.

Total revenues for the fiscal year ended June 30, 2019 and 2018 of \$145,610,338 and \$140,342,847 were comprised of general revenues in the amount of \$109,775,778 and \$105,427,337 and program revenues totaling \$35,834,560 and \$34,915,510, respectively.

As of June 30, 2019, the District's governmental funds reported combined ending fund balances of \$49,880,858 a decrease of \$171,982 in comparison to 2018. As of June 30, 2018, the District's governmental funds reported combined ending fund balances of \$50,052,840 a decrease of \$9,798,964 in comparison to 2017.

As of June 30, 2019, unassigned fund balance of the General Fund was \$7,337,358 or 6.5 percent of total General Fund expenditures. As of June 30, 2018, unassigned fund balance of the General Fund was \$12,388,268 or 10.4 percent of total General Fund expenditures.

The West Des Moines Community School District's total bonded long-term debt decreased by \$7,308,458 during the fiscal year 2019 and decreased by \$7,043,456 during fiscal year ended June 30, 2018. The decreases for both years were due to scheduled principal payments.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the West Des Moines Community School District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the basic financial statements. This report also contains other information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of West Des Moines Community School District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of West Des Moines Community School District's assets, deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements reflect functions of West Des Moines Community School District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, noninstructional programs, other and interest on long-term debt. Business-type activities are those that the District charges a fee to help cover the costs, such as School Nutrition and Community Education.

The government-wide financial statements include only West Des Moines Community School District. There are no other organizations or agencies whose financial statements should be combined and presented with the financial statements of the District.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Des Moines Community School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financial requirements.

Because the focus of governmental fund is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The West Des Moines Community School District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Management Fund, Capital Projects Fund, and Debt Service Fund which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. The basic governmental fund financial statements can be found on pages 18 through 21 of this report.

Proprietary funds. The District maintains two types of proprietary funds: enterprise and internal service. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District maintains two enterprise funds. Internal service funds are used to report the same functions presented as governmental activities in the government-wide financial statements. The District maintains one internal service fund to account for the premium and claim payments for the self-insured health insurance and dental insurance plans for District's employees. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. Because the service provided by the District predominately benefits

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

governmental, rather than business-type functions, it has been included within governmental activities in the government-wide financial statements. The basic proprietary fund financial statements can be found on pages 22 through 27 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the West Des Moines Community School District's own programs. The fiduciary fund of the District is an agency fund. Agency funds are custodial in nature and do not involve measurement of results of operation. The basic fiduciary fund financial statement can be found on page 28 of this report.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the West Des Moines Community School District's budgetary comparison, schedule of changes in the District's total OPEB liability and related ratios and schedule of proportionate share of the net pension liability and schedule of contributions. Required supplementary information can be found on pages 55 through 62 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The District's total net position has increased from a year ago from \$155,265,468 to \$155,344,774.

Table 1 - Net Position

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

A significant portion of the District's total assets reflects its investment in capital assets. The District uses these capital assets to provide educational services; consequently, these assets are not available for future spending. The District's net investment in capital assets-net position was \$167,581,198 for 2019 and \$161,565,964 for 2018. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position (22.0 percent for 2019 and 18.7 percent for 2018) represents resources that are subject to external restrictions on how they may be used. These restrictions for 2019 include \$2,928,847 for categorical funding, \$5,227,402 for physical plant and equipment levy, \$2,620,457 for debt service, \$5,118,016 for statewide sales and services tax, \$16,765,897 for management levy, \$905,029 for student activities and \$596,897 for public education and recreation levy. The remaining balance of unrestricted net position, (\$46,470,994) for 2019 and (\$35,330,847) for 2018, is in a deficit position, due to the unfunded net pension liability and net other postemployment benefit (OPEB) liability.

At the end of the current and prior fiscal years, the West Des Moines Community School District is able to report positive balances in two categories of net position. Unrestricted net position is deficit in the current and prior fiscal year due to the net pension liability and net OPEB liability.

Table 2 highlights the District's revenues and expenses for the fiscal year ended June 30, 2019 and 2018. This table utilizes the full accrual method of accounting. Revenues less expenses yielded the change in net position. This change was anticipated and it enabled the District to acquire capital assets and to service its long-term debt.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Transfers	239,317	236,510	(239,317)	(236,510)	-	-
Change in net position	289,822	(8,510,759)	(210,516)	(143,139)	79,306	(8,653,898)
Net position, beginning	152,607,411	161,118,170	2,658,057	2,801,196	155,265,468	163,919,366
Net position, ending	\$ 152,897,233	\$ 152,607,411	\$ 2,447,541	\$ 2,658,057	\$ 155,344,774	\$ 155,265,468

The District's total net position increased by \$79,306 during the current fiscal year as compared to a decrease of \$8,653,898 in 2018. The governmental activities net position increased by \$289,822 in 2019 and decreased by \$8,510,759 in 2018. The business-type activities, which include nutrition and community education, decreased by \$210,516 in 2019 and decreased by \$143,139 in 2018.

Revenue is further divided into two major components: program revenue and general revenue. Program revenue is defined as charges for services and sales, operating and capital grants and contributions. General revenue includes taxes and unrestricted grants such as state foundation support. Expenses are shown in programs including instruction, support services, noninstructional programs, other, interest on long-term debt, school nutrition and community education.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

GOVERNMENTAL ACTIVITIES

Revenues for governmental activities were \$137,941,279 and expenses were \$137,890,774. Property taxes and other taxes such as sales tax and utility replacement tax and state sources including state foundation aid are the primary sources of revenue for the District. These sources represent 78 percent of total revenues. Instruction constitutes the largest portion of governmental activities expenses at \$93,945,184 or 68.1 percent of total expenses.

Table 3 discloses cost of services for governmental and business-type activities. The total cost of services column contains all costs related to the programs and the net cost column shows how much of the total amount is not covered by program revenues. Succinctly put, net costs are costs that must be covered by state aid or local taxes. The difference in these two columns would represent restricted grants and charges for services.

Table 3 - Governmental and Business-Type Activities

	Total Cost of Services		Net Cost of Services	
	30-Jun-19	30-Jun-18	30-Jun-19	30-Jun-18
Instruction	\$ 93,945,184	\$ 95,705,186	\$ 71,365,937	\$ 73,818,379
Support services	38,326,228	40,132,796	36,616,385	38,248,837
Noninstructional programs	535,148	521,785	535,148	521,785
Other	3,935,098	3,898,573	-	-
Interest on long-term debt	1,149,116	1,543,841	1,149,116	1,543,841
School nutrition	4,647,074	4,104,322	41,254	(399,421)
Community education	2,993,184	3,090,242	(11,368)	347,814
Total expenses	\$ 145,531,032	\$ 148,996,745	\$ 109,696,472	\$ 114,081,235

Net cost of services is 75.4 percent of total cost of services in 2019 and 76.6 percent of total cost of services in 2018. The cost of governmental activities financed by users of the District's programs was \$9,750,752 in 2019 and \$11,324,217 in 2018. Federal and state governments subsidized certain programs with grants and contributions totaling \$18,473,436 in 2019 and \$16,345,122 for 2018. The remaining net cost of the governmental activities was financed with property tax, state foundation aid and investment earnings.

Approximately 81 percent of the District's general fund budget is comprised of salary and benefit costs. Historically speaking, collective bargaining contracts have increased approximately four percent or more each year. Until 2010, District staffing had increased for several consecutive years due to gradual enrollment growth, changing student needs and demographics. More recently, the Board of Education has approved the administration's recommendation to reduce some teaching and staff positions in various education programs and support areas. These reductions were made in response to state funding cuts.

BUSINESS-TYPE ACTIVITIES

- The School Nutrition and Community Education programs constitute the business-type activities.
- The primary sources of income are charges for services and federal revenues.
- The School Nutrition Fund's primary expenses are staff and food. The District's free and reduced participation continued to increase during the fiscal year. The School Nutrition Fund had a decrease in net position of \$114,213. For fiscal year 2018 net position increased \$153,410.
- The primary source of revenue for the Community Education fund is sales of services for educational programs. The Community Education fund had a decrease in net position of \$23,273 during the fiscal year, primarily due to moving facilities activities to the General Fund. For fiscal year 2018 net position increased \$501,001.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the West Des Moines Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the West Des Moines Community School District's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the West Des Moines Community School District's governmental funds reported combined ending fund balances of \$49,880,858, a decrease of \$171,982 in comparison with the prior year fund balance of \$50,052,840. Approximately 15 percent or \$7,337,358 for 2019 and 25 percent or \$12,388,268 for 2018, constitutes unassigned fund balance, which is available for spending at the government's discretion. The majority of the remaining fund balance for 2019 and 2018 is restricted to indicate that it is not available for new spending because it has already been restricted for other purposes. The District committed \$4,832,526 and \$4,881,607 of fund balance for curriculum as of June 30, 2019 and 2018, respectively.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$7,337,358 and \$12,388,268 for 2019 and 2018, respectively while total fund balance reached \$15,264,179 in 2019 and \$20,821,694 for 2018. This decrease is primarily attributable to a decrease of \$985,000 in state aid, calculated in accordance with the statutory funding formula, and \$3,700,000 decrease in property taxes.

As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 6.5 percent of total General Fund expenditures, and total fund balance represents approximately 13.5 percent of that same amount for 2019. For 2018, unassigned fund balance represents 10.5 percent of total General Fund expenditures, while total fund balance represents approximately 17.6 percent of that same amount.

The fund balance of the District's General Fund decreased by \$5,557,515 during June 30, 2019 primarily due to a \$5,400,000 discretionary decision to reduce the General Fund property tax levy and instead, increase the Management Fund property tax levy. The statutory funding formula resulted in a \$1,700,000 increase.

The Management Fund fund balance increased \$7,487,776 to \$16,765,897 in 2019 from \$9,278,121 in 2018. The increase is primarily due to a \$5,400,000 property tax levy noted above and a reduction in insurance premiums and a reduction in early retirement expenses.

The Capital Projects Fund fund balance decreased to \$16,348,856 from \$18,566,782 in 2018. This decrease is due to scheduled debt service transfers of sales tax revenues to the Debt Service Fund.

The Debt Service Fund balance is \$0 in both fiscal years. The District paid \$6,615,000 in principal and \$1,901,073 in interest on the bonded long-term debt of the District.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

BUDGETARY HIGHLIGHTS

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget. In accordance with the Code of Iowa, the Board of Education annually adopts a program budget which includes all funds except internal service and agency funds as described in the note to required supplementary information.

A comparison of the actual expenditures/expenses of the District's budgeted funds with the final amended program budget amounts is as follows:

	Budget		Actual Expenditures/ Expenses	Variance
	Original	Final		
Instruction	\$ 88,336,023	\$ 90,827,876	\$ 84,160,014	\$ 6,667,862
Support services	34,352,740	37,244,319	32,886,410	4,357,909
Noninstructional programs	7,395,604	7,626,816	7,979,797	(352,981)
Other	22,711,919	23,242,026	20,632,615	2,609,411
Total	\$ 152,796,286	\$ 158,941,037	\$ 145,658,836	\$ 13,282,201

The original budget is published at least three months prior to the start of the fiscal year-often prior to settlement of collective bargaining agreements and before final legislative action on the state budget. In the latter portion of the fiscal year the amended budget is published with "not to exceed" amounts to satisfy Iowa's statutory reporting requirements.

The original budget was amended to include additional expenditures not expected in the original budget. The actual expenditures were less than the final amended budget by \$13,282,201 due to the timing of incurring the additional expenditures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The following table shows ending balances of capital assets invested in various categories. The District recognized a total net decrease of \$1,293,224 for 2019. The decrease is due to depreciation exceeding current year additions.

Table 4 - Capital Assets as of June 30 (Net of Depreciation)

	2019	2018
Land	\$ 4,095,848	\$ 4,095,848
Construction-in-progress	3,767,545	1,887,679
Buildings and improvements	198,305,068	202,253,537
Machinery and equipment	4,344,255	3,568,876
Total	\$ 210,512,716	\$ 211,805,940

Additional information about the District's capital assets can be found in Note 5 to the financial statements.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Debt

As of June 30, 2019, the West Des Moines Community School District had bonds and capital loan notes outstanding totaling \$46,764,499 compared to \$54,072,957 as of June 30, 2018. In the current year, the District paid \$6,615,000 in principal and \$1,907,623 in interest on outstanding debt.

	2019	2018
Capital loan notes	\$ 11,426,321	\$ 16,776,981
Revenue bonds	35,338,178	37,295,976
	<u>\$ 46,764,499</u>	<u>\$ 54,072,957</u>

As of June 30, 2019, the District's available legal debt margin was \$334,498,799 compared to \$322,987,428 as of June 30, 2018. Additional information about the District's long-term debt can be found in Note 6 to the financial statements.

Other long-term debt consists of:

Outstanding Long-Term Obligations						
	Governmental Activities		Business-Type Activities		Total District	
	2019	2018	2019	2018	2019	2018
Early retirement	\$ 551,425	\$ 1,638,815	\$ -	\$ -	\$ 551,425	\$ 1,638,815
Compensated						
absences	1,546,840	1,484,859	24,025	27,716	1,570,865	1,512,575

Total	<u>\$ 87,163,024</u>	<u>\$ 85,387,190</u>	<u>\$ 4,158,574</u>	<u>\$ 3,743,655</u>	<u>\$ 91,321,598</u>	<u>\$ 89,130,845</u>

Additional information about the District's other long-term obligations can be found Note 7, Note 8, and Note 9 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District is located in the central part of the state, within the larger Des Moines metropolitan area and ranks as one of the top growth areas of the state. The economic condition and outlook of the District have remained strong during the past ten years, following several years of very high economic growth and steady enrollment growth. This growth has had a positive effect on employment and the District's tax base. The District's tax base increased at an average annual rate of approximately 4.12% over the past 15 years. In fiscal year 2019 and 2018, the District experienced an increase in valuation of 2.52% and 2.43% respectively.

The tax base is expected to grow more slowly in the next five years.

West Des Moines Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Retail sales, building permits and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the state of Iowa. Growth in the Des Moines area suburbs is expected to exceed the state average. A large percentage of these increases are occurring outside the District's boundaries.

In recent years, the state of Iowa faced an economic downturn that severely hampered its ability to fund schools at the same level as in prior years. After two consecutive years of 4.5% declines in the state's net receipts, in 2011, the state's net receipts increased by 5.8%. In light of these challenging economic times, the District has publicly discussed operating budget concerns looking ahead to the next five years. In May 2014, the Board approved a plan to reduce \$2.7 million in General Fund Budget in the 2014-15 fiscal year including the closing of Phenix Elementary School. The Board of Education continues to implement the District's long-range facilities plan, which was approved in March 2010. In addition, the Board has directed the Administration to review this plan so that additional Revenue Bonds are not necessary to finance the plan and the Administration has since presented a plan to make \$12.3 million in scope reductions to this plan.

Request for Information

These financial statements and discussions are designed to provide our students, citizens, taxpayers, investors and creditors with a complete disclosure of the District's finances and to demonstrate a high degree of accountability for the public dollars entrusted to us. If you have questions about this report or need additional information, please contact Mr. Paul Bobek, Chief Financial officer, West Des Moines Community School District, 3550 Mills Civic Parkway, West Des Moines, Iowa 50265-5556.

West Des Moines Community School District

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities June 30, 2019

Total fund balances		\$ 49,880,858
---------------------	--	---------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets net of accumulated depreciation used in governmental activities are not financial resources and, therefore, are not reported in the funds		209,137,200
--	--	-------------

Receivables not collected within 60 days of year-end are not available soon enough to pay for the current period's expenditures and, therefore, are unavailable in the funds		506,319
--	--	---------

Internal service funds are used by management to charge the costs of certain services to individual funds. The assets and liabilities of the Internal Service Fund are included in governmental activities in the statement of net position:

Other current assets	20,304,746	
Other current liabilities	<u>(4,540,689)</u>	15,764,057

Internal Service Fund allocated to business-type activities		(1,459,552)
---	--	-------------

Pension and OPEB related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds as follows:

Deferred outflows of resources related to pension	15,682,365	
Deferred inflows of resources related to pension	(2,763,597)	
Deferred outflows of resources related to OPEB	776,127	
Deferred inflows of resources related to OPEB	<u>(539,080)</u>	13,155,815

Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds:

Net pension liability	(54,037,649)	
Accrued interest payable	(711,366)	
Capital notes, current	(4,990,000)	
Capital notes, noncurrent	(5,245,000)	
Premium on capital notes	(1,191,321)	
Revenue bonds, current	(1,900,000)	
Revenue bonds, noncurrent	(32,465,000)	
Discount on revenue bonds	58,558	
Premium on revenue bonds	(1,031,736)	
Compensated absences, current	(499,840)	
Compensated absences, noncurrent	(1,047,000)	
Other postemployment benefits payable	<u>(31,027,110)</u>	(134,087,464)
Net position of governmental activities		<u><u>\$ 152,897,233</u></u>

See Notes to Basic Financial Statements.

West Des Moines Community School District

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2019

Net change in fund balances - total governmental funds \$ (171,982)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period:

Capital outlay	7,801,359	
Depreciation expense by function:		
Instruction	(4,831,747)	
Support services	(4,045,402)	
Proceeds from sale of capital assets	(37,398)	
Loss on sale of capital assets	(95,350)	(1,208,538)

Revenue in the statement of activities that does not provide current financial resources are not reported as revenues in the funds, statewide sales and use tax

356,319

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. The issuance of long-term debt increases liabilities in the statement of net position, while the repayment of long-term debt reduces long-term liabilities. In the statement of activities, interest is accrued on outstanding bonds, whereas in the governmental funds an interest expenditure is reported when due. The following is the detail of the net effect of these differences in the treatment of long-term debt and related items:

Repayment of bond principal	6,615,000	
Accretion of premium	699,622	
Amortization of discount	(6,164)	
Interest	65,048	7,373,506

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the Internal Service Fund is reported with governmental activities.

(2,114,054)

Change in Internal Service Fund allocation to business-type activities

73,030

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Change in compensated absences	(61,981)	
Change in net pension liability	(1,717,140)	
Change in liability for other postemployment benefits	(2,239,338)	(4,018,459)
Change in net position of governmental activities		\$ 289,822

See Notes to Basic Financial Statements.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies

Nature of operations:

The West Des Moines Community School District (the District) was incorporated under Chapter 274 of the State Code of Iowa. The District has the power to make rules and regulations for its own government consistent with the laws of the state of Iowa and the regulations of the Iowa State Board of Education. The District is governed by the elected West Des Moines Community School Board of Education (the Board). The District is composed of one high school, one ninth grade school, two junior high schools, eight elementary schools and one alternative high school. Student enrollment (kindergarten through high school) for the 2018-2019 school year was 8,918 regular and special education students. The District employs approximately 1,200 full-time equivalent personnel.

Reporting entity:

In accordance with Governmental Accounting and Financial Reporting Standards, the basic financial statements include all funds, organizations, agencies, boards, commissions and authorities for which the District is financially accountable. The District has also considered all other potential organizations for which the nature and significance of their relationships with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. In addition, the GASB Statement No. 39, as amended by GASB Statement No. 61 sets forth additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. These criteria include 1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units, or its constituents, 2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the organization and 3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. Based on these criteria, there are no other organizations which should be included in these basic financial statements.

Basis of presentation: The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide and fund financial statements: The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of the interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Interfund services provided and used are not eliminated in the process of consolidation for these statements.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The statement of net position presents the District's nonfiduciary assets and liabilities, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets: Consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position: Results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position: Consist of net position that does not meet the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of fund financial statements is on major funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

Fund accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balance/net position, revenues and expenditures or expenses, as appropriate. The District has the following funds:

General Fund: The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund accounts for the instructional and most of the support service programs of the District's operations. Revenue of the fund consists primarily of local property taxes and state governmental aid.

Management Fund, a special revenue fund: Accounts for the resources from a specific tax levy for tort liability insurance premiums, unemployment compensation insurance claims and early retirement incentive payments.

Capital Projects Fund: Accounts for the resources used to pay for the purchase and improvement of sites, demolition work, special assessments and major building repairs, physical plant and equipment levy (PPEL) as well as the statewide sales and services tax for school infrastructure.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Debt Service Fund: Accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. Revenue of the fund primarily consists of local property taxes.

The other governmental funds of the District are considered nonmajor and are as follows:

Special Revenue Funds: Are used to account for the revenue sources that are legally restricted to expenditures for specific purposes.

Playground Fund: Accounts for the resources used to establish and maintain public recreation places and playgrounds and necessary accommodations for children and adults.

Student Activity Fund: Accounts for money held by the District on behalf of the students who have raised these funds and are responsible for their disposition for co-curricular to extracurricular activities of the District.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows.

Enterprise Funds: Are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The following enterprise funds of the District are considered nonmajor:

School Nutrition Fund: Accounts for the food service operations of the District.

Community Education Fund: Accounts for the educational programs available to the general public on a fee basis.

Internal Service Fund: The Internal Service Fund is used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District's Internal Service Fund is used to account for the premium and claim payments for the self-insured health insurance and dental insurance plans for District employees.

Fiduciary Fund Types: Fiduciary fund types are used to account for net position and changes in net position. The District has one fiduciary fund which is considered an Agency Fund:

Flower Fund: To account for donations to be used for flower purchases for memorials or illnesses of District employees.

Measurement Focus and Basis of Accounting: The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied. The District also reports fiduciary funds which focus on net position and changes in net position. The fiduciary funds report on the accrual basis of accounting.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Revenues – exchange and nonexchange transactions: Property taxes, other taxes, grants, entitlements and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which it is budgeted. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Property taxes are recognized as a receivable at the time they become an enforceable legal claim. This is determined to occur when the budget is certified and approved by the state of Iowa. The current tax levy recognized in revenue was certified in April 2018 based on 2017 assessed valuations. The current property tax receivable was certified in April 2019 based on 2018 assessed valuations. These taxes are due in two installments on September 30 and March 31, with a 1.5 percent per month penalty for delinquent payment.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's proprietary funds are charges for food sales or tuition and fees. Operating expenses for proprietary funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost reimbursement grant resources to such programs and then general revenues.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure restricted fund balance and then to less restrictive classifications – committed, assigned and then unassigned fund balances.

Significant Accounting Policies:

The significant accounting policies followed by the District include the following:

Cash, cash equivalents and investment accounts: Separate bank accounts and investments are not maintained for all District funds, as certain funds maintain their cash and investment balances in a pooled account. Accounting records are maintained to show the portion of the pooled account attributable to each participating fund.

Inventories: Inventories are valued at cost (first-in, first-out), which approximates market. The consumption method of accounting is applied to the governmental fund type inventories. Unused commodities at balance sheet date are reported as inventory in the statement of net position.

Capital assets: General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirement during the year. Donated capital assets are recorded at the acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000 (\$500 for the School Nutrition Fund). The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported assets except land and construction-in-progress are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Useful Lives
Buildings and improvements	20 - 50 years
Machinery and equipment	5 - 15 years
Intangibles	15 years

The District's collection of library books and other similar assets are not capitalized due to the individual assets not meeting the District's capitalization threshold. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Unearned revenue: Proprietary funds defer revenue recognition in connection with resources that have been received, but not earned. Unearned revenue in governmental funds arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue. Unearned revenue consists primarily of school registration fees and meal revenues collected for the programs and services in the next school year.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Accrued payroll: Payroll and the related payroll taxes and benefits for teachers with annual contracts corresponding to the school year, but have balances payable in July and August, have been accrued as a liability as they are applicable to services provided during the respective fiscal years and will be paid with available resources.

Compensated absences: District employees accumulate a limited amount of earned but unused vacation and sick leave for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the District-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect as of June 30, 2019. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund and by the Special Revenue Fund, Management Levy.

Self-insurance: The District is self-insured for health and dental benefits. The District's premiums and claims are accounted for in the Internal Service Fund. Premiums are charged by the Internal Service Fund to operating funds based upon number of employees and selected coverage in each fund. There have been no significant reductions in insurance coverage for the District from the prior year.

Cash flows: For the purpose of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fund balances: In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable: Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Assigned: Amounts the Board of Education intend to use for specific purposes. The authority to assign fund balances has been delegated to the Chief Financial Officer through the Board approved budget of the District.

Unassigned: All amounts not included in other spendable classifications as well as any deficit fund balance of any other governmental fund is reported as unassigned.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned funds and then unassigned.

Deferred outflows/inflows of resources: In addition to assets, the balance sheet and/or statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of fund balance or net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until then. Deferred outflows of resources in the proprietary funds and government-wide statement of net position consist of unrecognized items not yet charged to pension expense and other postemployment benefit expense and contributions from the employer after the measurement date but before the end of the employer's reporting period.

In addition to liabilities, the balance sheet and/or statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of fund balance or net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District reports unavailable revenue in the governmental funds balance sheet from the statewide sales and services tax grants and property tax. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. In the District's government-wide statements, only the succeeding year property tax revenues remain as a deferred inflow of resources under the full accrual basis of accounting and will become an inflow in the year for which levied. Deferred inflows of resources in the proprietary funds and government-wide statements also include the unrecognized items not yet charged to pension expense and other postemployment benefit expense.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported as fair value.

Net position: In proprietary funds, fiduciary funds, and government-wide financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent bond proceeds of \$3,832,981.

Net position is reported as restricted when there are limitations imposed on their use through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net position restricted through enabling legislation consists of \$5,227,402 for physical plant and equipment levy, \$2,620,457 for debt service, \$5,118,016 for statewide sales and services tax, \$16,765,897 for management levy and \$596,897 for public education and recreation levy. All other restricted net position consists of \$2,928,847 for categorical funding and \$905,029 for student activities and are restricted by grantors and donors.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Nature of Operations, Reporting Entity and Significant Accounting Policies (Continued)

Net position flow assumption: Sometimes the District will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

Interfund activity: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2. Budgetary and Budgetary Control

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules – Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget. The District's actual expenditures in the noninstructional function exceeded the budget by \$352,981.

Note 3. Cash and Cash Equivalents and Investments

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts and warrants or improvements certificates of a drainage district.

As of June 30, 2019, the District had investments in the Iowa Schools Joint Investment Trust Direct Government Obligations Portfolio which are valued at an amortized cost of \$1,548,495 pursuant to Rule 2a-7 under the Investment Company Act of 1940. The District had investments in the Goldman Sachs Financial Square Fund Governmental Fund of \$4,904,942. There were no limitations or restrictions on withdrawals from these investments.

Custodial credit risk: The District's deposits in banks as of June 30, 2019 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This Chapter provides for additional assessments against the depositories to insure there will be no loss of public funds. The District does not have a separate policy from state statutes.

Credit risk: The investment in the Iowa Schools Joint Investment Trust was rated AAAM by Standard & Poor's Rating Service. The investment in the Goldman Sachs Financial Square Fund Governmental Fund was rated AAAM by Standard & Poor's Rating Service and Aaa-mf by Moody's Rating Service. The District does not have a separate credit risk policy from state statutes.

The District does not have a separate interest rate risk or concentration of credit risk policy from state statutes.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 4. Interfund Transfers and Balances

The following is a schedule of transfers as included in the basic financial statements of the District:

	Transfers In	Transfers Out
Major funds:		
General	\$ 249,317	\$ 146,303
Capital Projects Fund	-	8,522,623
Debt Service Fund	8,522,623	-
Other nonmajor governmental funds	146,303	10,000
Other nonmajor enterprise fund	-	239,317
	<u>\$ 8,918,243</u>	<u>\$ 8,918,243</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Note 5. Capital Assets

Capital asset activity for the governmental activities for the year ended June 30, 2019 was as follows:

	Balance June 30, 2018	Additions	Retirements	Balance June 30, 2019

	\$ 3,743,655	\$ 484,635	\$ 69,716	\$ 4,158,574	\$ 24,025

Compensated absences are generally liquidated by the General Fund.

Net OPEB liability and net pension liability are generally liquidated by the General Fund for governmental activities and the respective funds for business-type activities.

The District's general obligation and revenue debt is as follows:

Capital loan notes:

Series 2016: On March 8, 2016, the District issued \$23,665,000 General Obligation School Capital Loan Refunding Notes, Series 2016 with an interest rate of 5.0 percent to current refund \$7,565,000 of the General Obligation Capital Loan Notes, Series 2010 and \$19,140,000 of the General Obligation School Capital Loan Notes, Series 2011. The District current refunded the Series 2010 and Series 2011 Capital Loan Notes to reduce its debt service payments over the next five years by \$1,947,227 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,898,067. Principal is payable each May 1 and interest is payable semi-annually each November 1 and May 1 until maturity on May 1, 2021. The total principal and interest remaining to be paid on the 2016 bonds is \$11,009,000. During the year ended June 30, 2019, \$4,755,000 of principal and \$749,500 of interest was paid on the bonds.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 6. Long-Term Debt (Continued)

Revenue bonds:

Series 2012: On April 5, 2012, The District issued \$10,000,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds to finance school infrastructure projects. The bonds bear interest at rates ranging from 2.10 percent to 3.00 percent and had an unpaid balance of \$10,000,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Project Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2012 bonds is \$11,781,410. During the year ended June 30, 2019, no principal was paid on the 2012 bonds and \$255,390 of interest was paid on the bonds.

Series 2013: On December 23, 2013, the District issued \$9,760,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2013 to finance school infrastructure projects. The bonds bear interest at rates ranging from 3.00 percent to 4.00 percent and had an unpaid balance of \$7,200,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2013 bonds is \$8,647,848. During the year ended June 30, 2019, \$545,000 of principal and \$245,320 of interest was paid on the 2013 bonds.

Series 2014: On June 24, 2014, the District issued \$22,320,000 in School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2014 to finance school infrastructure projects. The bonds bear interest at rates ranging from 2.00 percent to 5.00 percent and had an unpaid balance of \$17,165,000. The revenue bonds will be repaid using statewide sales, services and use tax collected in the Capital Projects Fund. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District. The bonds are not general obligations of the District. The total principal and interest remaining to be paid on the 2014 bonds is \$20,661,909. During the year ended June 30, 2019, \$1,315,000 of principal and \$650,863 of interest was paid on the 2014 bonds.

The statewide sales, services and use tax revenues were \$9,148,540 for the year ended June 30, 2019. Annual principal and interest payments on the bonds are expected to require approximately 35 percent of the statewide sales, services, and use tax revenues. Total principal and interest remaining on the revenue bonds is \$41,091,167. For the current year, total principal paid was \$1,860,000 and total interest paid was \$1,151,573.

The resolution providing for the issuance of the revenue bonds included the following provisions:

- All proceeds from the statewide sales, service and use tax shall be deposited into the revenue account.
- Monies in the revenue account shall first be disbursed to make deposits into the sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year. At June 30, 2019, there was \$127,695, \$678,573, and \$1,658,858 deposited in the sinking account for the 2012, 2013 and 2014 bonds respectively.
- Monies in the revenue account shall next be disbursed to maintain a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. At June 30, 2019, there was \$979,069, \$798,495 and \$2,055,417 deposited in the reserve account for the 2012, 2013 and 2014 bonds respectively.
- If monies in the sinking fund exceed the required amount, the excess shall be transferred to the revenue account. At June 30, 2019, there was \$22,936, \$56,006 and \$76,389 deposited in the revenue account for the 2012, 2013 and 2014 bonds respectively.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 6. Long-Term Debt (Continued)

As of June 30, 2019, the District did not exceed its legal debt margin computed as follows:

Total assessed valuation	\$ 7,581,975,987
Debt limit, 5% of total assessed valuation	\$ 379,098,799
Amount of debt applicable to debt limit, total indebtedness	<u>44,600,000</u>
Excess of debt limit over debt outstanding, legal debt margin	<u><u>\$ 334,498,799</u></u>

Note 7. Early Retirement

In order to hasten early retirement, the District offered an early retirement plan benefit to its employees. The Board reserves the right to amend or revoke this Early Retirement Plan or any provision of this plan at any time, with or without notice.

To be eligible to participate in this Plan, an employee must (1) have worked a minimum of 30 hours per week, or 70 percent of contract, during each of the last ten full years of service; (2) a year of service refers to a school year. Thus, in order to count as a school year, the employee must be employed by the first student contact day in order for that year to count towards a full year of service; (3) have a minimum of ten full years of continuous service in the District; (4) have obtained the age of 55 as of June 30, 2019; (5) an employee terminated for just cause, or receiving payments or benefits from or on behalf of the District that are not tied to the performance of current duties, is not eligible (6) an employee is eligible to participate in the plan only at the end of the current school year for certified employees or nine month employees or June 30th for all other employees.

Benefits to eligible employees include a lump sum payment into a tax-sheltered annuity benefit in December following retirement equal to the number of sick leave days accumulated as of retirement (125 maximum for nine- and ten-month employees or 135 maximum for 11- and 12-month employees) multiplied by \$50 per day. In addition, eligible employees will receive single District/major medical insurance capped at the 2018-2019 premiums for the District's lowest cost plan. The District's contribution to an early retiree's health insurance will end the earlier of 1) six years from the retirement date, or 2) the month prior to the early retiree's 65th birthday.

In addition, in the 2018-2019 Early Retirement Plan, the Board added the following additional benefit: For those with an effective retirement date on or before June 30, 2019, a one-time lump sum payment equaling 25% of the Early Retiree's base salary including Teacher Salary Supplement if the employee made written notice of intent to retire to the Board on or before November 28, 2016.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 7. Early Retirement (continued)

As of June 30, 2019, the District had \$551,425 accrued in the Management Fund. The current year cost to the District was \$1,638,815 which consisted of 114 participants in the plan. A summary of changes in liability for early retirement is shown as follows:

Balance, June 30, 2018	\$ 1,638,815
Additions	551,425
Reductions	1,638,815
Balance, June 30, 2019	<u>\$ 551,425</u>

Note 8. Postemployment Benefits Other Than Pensions (OPEB)

General Information about the OPEB Plan

Plan description: The District's defined benefit OPEB plan, West Des Moines Community School District Postemployment Plan Other Than Pensions (the Plan), provides postemployment benefits for eligible participants enrolled in its plans. The plan is a single-employer defined benefit OPEB plan administered by the District. Under Chapter 509A.13 of the Code of Iowa, "Group Insurance for Public Employees": *If a governing body... has procured insurance for its employees, the governing body shall allow its employees who retired before attaining sixty-five years of age to continue participation in the group plan or under the group contract at the employee's own expense until the employee attains sixty-five years of age.*

In order to be eligible for the District premium subsidy at retirement, employees must have obtained the age of 55 with a minimum of ten full years of continuous employment in the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standard Board Statement No. 75.

Benefits provided: The Plan provides pre Medicare medical and prescription drug benefits to its participants. The medical and prescription drug benefits are provided through a self funded program administered by a third-party administrator. Retirees are eligible for three self-insured PPO plans offered through Wellmark. Dental coverage is made available to eligible retirees and is fully contributory.

The full monthly premium rates as of July 1, 2019 for each plan are as shown below:

Rate Tier	Plan 1	Plan 2	Plan 3	Dental
Single	\$ 559	\$ 537	\$ 503	\$ 45
Subscriber and Spouse	1,230	1,181	1,107	83
Subscriber and Children	1,062	1,020	956	93
Family	1,677	1,610	1,510	124

Future retirees meeting eligibility requirements are reimbursed a fixed subsidy equal to the lowest single medical premium equivalent at the time of retirement. The District provides the subsidy for six years or until the retiree reaches age 65.

West Des Moines Community School District

Notes to Basic Financial Statements
Year Ended June 30, 2019

Note 8. Other Postemployment Benefits (Continued)

Employees covered by benefit terms: At June 30, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	80
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	1,446
	<u>1,526</u>

Total OPEB Liability

The District's total OPEB liability of \$32,384,000 was measured as of June 30, 2019 and was determined by an actuarial valuation as of June 30, 2019.

Actuarial assumptions and other inputs: The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.0% per annum
Salary increases	3.5% per annum
Discount rate	3.5% per annum
Retirees' share of benefit-related costs	0%
Health care cost trend rate	6.5%
	The trend rate is reduced by 0.50% each year until reaching the ultimate trend rate of 4.50%

The discount rate was based on the Bond Buyer 20-Bond GO index. Mortality rates were based on the RP-2014 generational table scaled using MP-17 and applied on a gender-specific basis. The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period 2010– 2018.

West Des Moines Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 8. Other Postemployment Benefits (Continued)

Changes in the Total OPEB Liability

There were no changes as a result of changes in benefit terms or differences between expected and actual experience. Changes of assumptions or other inputs reflect a change in the discount rate from 3.58% per annum in 2018 to 3.50% per annum in 2019.

	Total OPEB Liability
Balance at July 1, 2018	\$ 28,853,182
Changes for the year:	
Service cost	2,877,781
Interest	1,199,633
Changes of benefit terms	-
Differences between expected and actual experience	-
Changes in assumptions or other inputs	899,215
Benefit payments	(1,445,811)
Net changes	3,530,818
Balance at June 30, 2019	\$ 32,384,000

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease (2.50%)	Discount Rate (3.50%)	1% Increase (4.50%)
Total OPEB liability	\$ 35,135,000	\$ 32,384,000	\$ 29,781,000

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates: The following presents that total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1-percentage point higher than the current healthcare cost trend rates.

	1% Decrease (5.50% decreasing to 3.50%)	Healthcare Cost Trend Rates (6.50% decreasing to 4.50%)	1% Increase (7.50% decreasing to 5.50%)
Total OPEB liability	\$ 28,717,000	\$ 32,384,000	\$ 37,083,000

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 8. Other Postemployment Benefits (Continued)

For the year ended June 30, 2019, the District recognized OPEB expense of \$4,097,000. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -
Changes of assumptions or other inputs	810,069	562,656
Net difference between projected and actual investments	-	-
Total	\$ 810,069	\$ 562,656

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2020	\$ 19,571
2021	19,571
2022	19,571
2023	19,571
2024	19,571
Thereafter	149,558
	\$ 247,413

Note 9. Retirement System

Plan Description – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012, will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 9. Retirement System (Continued)

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50 percent for each month that the member receives benefits before 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2019, pursuant to the required rate, Regular members contributed 6.29 percent of covered payroll and the District contributed 9.44 percent of covered payroll for a total rate of 15.73 percent.

The District's contributions to IPERS for the year ended June 30, 2019 were \$6,417,663.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2019, the District reported a liability of \$56,815,308 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2018, the District's collective proportion was 0.8978051 percent, which was an increase of .040216 from its proportion measured as of June 30, 2017.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 9. Retirement System (Continued)

For the year ended June 30, 2019, the District recognized pension expense of \$939,385. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 311,510	\$ 1,284,117
Changes of assumptions	8,105,055	-
Net difference between projected and actual earnings on pension plan investments	-	1,485,248
Changes in proportion and differences between District contributions and proportionate share of contributions	1,749,040	80,537
District contributions subsequent to the measurement date	6,417,663	-
Total	\$ 16,583,268	\$ 2,849,902

\$6,417,663 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2020	\$ 4,321,694
2021	2,507,301
2022	41,609
2023	379,780
2024	65,319
Thereafter	-
Total	\$ 7,315,703

There were no non-employer contributing entities to IPERS.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 9. Retirement System (Continued)

Actuarial Assumptions – The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of Inflation (effective June 30, 2017)	2.60 percent per annum
Salary Increases (effective June 30, 2017)	3.25 percent to 16.25 percent average, including inflation. Rates vary by membership group.
Investment rate of return (effective June 30, 2017)	7.00 percent per annum, compounded annually, net of pension plan, investment expense, including inflation
Wage growth (effective June 30, 2017)	3.25 percent per annum, based on 2.60 percent inflation and 0.65 percent real wage inflation

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience study dated March 24, 2017 and a demographic assumption study dated June 28, 2018. Mortality rates were based on the RP-2014 Employee and Healthy Annuitant Tables with MP-2017 generational adjustments.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity	22.0%	6.01%
International equity	15.0%	6.48%
Global smart beta equity	3.0%	6.23%
Core plus fixed income	27.0%	1.97%
Public credit	3.5%	3.93%
Public real assets	7.0%	2.91%
Cash	1.0%	0.25%
Private equity	11.0%	10.81%
Private real assets	7.5%	4.14%
Private credit	3.0%	3.11%
Total	100%	

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 9. Retirement System (Continued)

Discount Rate – The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

	1% Decrease (6.0%)	Discount Rate (7.0%)	1% Increase (8.0%)
District's proportionate share of the net pension liability	\$ 96,426,995	\$ 56,815,308	\$ 23,586,990

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to the Pension Plan – At June 30, 2019, the District reported payables to the defined benefit pension plan of \$561,922 for legally required employer contributions and \$374,417 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Note 10. Risk Management

The District is exposed to various risks of loss related to torts, theft; damage to and destruction of assets; errors and omissions; and natural disasters. These risks, except injuries to employees and claim payments for health, prescriptions and dental insurance, are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District has established an internal service fund to account for premium and claim payments for a self-insured group health insurance plan for the District's employees to meet potential losses from medical claims. Self-insurance is in effect up to an individual stop loss amount of \$100,000 and aggregate amount of 125 percent of expected claims. The District also self-insures for its dental plan. The dental plan includes no aggregate reinsurance.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 10. Risk Management (Continued)

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Claims payable include all known claims and an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are estimated by considering the effects of inflation, recent claim settlement trends, including frequency and amount of pay-outs and other economic and social factors.

Changes in the balances of claims payable during the years ended June 30, 2019 and 2018 are as follows:

	Self-Insurance Fund	
	2019	2018
Claims payable, beginning of year	\$ 2,508,384	\$ 1,730,000
Incurred claims (including IBNR and changes in estimates)	17,536,792	16,462,989
Claim payments	17,183,283	15,684,605
Claims payable, end of year	<u>\$ 2,861,893</u>	<u>\$ 2,508,384</u>

Each participating fund makes payments to the self-insurance fund for amounts which are determined based on historical claims experience. Such payments are displayed on the financial statements as revenues and expenditures/expenses. There have been no significant reductions in insurance coverage from the prior year.

The District became self-insured for its workers' compensation exposures beginning in September 2005. Claims which are due and payable are recorded in the Management Fund, a governmental fund. In 2019, the District became commercially insured for workers compensation. The claim liability below represents the runout claims for the District's formally self-insured plan. Changes in the balances of claims liabilities for the years ended June 30, 2019 and 2018 are as follows:

	Workers Compensation	
	2019	2018
Claims payable, beginning of year	\$ 700,000	\$ 800,000
Incurred claims (including IBNR)	-	302,264
Claim payments	350,000	402,264
Claims payable, end of year	<u>\$ 350,000</u>	<u>\$ 700,000</u>

Note 11. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the local area education agency. The District's actual amount for this purpose totaled \$3,935,098 for the year ended June 30, 2019 and is recorded in the General Fund by making a memorandum adjusting entry to the financial statements.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 12. Commitments and Contingencies

As of June 30, 2019, the District is involved in various claims against the District that arise in the normal course of operations, which are covered by insurance. The outcome and eventual liability of the District, if any, from these claims and any unasserted claims is not known at this time; however, management does not believe they will be material to the basic financial statements.

The District has entered contract commitments with contractors for the completion of several construction projects. The total contract commitments are \$8,824,939 of which \$3,704,633 has been incurred as of June 30, 2019. The unpaid commitment balance is \$5,120,306. Revenue and general obligation bonds will provide funding for these future expenditures.

Note 13. Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments. Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2019 under tax abatement agreements of other entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Clive, Iowa	Urban renewal and economic development projects	\$ 296,348
City of Urbandale, Iowa	Urban renewal and economic development projects	11,152
City of West Des Moines, Iowa	Urban renewal and economic development projects	39,775
City of Windsor Heights	Urban renewal and economic development projects	14,969

The State of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2019, this reimbursement amounted to \$193,132.

Note 14. New Governmental Accounting Standards Board (GASB) Statements

The District adopted the following statements during the year ended June 30, 2019:

GASB Statement No. 83, *Certain Asset Retirement Obligations*: This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 14. New Governmental Accounting Standards Board (GASB) Statements (Continued)

GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*: The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

The implementation of the above statements did not have a material impact to the District's financial statements.

As of June 30, 2019, GASB had issued several statements not yet required to be implemented by the District. The Statements which might impact the District are as follows:

GASB Statement No. 84, *Fiduciary Activities*, issued January 2017, will be effective for the District beginning with its fiscal year ending June 30, 2020. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The focus of the identification criteria established by the Statement is on 1) whether a government is controlling the assets of the fiduciary activity and 2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported as a fiduciary fund in the basic financial statements. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources.

GASB Statement No. 87, *Leases*, issued June 2017, will be effective for the District beginning with its fiscal year ending June 30, 2021. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

West Des Moines Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 14. New Governmental Accounting Standards Board (GASB) Statements (Continued)

GASB Statement No. 89, *Accounting for Interest Cost before the End of a Construction Period*, issued June 2018, will be effective for the District beginning with its fiscal year ending June 30, 2021. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that was previously accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or an enterprise fund. This statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

GASB Statement No. 90, *Majority Equity Interest-An Amendment of GASB Statement No. 14 and No. 61*, issued August 2018, will be effective for the District beginning with its fiscal year ending June 30, 2020. The primary objectives of this Statement are to improve consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies the reporting of a majority equity interest. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities and deferred inflows of resources at acquisition value at the date the government acquired the 100 percent equity interest in the component unit.

GASB Statement No. 91, *Conduit Debt Obligations*, issued May 2019, will be effective for the District beginning with its fiscal year ending June 30, 2022. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements association with conduit debt obligations; and improving required note disclosures. This Statement requires issuers to disclose general information about their conduit debt obligations organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Note to Required Supplementary Information

Note 1. Budgets and Budgetary Information

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private-purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the accrual basis.

Formal and legal budgetary control for the certified budget is based upon four major classes or expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, noninstructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment increasing budgeted expenditures by \$6,144,751.

During the year ended June 30, 2019, expenditures exceeded the amounts budgeted in the noninstructional programs function.

Note 2. Iowa Public Employees' Retirement System Pension Liability

Changes of benefit terms:

Legislation passed in 2010 modified benefit terms for current Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3 percent per year measured from the member's first unreduced retirement age to a 6 percent reduction for each year of retirement before age 65.

Changes of assumptions:

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017.
- Adjusted retirement rates.
- Lowered disability rates.
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

West Des Moines Community School District

Note to Required Supplementary Information

Note 2. Iowa Public Employees' Retirement System Pension Liability (Continued)

The 2014 valuation implemented the following refinements as a result of quadrennial experience study:

- Decreased the inflation assumption from 3.25 percent to 3.00 percent.
- Decreased the assumed rate of interest on member accounts from 4.00 percent to 3.75 percent per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30 year amortization period to a closed 30 year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20 year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

Note: The assessed values are determined as of January 1, of the prior fiscal year indicated. These assessed values are used to calculate the taxable values for the second budget following assessment date. For taxable values for the second budget following assessment date. For example the total assessed value of \$5,558,206,021 from January 1, 2007 is used for the taxable values for fiscal year 2009.

Gas and electric is not subject to property tax, but instead pay utility replacement taxes.

Source: Polk County Auditor's Office.

Note:

* Includes levies for operating and debt service costs.

The District has certain restrictions on raising the property tax rate.

General Fund - the District's enrollment as well as District property value and state aid is formula calculated to determine the maximum amount of allowable funding.

Special Revenue Funds - The Special Revenue Fund, PPEL has a restriction from voters of \$1.00 and board imposed levy up to \$0.33.

Estimated Future Tax Revenues

(Unaudited)

Presented below is a table illustrating the estimated collections of the tax for the periods indicated, using the assumptions below:

Fiscal Year June 30:	Without Growth Estimated Collection (1)(3)	With Growth Estimated Collection (2)(3)
2016	\$ 7,910,206	\$ 8,456,436
2017	7,910,206	8,610,354
2018	7,910,206	8,764,272
2019	7,910,206	8,927,244
2020	7,910,206	8,918,190
2021	7,910,206	8,918,190
2022	7,910,206	8,918,190
2023	7,910,206	8,918,190
2024	8,227,611	8,918,190
2025	8,227,611	8,918,190
2026	8,227,611	8,918,190
2027	8,227,611	8,918,190
2028	8,227,611	8,918,190
2029	8,227,611	8,918,190
2030	4,113,805	4,463,622

(1) FY2015 Tax Revenue is based on Iowa Department of Revenue estimates and includes a projection for the November 2014 reconciliation payment in the amount of \$400,551 which represents the remaining 5% of the collections estimated by the Iowa Department of Revenue

(2) The District projects future enrollment to remain stable at 9,054. Estimated growth in District's Tax Revenue reflective of the projected increase in the Statewide Average Revenue Per Student as previously stated

(3) The Tax expires December 31, 2029 for Dallas County and schools will receive revenue for only one-half of the FY2030.

West Des Moines Community School District

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2019

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of West Des Moines Community School District under programs of the federal government for the year ended June 30, 2019. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 2. Significant Accounting Policies

Expenditures reported on the schedule of expenditures of federal awards are reported on the modified accrual or accrual basis of accounting based on the fund type of the program. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Revenue from federal awards is recognized when the District has done everything necessary to establish its right to revenue. For governmental funds, revenue from federal awards is recognized when it is both measurable and available. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

Note 3. Indirect Cost Rate

The District has elected not to use the 10-percent de minimus indirect cost rate allowed under the Uniform Guidance.

West Des Moines Community School District

Summary Schedule of Prior Audit Findings

Year Ended June 30, 2019

Findings	Status	Reason for Recurrence and Corrective Action Plan or Other Explanation
Findings Related to Basic Financial Statements		
2018-001 The District did not properly record expenditures and accounts payable pertaining to required remittances.	Corrected	
Findings Related to Federal Awards		
2018-002 The District has inadequate documentation for 2017-002 allowable costs for split-funded employees.	Not Corrected	Recurrence due to timing needed to post new positions. See corrective action plan at 2019-001.
Findings Related to Statutory Reporting		
IV-A-18 Expenditures in the instruction function exceeded the amended budget.	Not Corrected	Recurrence due to year-end adjustments exceeding budget amendment.
IV-F-18 The District did not publish the monthly summary of bills for February 2018 and August 2017.	Corrected	
IV-G-18 The District identified variances in certified enrollment certified to the state in October 2017.	Not Corrected	Recurrence due to database not maintaining most current information.
IV-H-18 The District identified variances in supplementary weighting certified to the state in October 2017.	Not Corrected	Recurrence due to database not maintaining most current information.

WEST DES MOINES
COMMUNITY SCHOOLS

**Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance With Government Auditing Standards**

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of West Des Moines Community School District (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 25, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of West Des Moines Community School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance or other matters which are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2019 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

District's Response to Finding

The District's response to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Moline, Illinois
November 25, 2019

**Independent Auditor's Report on Compliance For Each
Major Federal Program and On Internal Control
Over Compliance Required by the Uniform Guidance**

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

Report on Compliance for Each Major Federal Program

We have audited West Des Moines Community School District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs as item 2019-001 that we consider to be a significant deficiency.

The District's response to the internal control over compliance finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Schedule of Findings and Questioned Costs Year Ended June 30, 2019

Part II: Findings Related to the Basic Financial Statements

Instances of noncompliance:

No matters were reported.

Internal control deficiencies:

No matters were reported.

Part III: Findings and Questioned Costs for Federal Awards

Instances of noncompliance:

No matters were reported.

Internal control deficiencies:

2019-001

U.S. Department of Agriculture

Passed Through State Department of Agriculture and

State of Iowa Department of Education/

Child Nutrition Cluster:

National School Breakfast Program (CFDA 10.553)

National School Lunch Program (CFDA 10.555)

Commodities-Noncash (CFDA 10.555)

Summer Food Service Program For Children (CFDA 10.559)

Federal Award Numbers: 77-1737

Federal Award Year: 2019, 2018, and 2017

Finding: The District has inadequate documentation for allowable costs pertaining to compensation expenditures of split-funded employees.

Criteria: Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) in Section 200.430 Compensation-personal services paragraph (i) *Standards for Documentation of Personnel Expenses* states... “(vii) Support the distribution of the employee’s salary or wages among specific activities or cost objectives if the employee works on more than one Federal award; a Federal award and non-Federal award; an indirect cost activity and a direct cost activity; two or more indirect activities which are allocated using different allocation bases; or an unallowable activity and a direct or indirect cost activity. (viii) Budget estimates (i.e. estimates determine before the services are performed) alone do not qualify as support for charges to Federal awards, but may be used for interim accounting purposes, provided that: (A) The system for establishing the estimates produces reasonable approximations of the activity actually performed; (B) Significant changes in the corresponding work activity (as defined by the non-Federal entity’s written policies) are identified and entered into the records in a timely manner....and (C) The non-Federal entity’s system of internal controls includes processes to review after-the-fact interim changes made to a Federal awards based on budget estimates. All necessary adjustments must be made such that the final amount charged to the Federal award is accurate, allowable, and properly allocated.”

Condition: The District did not maintain documentation supporting the compensation expenditures charged to the program for eleven building secretaries that have a portion of their compensation charged to the Nutrition Program. An initial allocation percentage was determined for budget purposes. The employee timesheets do not separately indicate the time actually spent on the Nutrition program.

West Des Moines Community School District

Schedule of Findings and Questioned Costs Year Ended June 30, 2019

Questioned Costs: \$0

Context: There are eleven elementary building secretaries that have a portion of their compensation charged to the Nutrition Program.

Effect: Noncompliance with program requirements could occur and not be timely identified. The program may not be properly charged for the actual time worked on the activity.

Cause: The employees are building secretaries for the District's elementary schools that have different time record keeping documentation than Nutrition program employees and are supervised by building principals rather than by the Nutrition department.

Identification of as a Repeat Finding: This is a repeat finding.

Recommendation: We recognize the District implemented requesting signed certifications from the elementary building secretaries as planned when the finding was initially identified in fiscal year 2017. We recommend the District implement a process to accurately document the actual hours worked for the Nutrition program.

Response and Corrective Action Plan: Beginning July 1, 2019, only nutrition employees are charged to the program. New position were posted during fiscal year 2019 to eliminate having non-nutrition employees allocate time for the program.

Part IV: Other Findings Related to Statutory Reporting

IV-A-19 - Certified Budget:

Finding: Expenditures for the year ended June 30, 2019 exceeded the amended certified budget in the noninstructional programs function. Expenditures in the other function exceeded the original budget prior to the amendment.

Recommendation: The certified budget should be amended before expenditures are allowed to exceed the budget.

Response and Correction Action Plan: Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded. Generally, the budget is amended in May or June. Going forward, amendments will be considered in February.

Conclusion: Response accepted.

IV-B-19 - Questionable Expenditures: There were no expenditures noted that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.

IV-C-19 - Travel Expense: No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-19 - Business Transactions: No business transactions between the District and District officials or employees were noted except for the following:

The District incurred \$36,500 in expenditures to Drake University. Board Member Jill Johnson is an employee of Drake University and abstains from voting on the transactions. In accordance with the Attorney General's opinion dated November 9, 1976, the transactions do not appear to represent a conflict of interest.

West Des Moines Community School District

Schedule of Findings and Questioned Costs Year Ended June 30, 2019

IV-E-19- Bond Coverage: Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.

IV-F-19 - Board Minutes: No transactions requiring Board approval which had not been approved by the Board were noted.

IV-G-19 - Certified Enrollment:

Finding: The District identified variances in certified enrollment certified to the state in October 2018.

Recommendation: We recommend the District review certified enrollment data for accuracy prior to submission to the state.

Response and Correction Action Plan: The District will continue to review data prior to submission. Unfortunately, facts are learned after certification date that result in required adjustments.

Conclusion: Response accepted.

IV-H-19 - Supplementary Weighting:

Finding: The District identified variances in supplementary weighting certified to the state in October 2108.

Recommendation: We recommend the District review certified enrollment data for accuracy prior to submission to the state.

Response and Correction Action Plan: The District will continue to review data prior to submission.

Conclusion: Response accepted.

IV-I-19 - Deposits and Investments: No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

IV-J-19 - Certified Annual Report: The certified annual report was certified timely to the Iowa Department of Education.

IV-K-19 - Categorical Funding: No instances of categorical funding being used to supplant rather than supplement other funds were noted.

West Des Moines Community School District

**Schedule of Findings and Questioned Costs
Year Ended June 30, 2019**

IV-L-19 - Statewide Sales and Services Tax: No instances of noncompliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted. Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2019, the District reported the following information regarding the statewide sales and services tax revenue in the District's CAR:

Beginning balance		\$	12,919,490
Revenues/other financing sources:			
Statewide sales and services tax revenue	\$	9,148,540	
Investment earnings		229,482	
Other local sources		<u>28,677</u>	9,406,699
Expenditures/other financing uses:			
Instruction		2,678,477	
Support services		127,708	
Transfers out, debt service		3,017,573	
School infrastructure:			
Buildings		<u>5,380,977</u>	<u>11,204,735</u>
Ending balance			<u><u>\$ 11,121,454</u></u>

For the year ended June 30, 2019, the District reduced the tax levy by not having a debt service levy of \$1.91 per \$1000 of taxable valuation as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.
